Navigate to the folder where you want to save the new file. Next, click the downward arrow at the end of the Save as type: box to see the drop-down menu.

File name:	Offers	~
Save as type:	Excel Workbook	\odot

Select "CSV (comma delimited)"

File name:	Offers	~
Save as type	CSV (Comma delimited)	\sim

Click Save.

You should now have 2 files: one in CSV format and one in XLSX format. The file shown below with the type "Microsoft Excel Comma Se..." is the CSV file. Yours may display differently based on your computer settings, but there should be an indicator showing that it is CSV or comma separated values.
