Subject: Helpful links

These are what I found helpful:

lando resources:

<https://docs.lando.dev/guides/db-export.html>

<https://docs.lando.dev/help/switching-dbs.html>

<https://docs.lando.dev/lando-101>

GIT Resources

<https://education.github.com/git-cheat-sheet-education.pdf>

<http://git-scm.com>

<https://www.drupal.org/docs/installing-drupal/building-a-drupal-site-with-git>

<https://ndpsoftware.com/git-cheatsheet.html#loc=index;>

FYI: git clean: removes untracked files from the working tree

FYI: You can view all of your settings and where they are coming from using:

```
git config --list --show-origin
```

FYI: git push <remote_name> <branch_name>

BitBucket Resources:

<https://www.theserverside.com/blog/Coffee-Talk-Java-News-Stories-and-Opinions/How-to-git-push-an-existing-project-to-Bitbucket>

<https://support.atlassian.com/bitbucket-cloud/docs/set-up-personal-ssh-keys-on-macos/>
