

Titles to Be Discontinued in Microfiche after April 30, 2022

If your library selects the item in the MF Item No column, add the item in the P Item No column to receive the title in paper format. For an online alternative, add the item in the EL Item No column. For titles discontinued in microfiche at the end of a contract, microfiche publications will continue to be distributed until all content “in the pipeline” at the end of the contract has been distributed.

Note: For the bound Congressional Record, the Index and Daily Digest are distributed in microfiche under a single item number. The paper format has separate item numbers for the Index and the Daily Digest.
