Library Program

LibGuides

What are FDLP LibGuides?

Federal Depository Library Program / LibGuides

Welcome to FDLP LibGuides

There are three groups of guides in FDLP LibGuides- FDLP Information, Hot Topics, and Subject Guides. FDLP Information guides contain resources and guidance for depository libraries. These are intended to simplify your depository operations and help depository libraries provide services to their users. Hot Topics contain collections of guides on specific topics that are of current interest. These can include guides from any of the other groups. Subject Guides contain information about specific topics, including resource lists, search tips, and community guides. Community guides are arranged by topic and contain links to guides created by libraries and agencies outside of GPO. These are housed on the creating institution's websites.
