DocsTeach

Teach with documents using our online tool. Explore primary sources. Discover fun and engaging teaching activities. Create your own online or print activities for your students!

Is your institution supportive of OER?

Is the library asked for advice?

Are you asked for resources?

Does your library provide access?

Do you have an OER specialist?

Government Information: A Reference for Librarians in Hawai'i

Gwen Sinclair

Government Information: A Reference for Librarians in Hawai'i draws on a wide range of sources to educate librarians about federal, state, local, and international government information with an emphasis on Hawai'i. Case studies illustrate specific types of government information. Each chapter features a list of additional resources for further reading.

How are you providing access to OER materials?

- Libguides
- Institutional repositories
- Collaboration on a textbook
- Primary sources
- Lesson plans
- Infographics
- Data

Data and Data Visualization

Below you will find sources for data, and data visualization.

^ AGRICULTURE

[Census of Agriculture](#)

The Census of Agriculture is a complete count of U.S. farms and ranches and the people who operate them. Even small parcels of land - whether rural or urban - growing fruit, vegetables or some food animals count if \$1,000 or more of such products were raised and sold, or normally would have been sold, during the Census year. The Census of Agriculture, taken only every five years, looks at land use and ownership, operator characteristics, production practices, income and expenditures.

[Quick Stats Lite](#) provides a more structured approach to get commonly requested statistics from our online databases.

[Access Census Data Query Tool](#)

The Census Data Query Tool (CDQT) is a web based tool that is available to access and download table level data from the Census of Agriculture Volume 1 publication.

[Data Visualizations](#)

Interactive data visualizations. Other resources include:

- [CropScape](#)

Do you want to be involved in...

- Developing/ creating OER materials
- Teaching about OER resources

Have you incorporated government OERs into a textbook?

Climate and the Effects of Global Climate Change
