- Patented filtering system
- Unified view into government
- Multiple view options

Discoverability & Extraction

- Graphs & visualizations
- Trending of content
- Tab drill-down
- Extensive metadata
- CC text from over 700,000 videos

Sharing

- Administrator portal
- Feeds, Alerts, Saved Searches
- Folders, Reports

Our users say it best...

“Positioned to become an indispensable source for unbiased unmediated views into U.S. Government information and activity”

Dante Disparte, Head of Communications, Libra Facebook

“A veritable goldmine of hidden U.S. Government insights and trends ... VoxGov offers a treasure trove of hidden government data”

Jean O’Grady, Sr. Director of Research and Knowledge at DLA Piper, Attorneys

“I wanted to emphasize how incredibly useful voxgov has been for us during the coronavirus crisis. Creating alerts (and) keeping us up-to-date real time in an otherwise overloaded information glut Voxgov also has been a terrific investigative tool to search for historical agency and other material for our longer-term projects.”

Michael Siconolfi, Editor, Investigations, Wall Street Journal

“For me the key differentiators are the breadth and depth of collection of federal political actors’ communications in real time and its ability to leverage extensive metadata to conduct pattern analysis. This is ... a functionality that is either entirely missing or badly done in other products.”

Jeremy Darrington, Politics Librarian, Princeton University Library

>> Mr. Zients: Good morning, and thank you for joining us.

2s Today, the main topic of our briefing

5s is our plan for **booster shots**

8s So I'll turn to Dr. Murthy, Walensky,

11s and Fauci in just a moment.

14s First, I want to provide a brief update

17s on our fight against the virus.

19s We continue to see a rise in cases driven

23s by the more transmissible Delta variant,

25s with cases concentrated in communities.

29s with lower vaccination rates.

31s So this remains a pandemic of the unvaccinated.
