

CGP on GitHub – Subject-Based Initiatives for Tribal College Libraries

- New service being developed at the request of the Tribal college Federal depository library community to test methods of providing notifications of newly cataloged online resources based on specific subjects and keywords.
- Records analyzed for common Library of Congress Subject Headings and sample subject lists created.
- Worked with Systems staff to refine the searches and to select the metadata elements to produce results in 3 formats for records newly added to the CGP for April, May and June 2019.
- We continue to experiment and test potential services in order to develop the process and explore the possibility of expansion.
- Available for free at <https://github.com/usgpo/cataloging-records>.
