

Celebrating 15 Years

Federal Depository Library Program Web Archive

Background

In the early 2000's agencies were increasingly publishing information directly to their websites, not informing the GPO of what they published, changed, or removed per Title 44 statutory mandate. In an effort to fulfil our mission of Keeping America Informed, we became an Archive-It partner in Nov 2011 and began archiving Federal agency websites in their entirety.

What we have accomplished

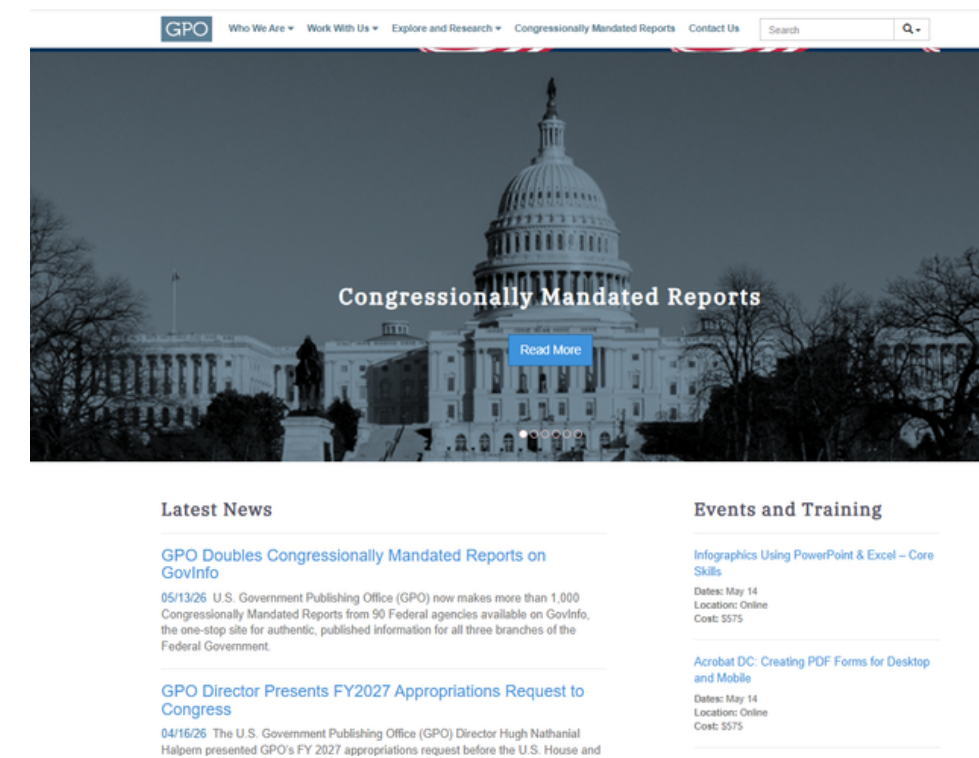

- Archived over 69 TB of data with over 601,860,000 URLs
- Created 230 Collections in Archive-It
- Cataloged 277 records in CGP
- Conducted maintenance of archived websites, recrawling generally every 6 months

Resources

- FDLP Web Archive: <https://archive-it.org/home/FDLPwebarchive>
- More information: <https://www.fdlp.gov/fdlp-web-archive>
- Catalog for FDLP Web Archive in the CGP: <https://tinyurl.com/2s47ep9j>

15 Years of Harvests

Why we Harvest

- GPO Mission: America Informed
- Provide a high level of QA in collections to ensure best capture and playback
- Focus on what is in scope of the FDLP and meaningful to the community
- Contact us at [AskGPO](#), select the category FDLP Web Archive
