

“Painless” Offers Lists

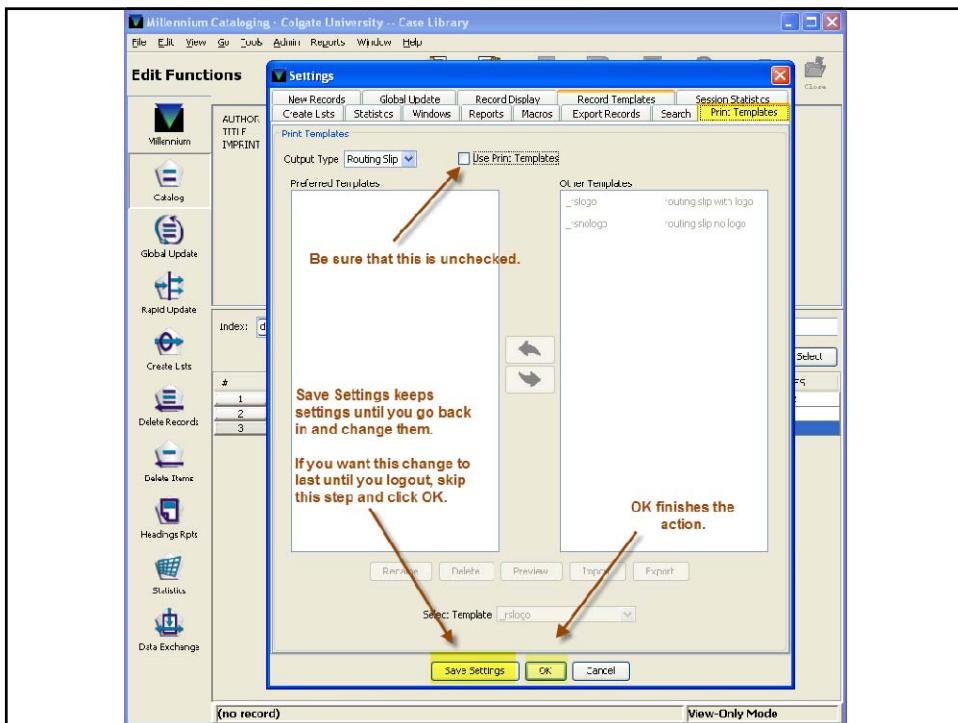

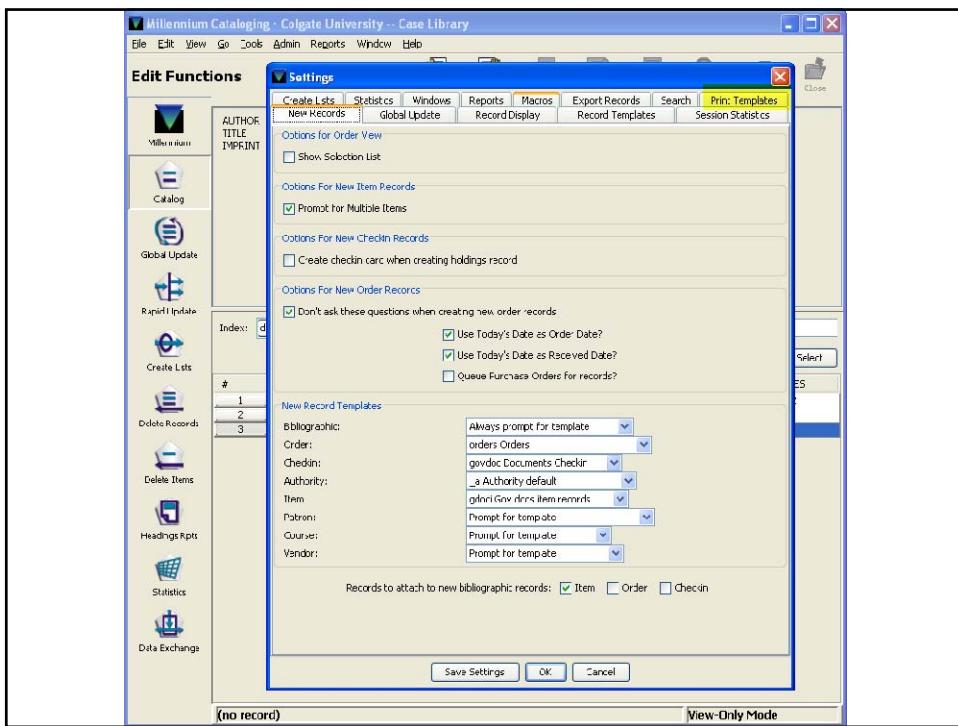

Mary Jane Walsh
Colgate University Libraries
Hamilton, NY

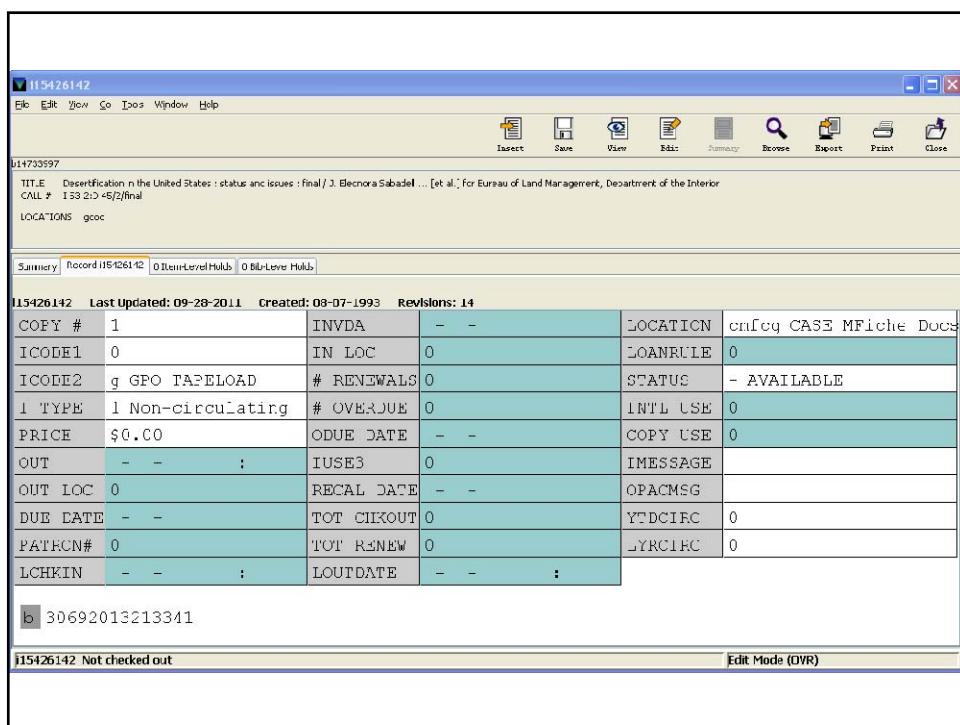

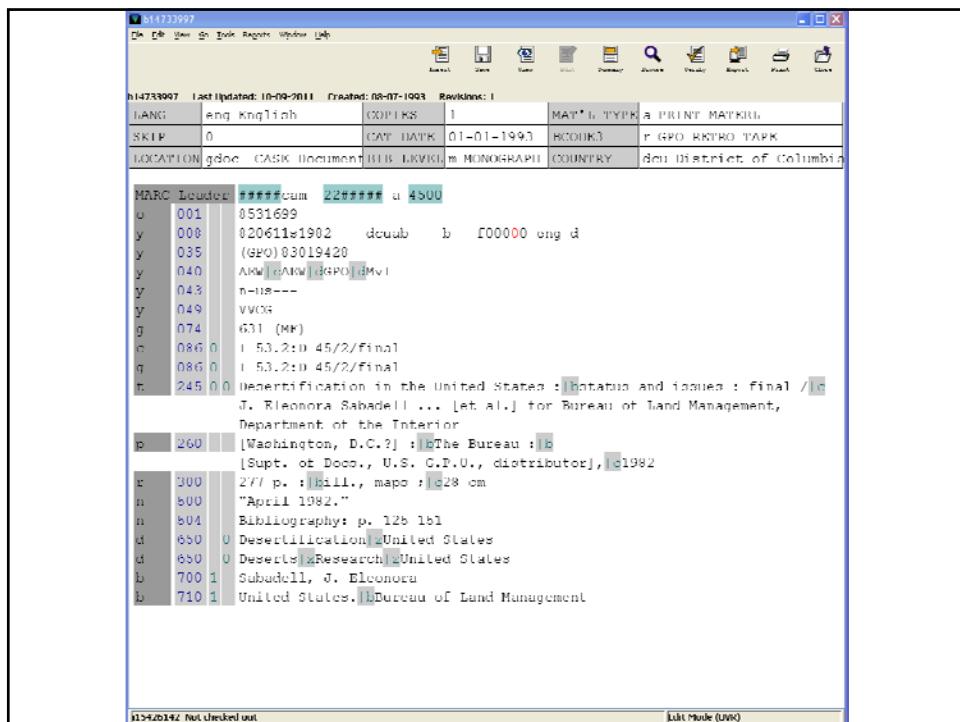

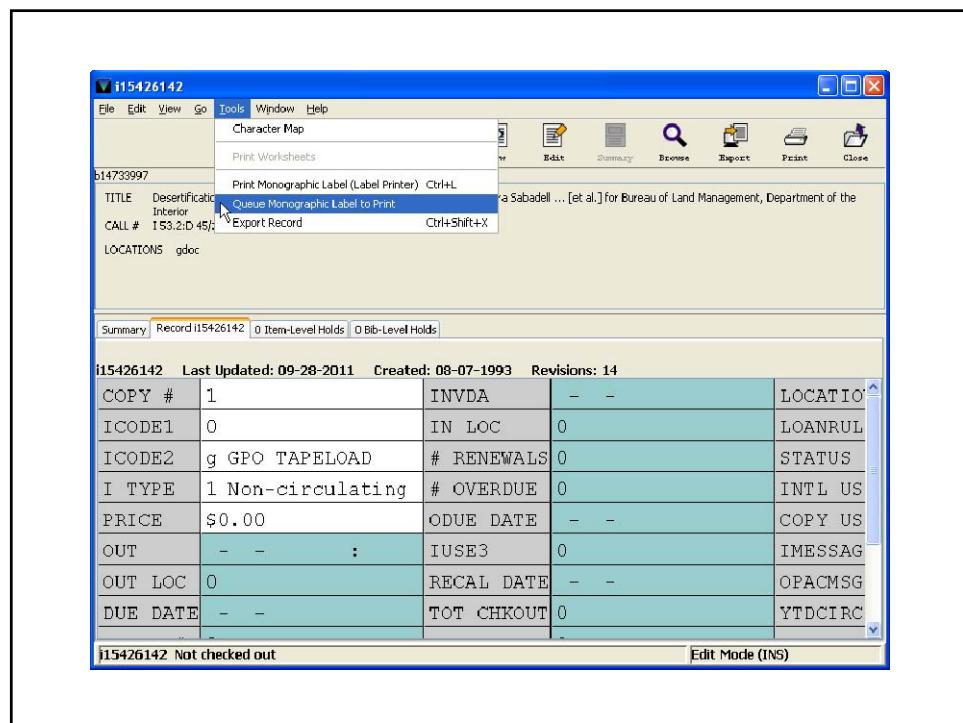

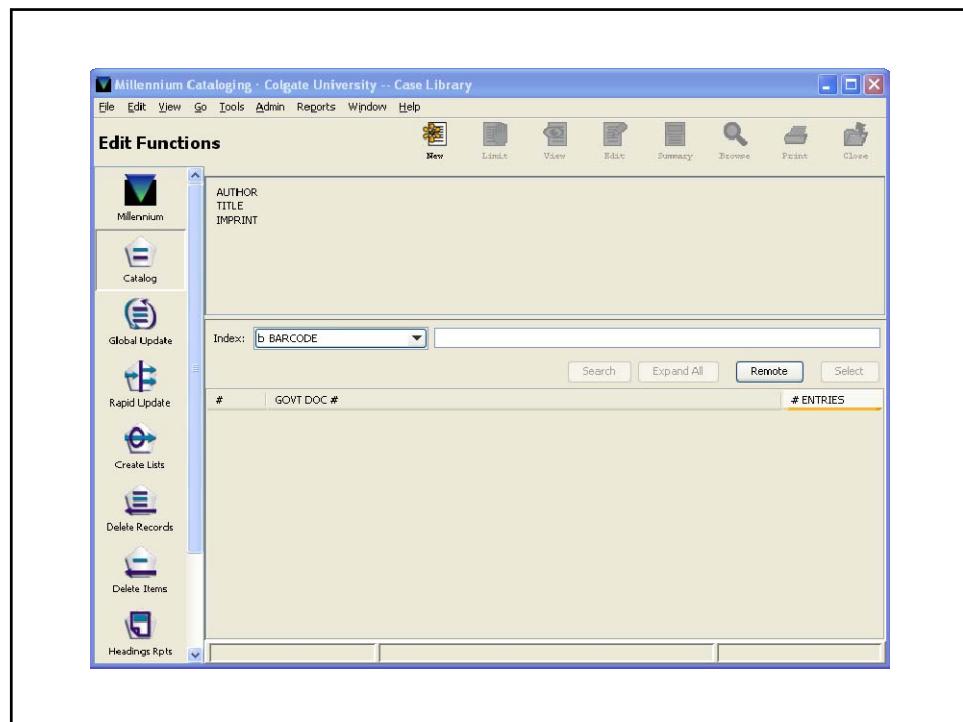

The screenshot shows the Millennium Cataloging interface for Colgate University's Case Library. The window title is "Millennium Cataloging - Colgate University -- Case Library". The menu bar includes File, Edit, View, Go, Tools, Admin, Reports, Window, and Help. The "Admin" menu is open, showing options like Set Initials, Clear Initials, Free Records In Use, Login Manager, Passwords and Authorizations, Settings (which is selected), and Parameters. A toolbar below the menu contains icons for New, Limit, View, Edit, Summary, Browse, Print, and Close. The main pane displays a search results list. The search index is set to "EXACT SUBJECT" and the search term is "religion and law". The results table has columns for "#", "EXACT SUBJECT", and "# ENTRIES". The results are:

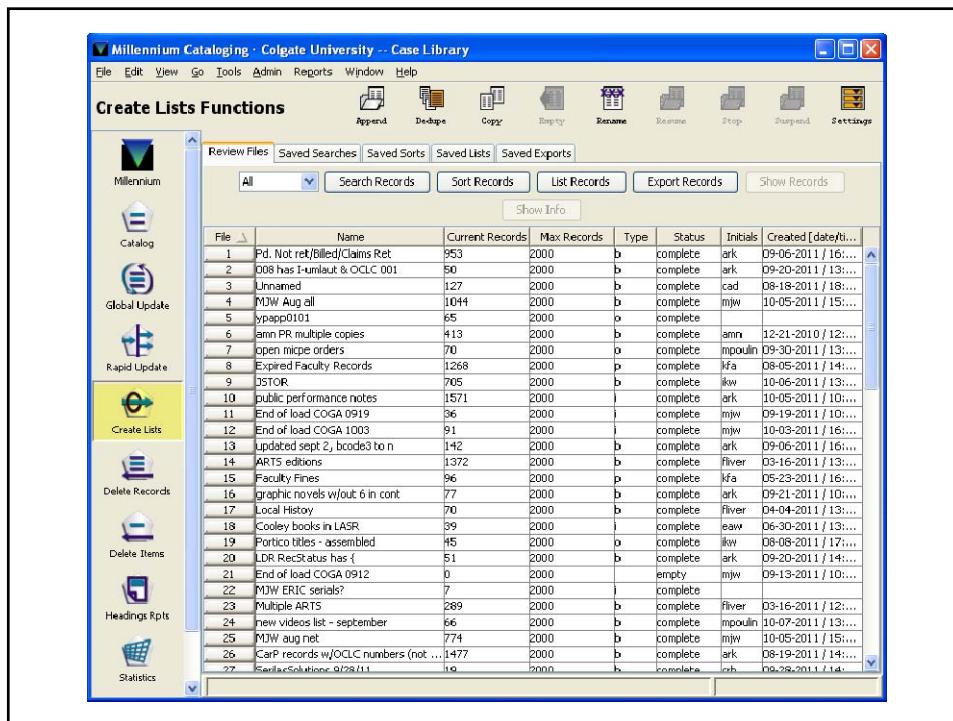

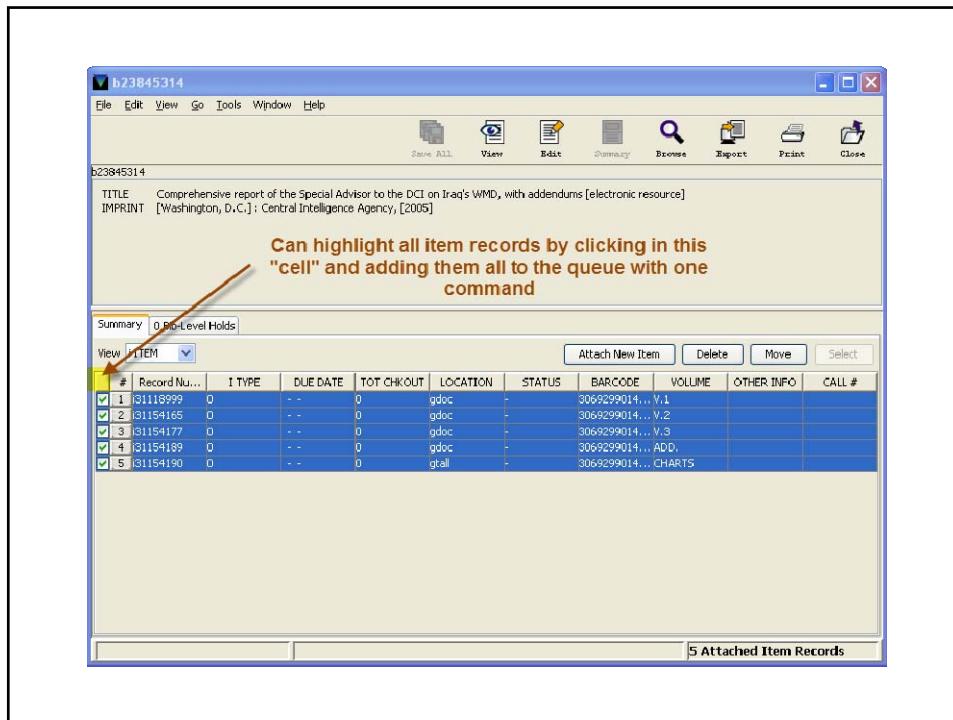

#	EXACT SUBJECT	# ENTRIES
1	Religion And Law	2
2	After secular law : CASE Main :	
3	* The clash of orthodoxies : law, religion, and morality in crisis : CASE Main : George, Robert P.	

At the bottom left, it says "(no record)" and at the bottom right, it says "View-Only Mode".

Offers Lists in word processor

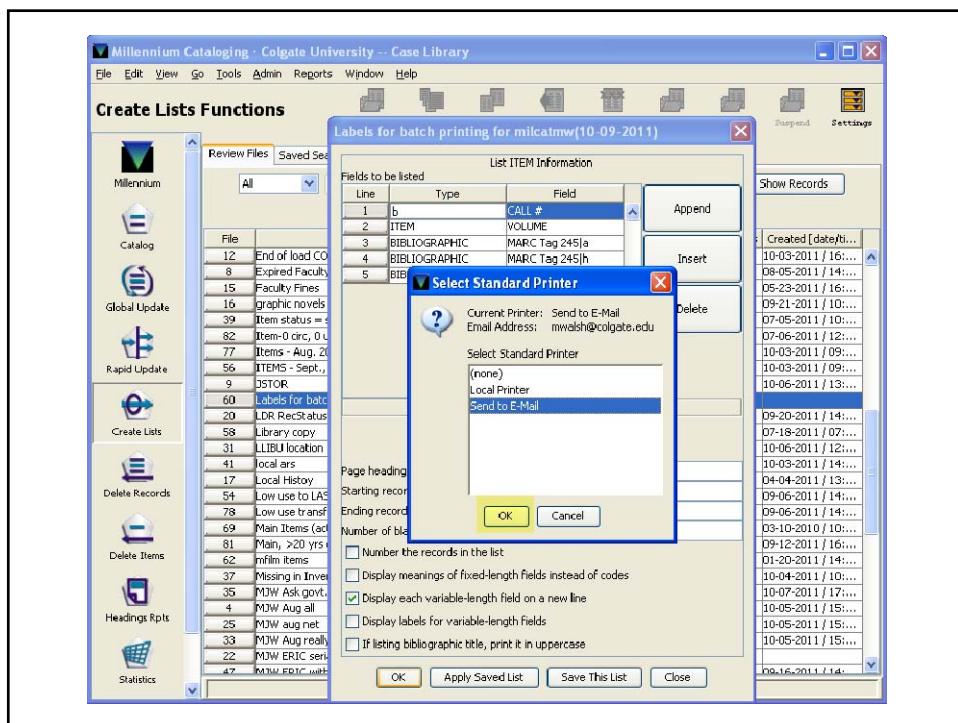

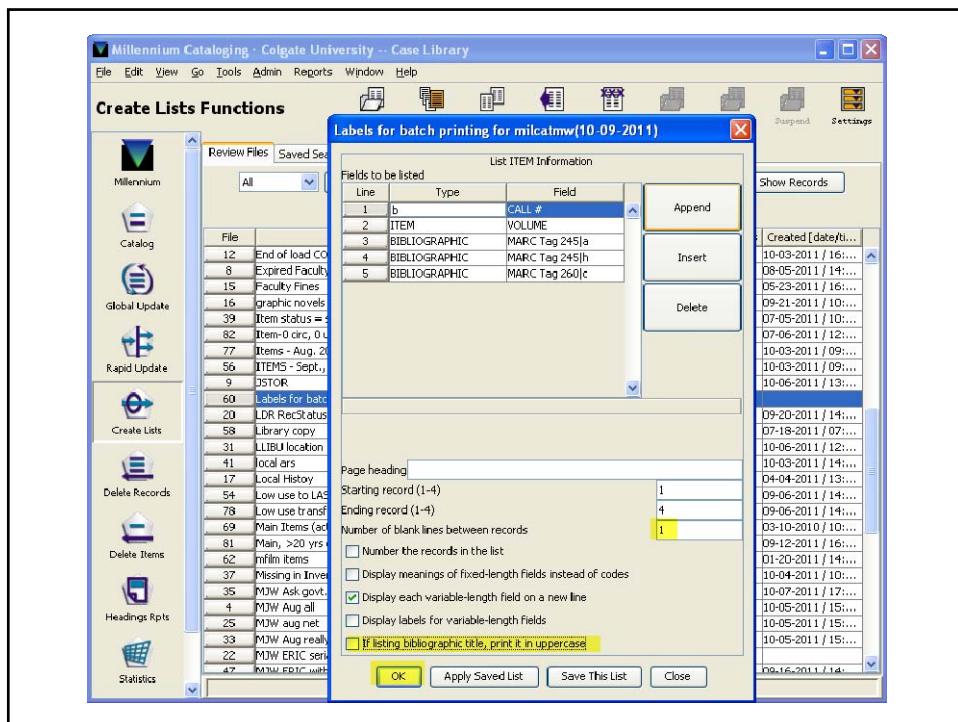

- Select email as your standard printer
- List the fields that you want
- Email the results to yourself
- Copy the text of the email
- Paste into your word process
- Tidy up, as needed

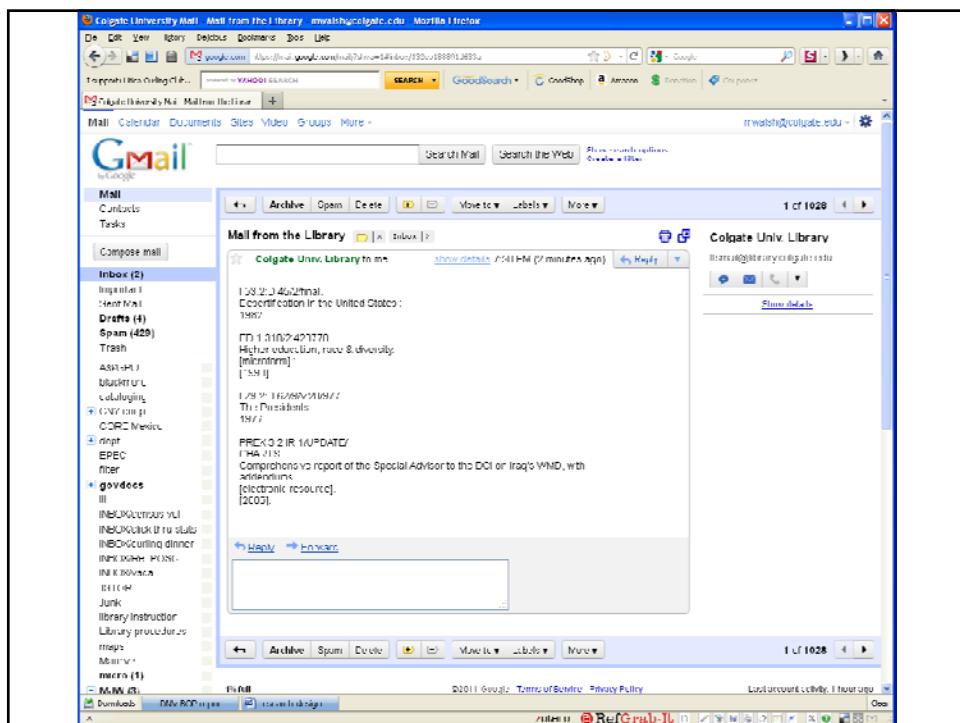

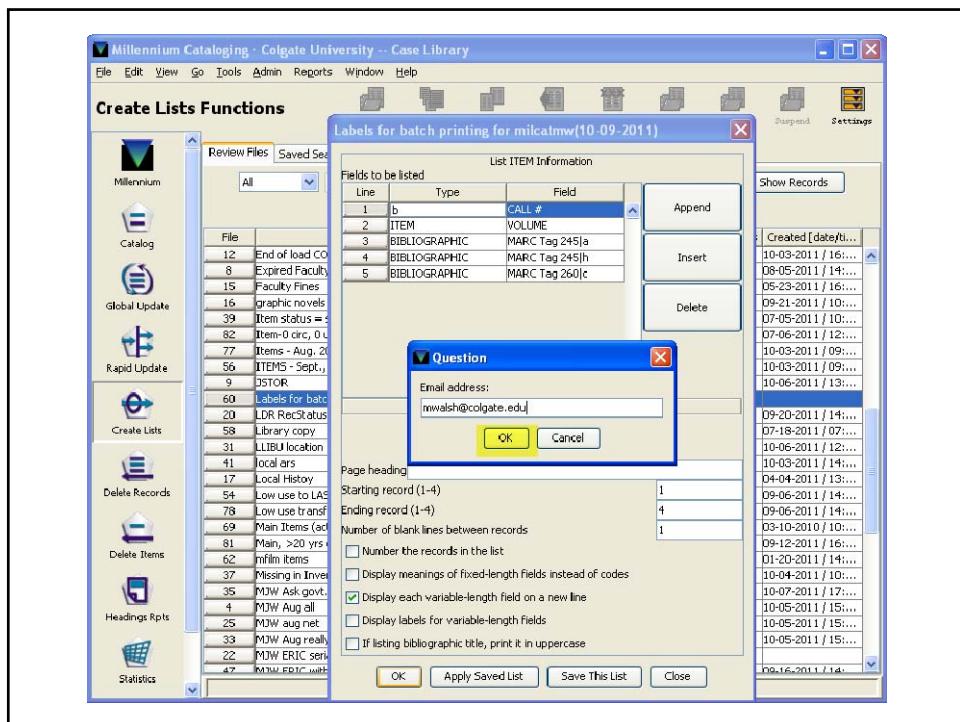

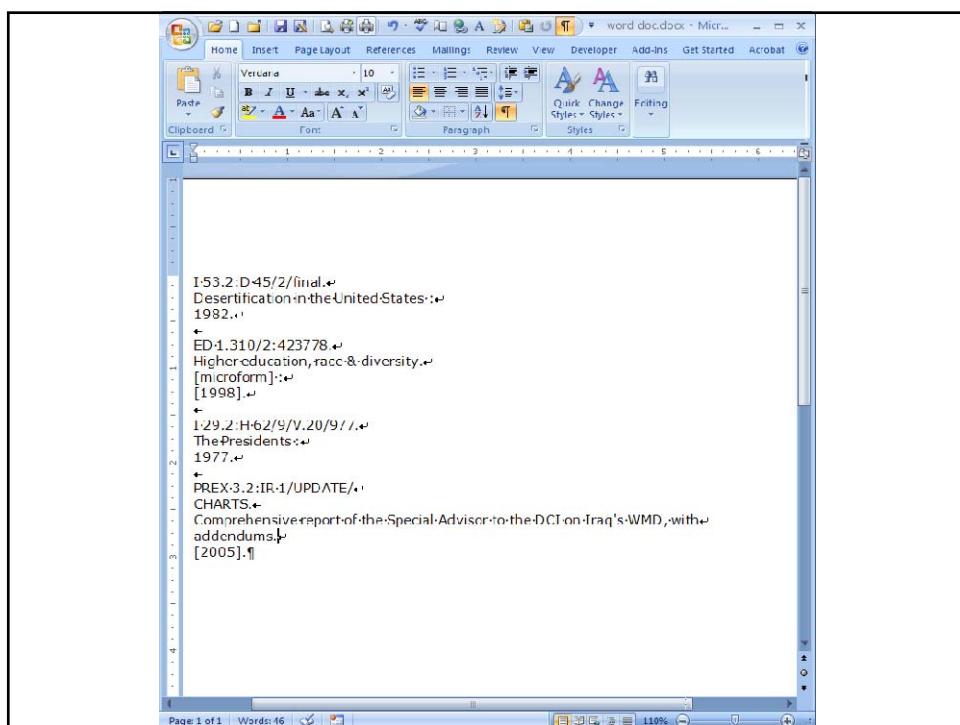

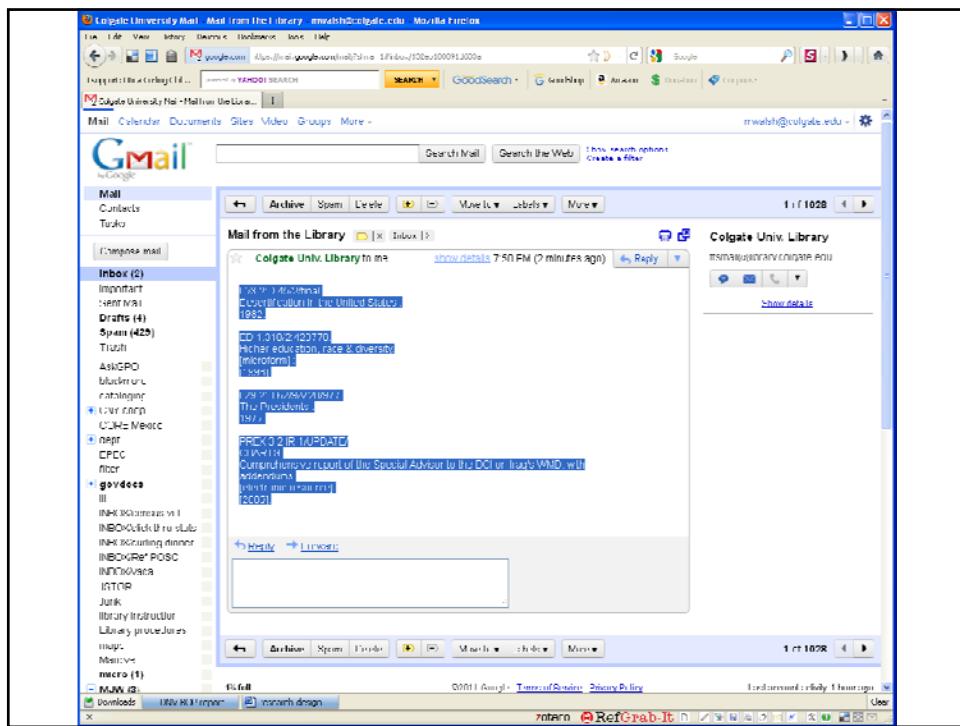

Edit as needed/desired

Easiest when create separate offers lists for different formats

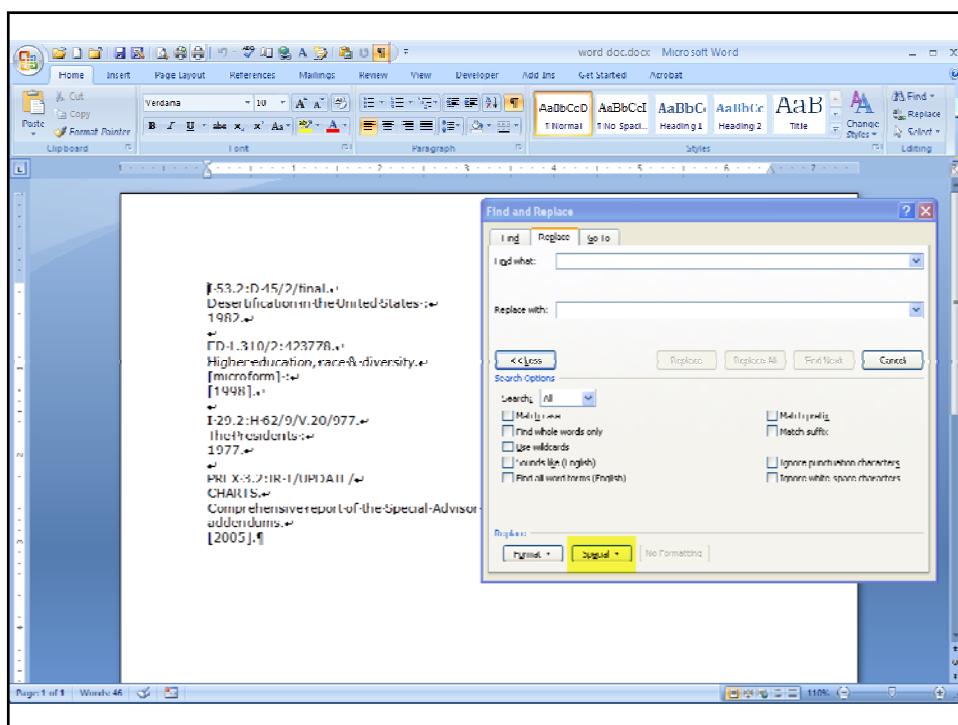

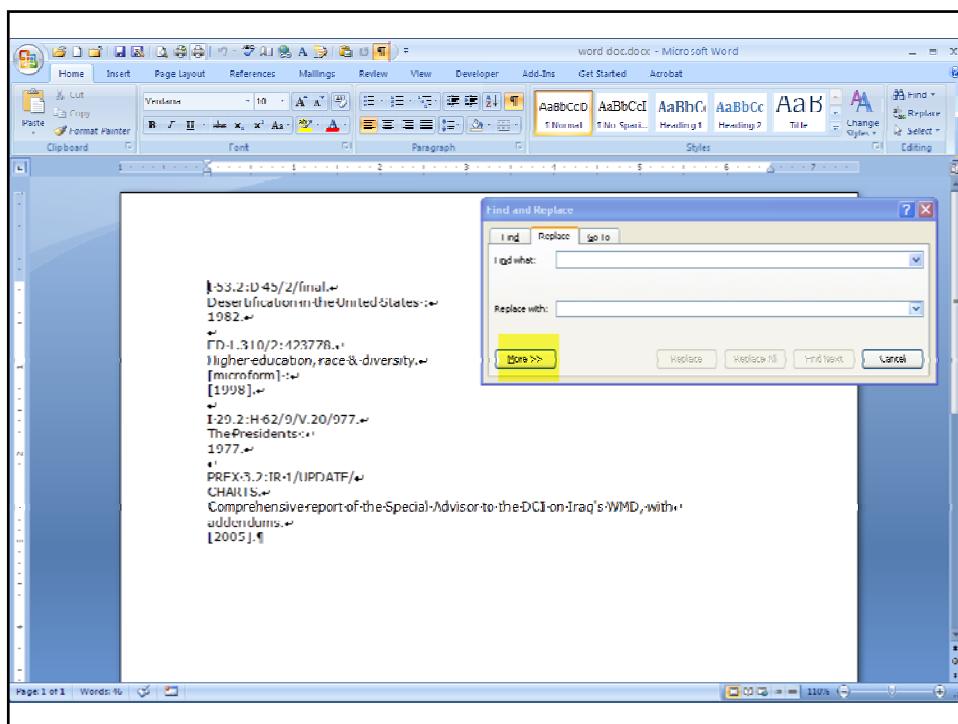

- Search for the double manual line break and replace with a single line break, format characters (e.g. paper), double line break

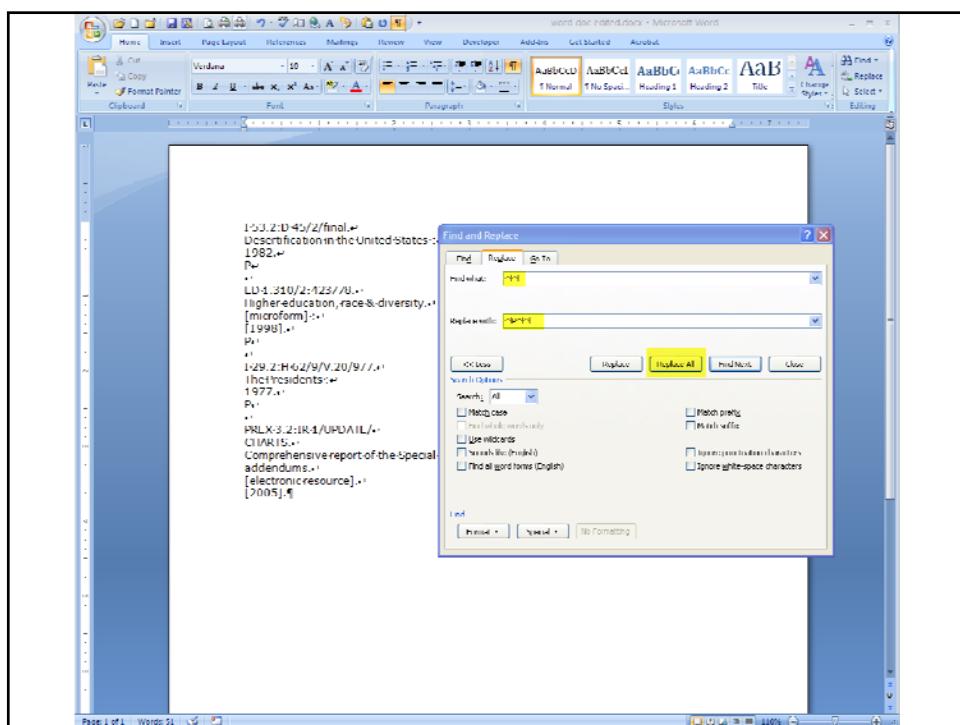

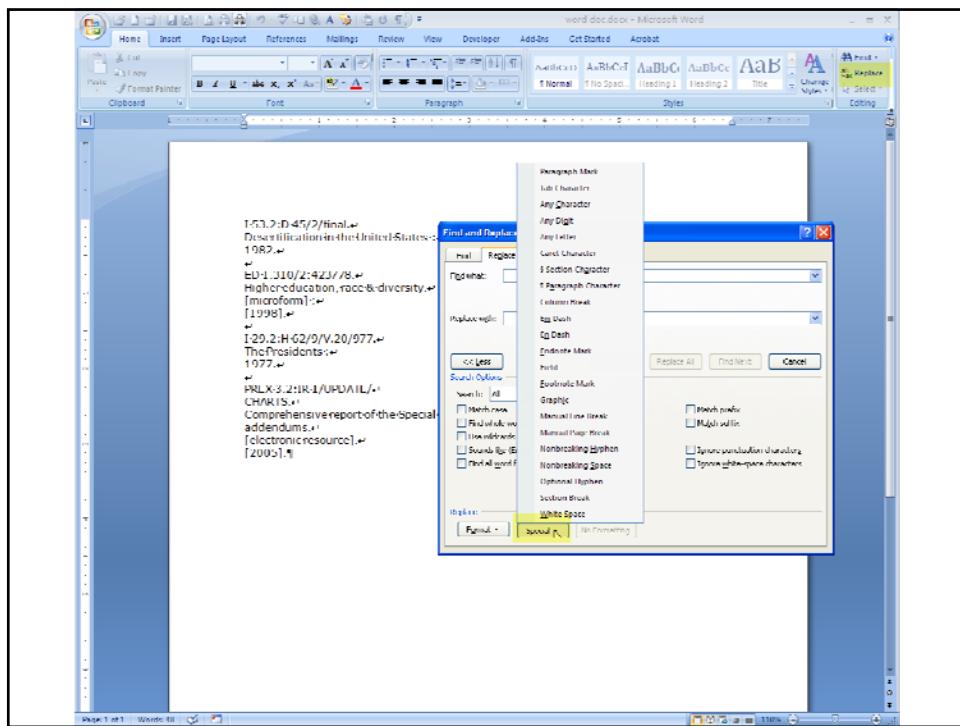

If combining formats:

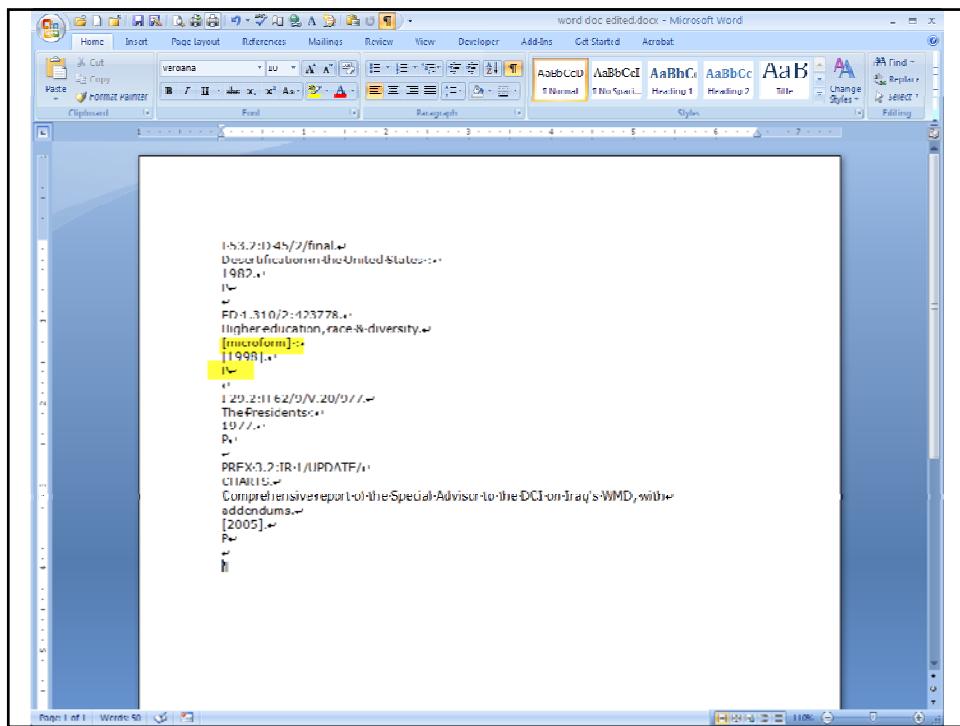

- Insert paper format for all titles on the list, then
- search for subfield h info, and input by hand

A screenshot of a Microsoft Word document titled "word doc.docx - Microsoft Word". The ribbon menu is visible at the top. The main content area contains a list of bibliographic entries, each starting with a code like ED1.310 or I-53.2 and followed by a title and publication details. A red arrow points from the text "search for subfield h info, and input by hand" in the previous slide to the "Replace" button in the Microsoft Word ribbon's Home tab, indicating where this action should be performed.

```
I-53.2:D<5/2/final.  
Desertification in the United States.  
1982.  
ED1.310/2:423778.  
Higher education, race & diversity.  
[microform].  
[1998].  
I-29.2:H-62/9/V.20/9//.  
The Presidents.  
1977.  
PREX-3.2:IR-1/UPDATE/  
CHARTS.  
Comprehensive report of the Special Advisor to the DCI on Iraq's WMD, with  
addendums.  
[2005].
```

Save and Send/Paste

Save the file and proceed through your normal offers routine.

Copy the contents of the resulting document can be copied into the National Needs and Offers web form. Looks strange to you, but results are OK.

For example

Offers Lists in spreadsheets

Same steps to create the review file in III
Millennium

From Create Lists:

- Export (not List) selected fields to a text file
- Import text file into spreadsheet software
(example is Excel 2007)

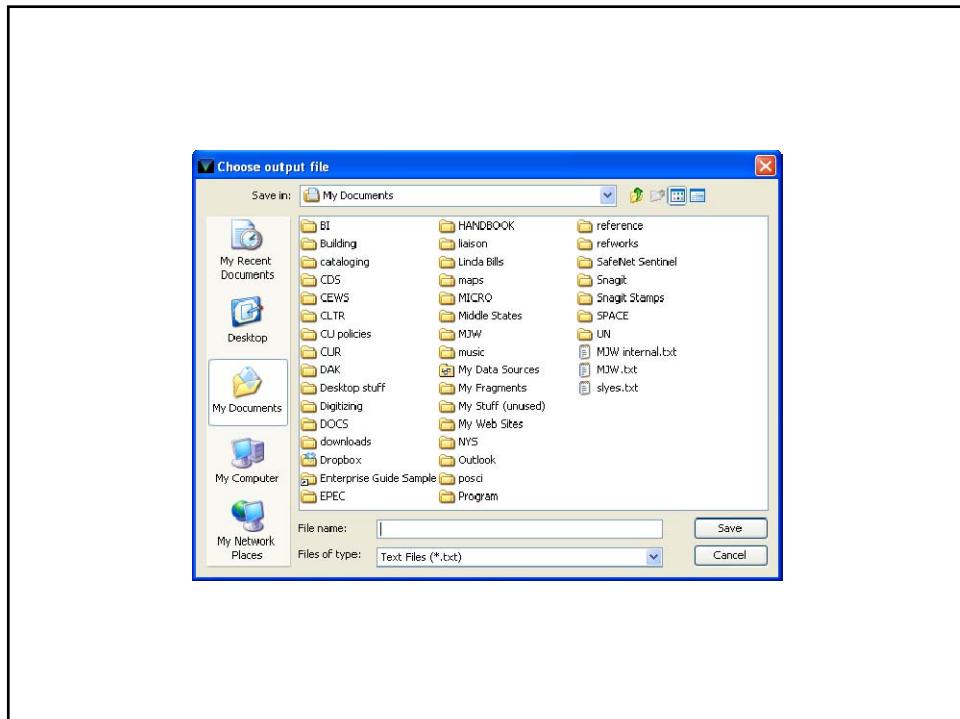

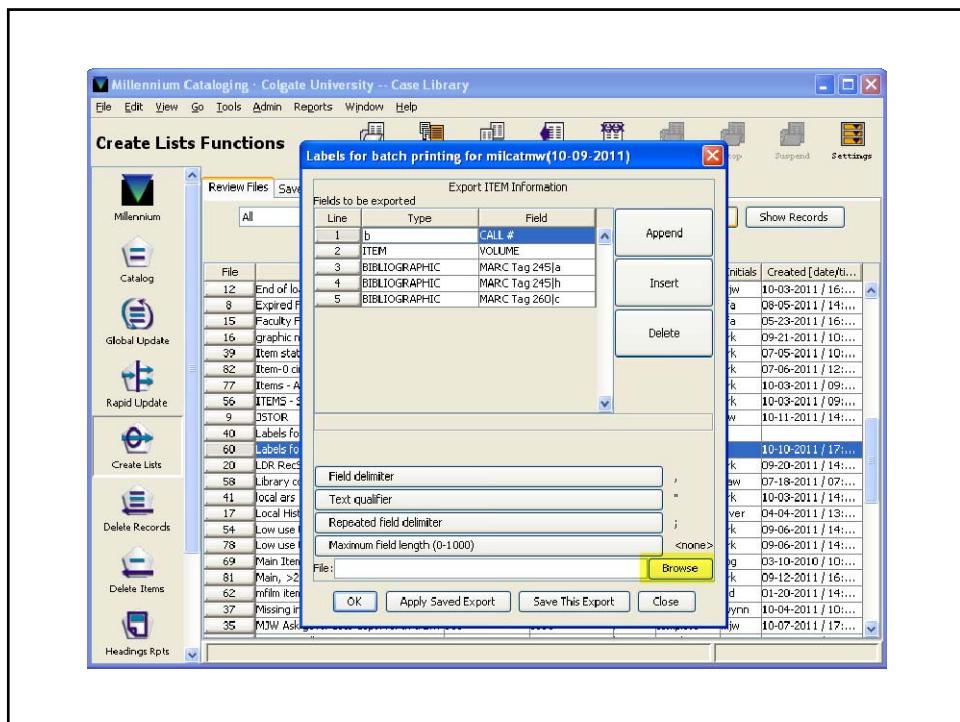

Millennium Cataloging - Colgate University -- Case Library

Updating Records

See handouts at:

[https://sites.google.com/a/colgate.edu/govdocs
/fdlp-fall-2011-presentation](https://sites.google.com/a/colgate.edu/govdocs/fdlp-fall-2011-presentation)

- walsh-iii-rapid-update if you need to update fixed fields only
- walsh-iii-global-update if you need to update fixed **and** variable fields

Other uses for Queue Monographic Labels

- Updating records in a batch
- Checking for “left-over” shipping lists records after a load (good if your GPO profile is out of synch with your Marcive profile)
- Printing labels ;-)
- Others?

Handouts, comments, questions

See handouts at:

[https://sites.google.com/a/colgate.edu/govdocs
/fdlp-fall-2011-presentation](https://sites.google.com/a/colgate.edu/govdocs/fdlp-fall-2011-presentation)

“Painless” Offers Lists (for cataloged documents)

Mary Jane Walsh, Colgate University

mwalsh@colgate.edu

315-228-6194

Steps below work in III Millennium catalogs. Summary only; detailed instructions online (see above). Other systems have similar capabilities (confirmed with Voyager and Aleph). Ask your catalogers and systems folks for help.

To create an offers list:

- If you use PRINT TEMPLATES, *un-check* that option before beginning. This keeps Millennium from clearing your print queues whenever you end a session:
 - ADMIN menu
 - SETTINGS menu
 - PRINT TEMPLATES tab
 - Un-check USE PRINT TEMPLATES
- Retrieve records
- Add item records to a print queue using QUEUE MONOGRAPHIC LABELS TO PRINT*
- Copy queue to an empty review file in CREATE LISTS, then either:
 - LIST selected fields of the records to email, e.g.:
 - SuDocs number
 - Item
 - 245 subfield a
 - 245 subfield h
 - 260 subfield c
 - EXPORT selected fields of the records to a text file, e.g.:
 - SuDocs number
 - item
 - 245 subfield a
 - 245 subfield h
 - 260 subfield c
 - Import text file into Excel and edit as necessary
- Using FIND AND REPLACE to insert format

OR

To update records* (local practice):

- With list of item records created above
 - RAPID or GLOBAL UPDATE to mark records withdrawn and add any note fields
- Create a bib record list, run against the original item record list, for items with status withdrawn
 - Suppress bib record using RAPID or GLOBAL UPDATE

* See back

* Withdrawing all issues of a serial title, but don't want a line for every volume on your offers list?
Add only one record to the queue to generate the offers list, and input vols. and years manually.
To edit records, either:

1. After the offers list has been generated, in CREATE LISTS, append to the list of item records using an INDEX search on the bib record number (all item records attached to the bib record)
OR
2. Use MODIFY GROUP to update status of the item records and suppress bib record manually

Use option 1 if you need to insert a variable field in your item record (e.g. withdrawn 10/2011).
Use option 2 if all you need to do is change fixed fields in the item record and/or suppress the bib record

III Millennium macro for queuing an item record. Can use macro creating software instead, which may allow you to insert a pause.

Macros in

- Admin menu
- Settings menu
- Macro tab
- Select a free key

Enter (copy and paste):

%ALT+t%%ALT+q%%ALT+q%%TAB%

Where:

<Alt> t = tools menu

<Alt> q = queue label

<Alt> q = close record

<Tab> = position cursor in the search box. Only works if your previous search retrieved only one record, e.g. wand in a barcode.
