#### Superseded List, 2002 Contributors

The Library Programs Service wholeheartedly thanks the members of the Superseded List Update Committee who took the time from their regular schedules to examine their Federal documents collections for new additions and to update the entries from the 1996 list.

Special thanks are offered to Carlos Diaz, from Evergreen State College in Olympia, Washington, who took on additional assignments when some volunteers had to drop out of the project.

## Superseded List, 1996 Edition Contributors

### Purpose of the list

The purpose of the Superseded List is to assist selective depository documents librarians in disposing of superseded materials. The materials listed in this publication may be discarded **before** the normal 5-year retention period for non-superseded materials, **without** submitting them on a weeding list for Regional library approval.

### Background

This year 2000 Web Superseded List updates the 1996 print edition. That 1996 edition was the second to be issued as a separate publication, updating the 1992 edition. The 1984 and 1986 editions appeared as Appendix C to the **Instructions to Depository Libraries**. The 1996 list, like the earlier versions, was prepared by the members of the Superseded Documents Committee, who volunteered to revise individual sections.

The present revision represents the efforts of a new committee of 15 volunteers formed at the fall 1984 meeting of the Depository Library Council in Washington, D.C. Patricia Sloan, a member of the original committee, served as chair. Only current depository series were reviewed by both committees. This revised list contains the entries from the original list plus the entries added in this revision. Committee members reviewed their own collections for examples, contacting regional depositories and issuing agencies when necessary. The following list identifies the agency classification assignments for each of the present committee members.

**Superseded List, 1984 Edition Contributors**  
**[ from Appendix C of the Instructions to Depository Libraries, June 1984 ]**

This list was compiled by five documents librarians who volunteered to work on developing a list to help identify superseded material. The need for a more definitive list of superseded titles was raised at the meeting of Regional Depositories held in conjunction with the Depository Library Council to the Public Printer in St. Paul, Minnesota on April 27, 1980. A Superseded Documents Committee was formed and charged with the task of developing a list of items which depositories could discard in compliance with Section I of the Instructions to Depository Libraries. The Committee worked on developing a draft list to present at the second meeting of Regional Depositories held at the Council meeting in Alexandria, Virginia on September 28, 1980. Following discussion and recommendations from the attendees, the Committee revised the list and presented it to the Council's Depository Library System Committee, chaired by Pat Sloan, at the April 1981 Council meeting in San Antonio, Texas. On April 15, 1981 the Depository Library Council passed a resolution adopting the list and recommending that it be printed and distributed by the Government Printing Office. Following the Council meeting the final draft list was slightly revised, compiled by Pat Sloan and forwarded to the Government Printing Office.

Each member of the committee worked on certain agency classification numbers.
