GPO Q&A Follow-Up

FDLP Pre-Meeting Updates

What are depository libraries doing with their existing FDLP microfiche collections following GPO's 2023 discontinuation?

Is GPO planning to review active items and update the List of Classes?

Does the draft preservation policy, which is currently open for comment, represent any significant changes (or plans for changes) to current preservation activities?

What is GPO preserving?

Is everything in the CGP preserved?

How is content not in GovInfo preserved?

What content is included in the FDLP Web Archive?

How is material in the FDLP Web Archive cataloged?

Is it possible for the CGP links to
be tested to see if any are not working?

Should we keep records with
"bad" PURLs in the hope that a new
version of the resource will be found?

How is GPO approaching the new Web Content Accessibility Guidelines? What advice do you have for FDLs linking to GPO materials that don't meet the new guidelines?

Is there help available from GPO staff for identifying titles that are good candidates for a Preservation Steward partnership? How do we get started?

What are GPO's America 250 plans?

Are there examples of displays at other libraries that can be shared?

Can we order promotional items like Pocket Constitutions?

Could you explain the codes for Publication Type, Record Type and Mlgn that appear in the MARC URLs export from Federal Data Manager?

Publication Type = LDR character position 07, for example: Serial, Monograph, Integrating resource, Collection
Record type = the LDR character position 06, for example: Cartographic material, Computer file, Language material
Mlgn = the MARC record length, as found in the LDR character positions 00 through 04

All codes can be found on the Library of Congress MARC 21 Format for Bibliographic Data: Leader page.
