

February 7, 2023

Dear Regional Depository Coordinator,

This letter is to inform you that beginning February 13, 2023, regional depository libraries in the Midwest National Collection Service Area are authorized to select the online (EL) versions of the following titles, without having to select an equivalent tangible version. Regionals may opt to deselect these CFR titles in print.

Code of Federal Regulations Titles 1-2, 4-34, 36-50	AE 2.106/3: 1/ - 34/ 36/ - 50/	0572-D-01 thru 0572-D-34 0572-D-36 thru 0572-D-50
CFR Index and Finding Aids	AE 2.106/3-2:	0572

This authorization is in accordance with Superintendent of Documents Public Policy Statement (SOD-PPS) 2022-1, [Regional Depository Libraries Selecting Solely Online Materials](#), effective November 11, 2022. Its purpose is to provide regional depository libraries with options and more flexibilities in collection management, while ensuring continued permanent public access to the publications of the U.S. Government.

Library Services and Content Management (LSCM) has secured a Print Selector for the superseding titles, and a Preservation Steward for all titles, in the Midwest National Collection Service Area. With this requirement met, regional depository libraries may employ this policy and deselect print versions of these titles.

If a regional depository library elects to deselect any of these titles in print, they will not receive new tangible issues of these titles. **All holdings received prior to these titles being authorized for deselection must be retained in the depository collection until eligible for discard in accordance with the [Superseded List](#).**

Should you decide to apply this policy, you are required to:

- Deselect the tangible item number(s) from your selection profile in DSIMS.
- Ensure access to the online format via cataloging and other suitable discovery tools.

- Inform the selectives you serve that you will no longer receive these titles in print format. Also advise libraries that a list of committed print copy selectors for your service area may be found on the [Midwest National Collection Service Area](#) web page.

For more information about the policy, please see the [Regional Online Selections](#) page on FDLP.gov. If you have any questions, please submit using [askGPO](#). Thank you for your commitment to provide access to Federal Government information, and your continued support of the Federal Depository Library Program.

Best regards,

SCOTT MATHESON  
Superintendent of Documents
