

# DOING WHAT WE HAVE ALWAYS DONE IN TRAIL

LAURA SARE – TEXAS A&M UNIVERSITY  
JEN KIRK – UTAH STATE UNIVERSITY  
SINAI WOOD – BAYLOR UNIVERSITY

## GAP FILLS

TRAIL is working to fill gaps in our digitized series, and you can help!

This is a strategic direction that emerged from the 2021 TRAIL annual meeting. A gap fill request or “needs list” for reports from one or more series from a particular agency is requested every six week. Find out more at

<https://trailguides.crl.edu/series>

Turn on the HathiTrust Collection in your discovery system to see TRAIL Content available in HathiTrust.

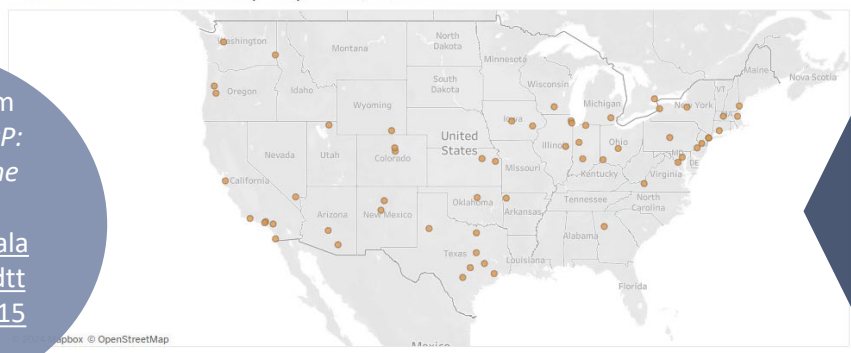

SEARCH MORE THAN 99,000  
REPORTS AT  
[WWW.TECHNICALREPORTS.ORG](http://WWW.TECHNICALREPORTS.ORG)

## TRAIL Metrics at a Glance FY2024

- 4,468 Search Sessions
- 1,469 Reports Digitized
- 59 Institutional Members
- 16 Personal Members

TRAIL Institutional Members (n=59) as of April, 2024

## Microcard Digitization Project

The Atomic Energy Commission distributed their technical reports on micro-opaque cards in the 1940s-1960s. TRAIL has digitized 33,000 reports and is currently cataloging them to be added to our collection making these previously hard to find reports openly accessible online.
