GPO and FDLP Mission and History

Joe Paskoski, Senior Outreach Librarian

About GPO

- Legislative Branch agency, overseen by the Joint Committee on Printing
- Funding sources: appropriated funds and cost recovery
- Publishing agency for the Federal Government
- Headquarters in Washington, DC
- Library Services & Content Management a part of GPO

GPO Responsibility

Federal Government's official, digital, secure resource for producing, procuring, cataloging, indexing, authenticating, disseminating, and preserving the official information products of the three branches of the U.S. Government.

Joint Committee on Printing

- Joint Committee created in 1846 (one of the oldest joint committees of Congress)
- Comprised of 5 House Members and 5 Senators
- Oversees the operations of GPO and generally oversees compliance by Federal agencies with laws, rules, and regulations designed to minimize printing costs

Committee on House Administration

- Recent Hearings: Transforming GPO for the 21st Century and Beyond

GPO Then and Now

GPO history

Q: Why do GPO staff geek out every March 4th to celebrate an event that took place in 1861?

Oh yeah.

This guy also got inaugurated on that day.

Image source:

http://www.americaslibrary.gov/jb/civil/jb_civil_lincoln2_1_e.html

GPO History

- Prior to GPO, printing was performed on contract by newspapers and other private printers.
- The mid 19th century witnessed high costs, ineffective service, and repeated scandals of contract printing.
- In response, Congress established GPO
 - GPO opened doors on March 4, 1861

GPO History

For a history of printing operations, read
“150 Years at GPO.”

For a general history, read “Keeping America Informed.”

We’ve grown a bit since 1861!

GPO now produces:

- Online databases of congressional and agency documents
- eBooks
- Passports and smart identification cards with electronic chips carrying biometric data
- Print products on recycled substrates using vegetable oil-based inks
- Public presence not only on the Web but on Twitter, YouTube, Facebook, and LinkedIn.

GPO History – Online Milestones

- **"GPO Access Law"**
 - *Government Printing Office Electronic Information Access Enhancement Act of 1993* enacted (Public Law 103-40)
 - GPO Access service launched; available by subscription, free to depositories (1994)
 - GPO Access free to all users (1995)
- **GPO's Federal Digital System (FDsys)**
 - FDsys launched (2009)
 - GPO Access retired (2012)
 - FDsys has over 50 collections from all three branches of the Federal government
- **govinfo.gov official site (2018)**

FDLP History

- Established by Congress to ensure that the American public has access to its Government's information (Title 44, United States Code, Chapter 19, § 1901-1916)
<https://www.govinfo.gov/content/pkg/USCODE-2016-title44/pdf/USCODE-2016-title44-chap19.pdf>
- The FDLP is based upon these three principles:
 - Federal Government information products within scope of the FDLP shall be made available to Federal depository libraries;
 - Federal depository libraries shall be located in each State and U.S. Congressional District to make Government information products more widely available; and
 - Federal Government information in all media shall be available for free use by the general public.

FDLP History

- **Act of 1813:** Authorized distribution of one copy of House and Senate Journals to select university and state libraries and historical institutions
 - American Antiquarian Society earliest known depository (1814)
- **Depository distribution management moved around**
 - Secretary of State (Act of 1813)
 - Department of Interior (Printing Act of 1852)
 - GPO (Printing Act of 1895)
- **Depository libraries designated by**
 - Secretary of the Interior (1857-1895)
 - Representatives authorized to designate a depository from own district (1858), and two (Depository Library Act of 1962)
 - Authorized each Senator to assign one depository in own state (1859), and two (1962)

FDLP History

- **Different library types added to program**
 - Libraries in executive departments (1895)
 - Military academies (1895)
 - Land grant colleges (1907)
 - Federal agencies (1962)
 - Highest appellate courts of the states (1972)
 - Law libraries (1978)
- **Regional/Selective system created (Depository Library Act of 1962)**
 - Regional libraries designated as regionals by a Senator

FDLP History

FDLP milestones:

- First Monthly Catalog appeared (1895)
- Executive branch publications distributed (1895)
- SuDocs Classification System developed by GPO librarian Adelaide Hasse (beginning 1895)
- First Biennial Survey of Depository Libraries conducted (1947)
- Weeding permitted (outside of supersession) under regional/selective system (1962)
- GPO distributes microfiche to depository libraries (1972)

FDLP History

FDLP milestones:

- First CD-ROM distributed to depository libraries (1988)
- Catalog of U.S. Government Publications, an online public access catalog, launched (2006)
- Multi-year project to digitize and convert Historic Shelflist cards dating from the 1870s to 1992 for inclusion in the Catalog of U.S. Government Publications began (2012)
- LSCM cataloging in new bibliographic standard: Resource Description and Access (RDA) (2013)

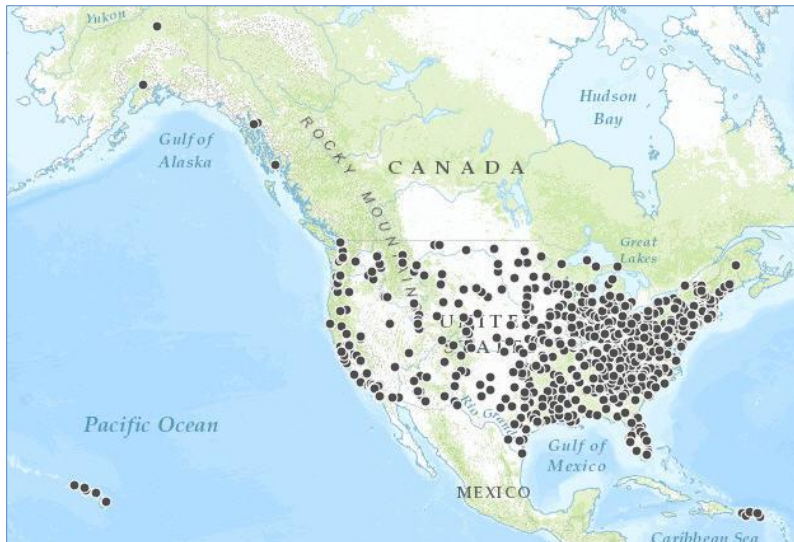

FDLP History

Additional FDLP milestones:

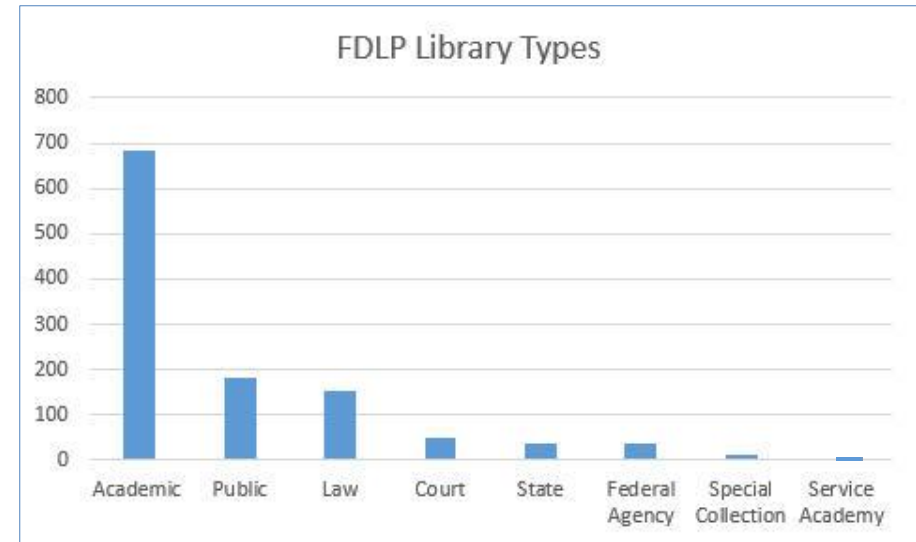

- One of the founding members of the OCLC network in 1976. GOP was named one of the top 10 online original catalogers in the world in OCLC's Annual Report for FY 2012, FY 2013 and FY 2015. In 1992, a GPO Cataloger contributed the 100,000th record to the OCLC Bibliographic Database. In 1999, another GPO cataloger contributed the 43,000,000th record.
- 2014, Sitting Bull College Library was designated as the first all-digital depository library.
- FDLP Academy established in Fiscal Year 2014
- In 2016, the University of Colorado, Boulder became GPO's 1st Preservation Steward.
- - Cataloging Record Distribution Program: Started in 2009 and will service 185 libraries (16%) in FY19.

Who is in the FDLP?

Over 1,100 libraries of all types, located throughout the U.S.A. and its territories, are members of the FDLP

<http://arcg.is/1mmp9Ep>

Why is the FDLP important?

- The FDLP identifies, catalogs, and disseminates documents created by Federal government agencies, no matter what the format. This system provides order for government information and makes it visible.
- FDLP libraries provide free, public access to government information to everyone, promoting engagement and knowledge.
- The FDLP's rich collections of historic and current content are unique and important research material for all fields of study.
- The network of FDLP librarians and staff is an unparalleled source of expertise.

Fulfilling Madison's Vision: The Federal Depository Library Program

<http://purl.fdlp.gov/GPO/gpo7351>

Top Ten Benefits Afforded To All FDLP Libraries

1. Free Federal information products in a variety of formats to supplement existing library material and to provide access to unique material
2. Free cataloging records from the national authority on U.S. Federal publications
3. Free, permanent public access to online content from GPO partners – often fee-based or restricted
4. Educational opportunities – training the next generation of Government information specialists
5. Collection development opportunities – important in an era of declining budgets

Top Ten Benefits Afforded To All FDLP Libraries

6. Consulting and networking opportunities from GPO and with fellow Government information experts
7. Free FDLP promotional material
8. Opportunity to participate in pilot projects with GPO to test new processes and technologies
9. Ensuring that dedicated Government information professionals remain on staff - critical in this time of hybrid collections where it is necessary to build and maintain collections of local interest and navigate the broad range of information resources
10. Enhancement of the status/prestige of an institution designated as an FDLP member

Core Mission of FDLP

Keeping America Informed

Mission has not changed with digital info, but evolved:

- Commitment to providing free, public access to the tangible publications distributed and online or digital resources cataloged by GPO
- Provide assistance with depository resources to users
- Tangible resources remain Federal property and must be maintained and handled accordingly
- Online or digital FDLP resources may be made visible through library catalogs, Web pages, or other means

Depository Library Council (DLC)

- Established in 1972 to advise the Public Printer and the Superintendent of Documents on matters relating to the FDLP.
- Its antecedents go back to 1963 when seven librarians were asked by the Public Printer to serve on an advisory committee on depository libraries.
- The original advisory committee was formed at the recommendation of the Senate Committee on Rules and Administration during its consideration of revised legislation on depository libraries.

<https://www.fdlp.gov/about-the-fdlp/depository-library-council>

Depository Library Council (DLC)

- DLC consists of **15 members** appointed by the Director of the GPO. Members serve **3 year terms, with 5 members retiring each year and 5 new members entering.** Members may be reappointed for a second term.
- All appointments to Council are made by the Director of the GPO after consideration of recommendations from Council, library associations, and others as deemed appropriate by the Director of the GPO.
- Members represent a cross section of the various types of libraries in the Federal Depository Library Program.
- At least half of the Council's members work in depository libraries and have experience providing services for Government information.

Regional & Selective Depository Libraries

Ashley Dahlen, Senior Outreach Librarian

How can a library join the FDLP?

- **FDLP libraries can be designated by U.S. Senators or U.S. House Representatives**
 - Limits: 2 regionals per state (designated by Senators); 2 selectives per Congressional district (although redistricting means a district may contain more than two at any given time); 2 selectives designated by Senators per state
- **or “by-law” under specific sections of Title 44, U.S.C.**
 - Unlimited number allowed
- **Different library types added to program**
 - Libraries in executive departments (1895)
 - Military academies (1895)
 - Land grant colleges (1907)
 - Federal agencies (1962)
 - Highest appellate courts of the states (1972)
 - Law libraries (1978)

Selective Depository Libraries

Customize their depository collection

This is achieved by:

- Selecting suitable materials for their users
- Retaining materials for at least 5 years
- Substituting tangible material with online equivalents (if desired)
- Retaining materials beyond the required 5 years as appropriate

Regional framework

- Established by law in 1962
Public Law 87-579, *“An Act to Revise the Laws Relating to Depository Libraries”*
- Libraries volunteer to be regionals
- Regional status designated by a Senator or the Resident Commissioner of Puerto Rico
- Prior to establishing regional depositories, no depository could weed depository holdings

Roles and responsibilities

- Retain at least one copy of all depository publications in one tangible format
- Within region served, provide:
 - Interlibrary loan
 - (Government information) reference services
 - Assistance in the disposal of unwanted government publications

Regionals may...

- Serve as liaisons between the selective libraries in the state (or region) and GPO
- Provide consultation (onsite or remote) in the management of depository operations/collections/services
- Coordinate training for FDLs
- Organize state or regional meetings for depository libraries

Regional structure

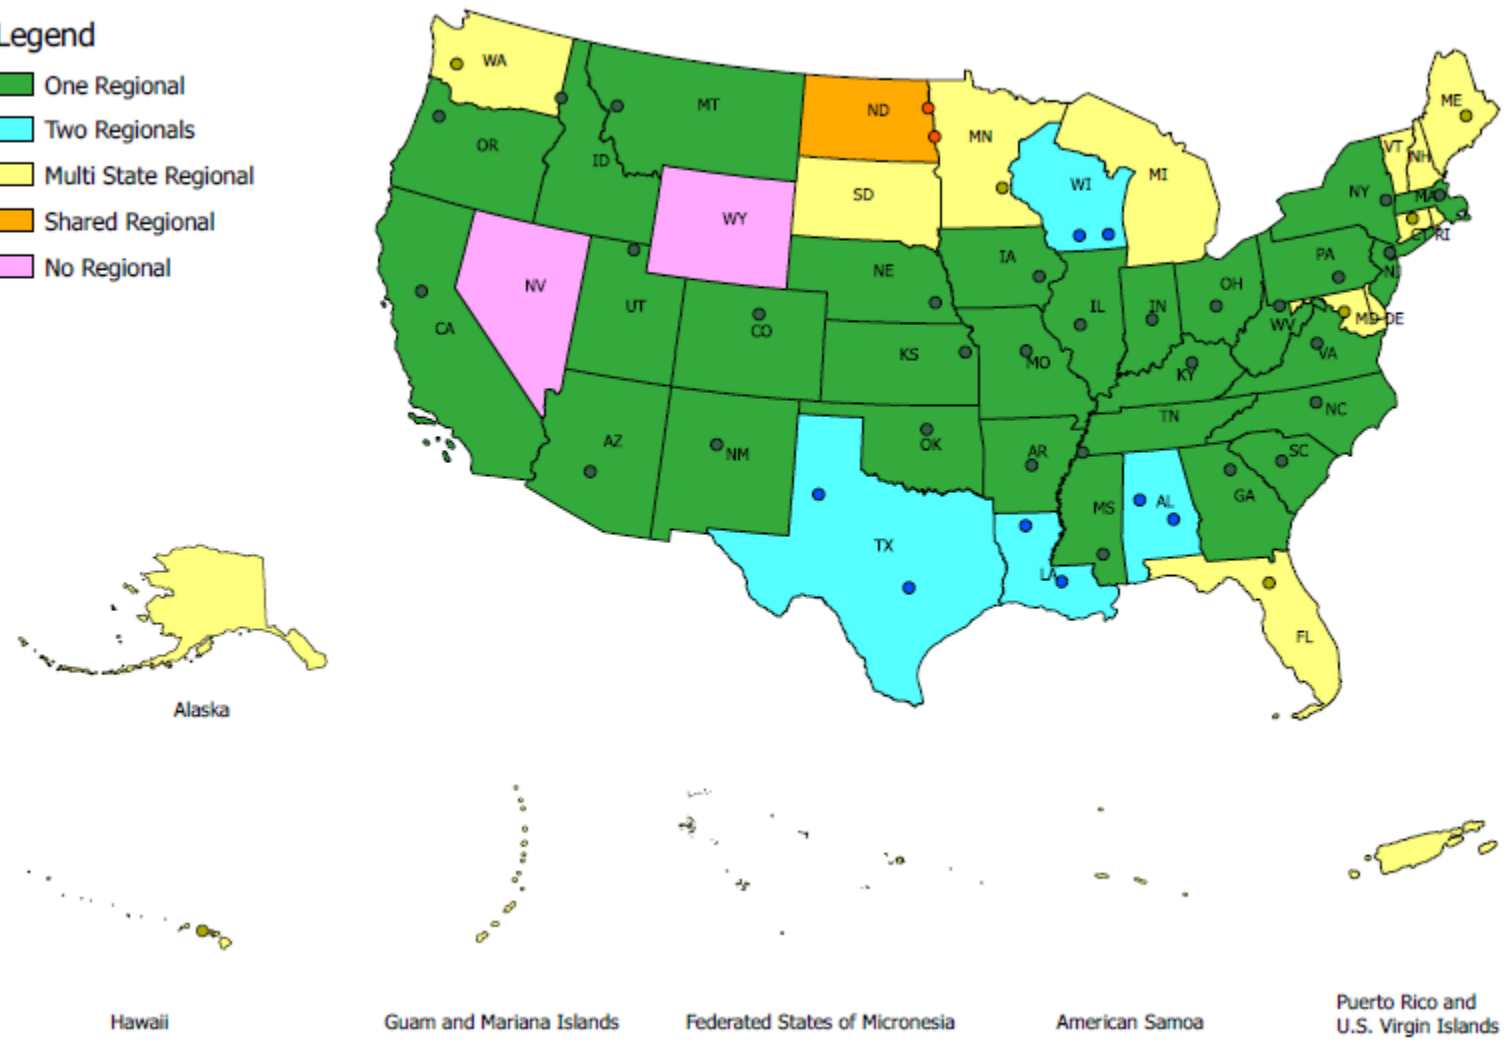

Selectives are served by 46 regional depositories in a variety of ways:

- One regional in state
- Two regionals in state – shared/independent
- Multi-state regional
- No regional

Regional Depository Libraries

Legend

- One Regional
- Two Regionals
- Multi State Regional
- Shared Regional
- No Regional

Locate a Regional Depository

Welcome to the Federal Depository Library Directory (FDLD)

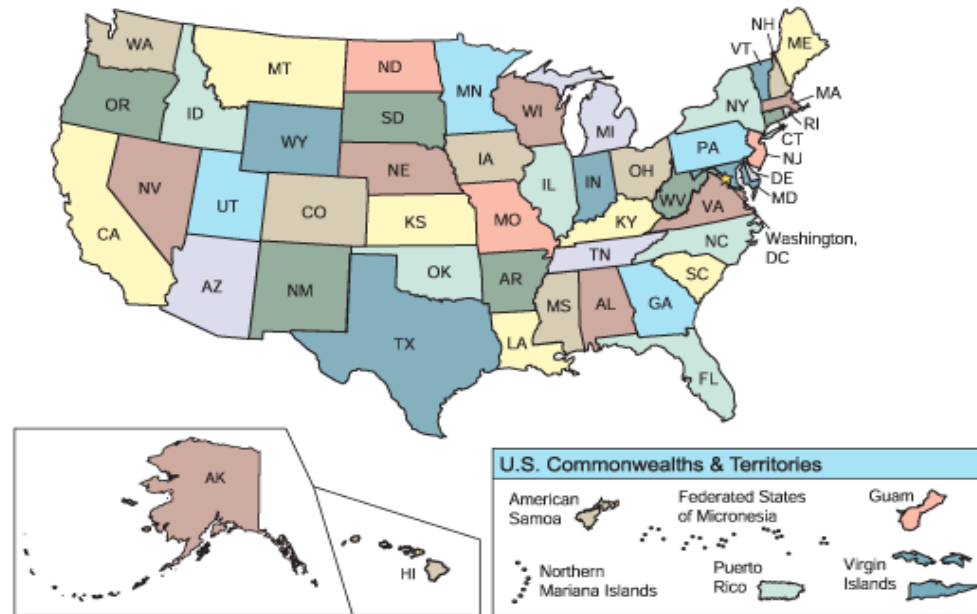

A service of the Catalog of U.S. Government Publications

Locate a Federal Depository Library (FDL). There are three methods for retrieving Federal Depository Library information:

- Clickable Map: clicking on the applicable state, commonwealth or territory on the map below
- Basic FDLD Search: search by keyword in the Keyword search box below the map
- Advance FDLD Search: search by specific types of data, such as Depository number, ZIP or area code, etc. in a single or multiple field search below the Basic search

CLICKABLE MAP OF FEDERAL DEPOSITORY LIBRARIES

Communication

- Regional depository coordinators should be in contact with the selective depositories in their state or region
- The regional depository should contact GPO with any concerns or issues with depositories in their state or region
- Many regional depository coordinators have regular visits with selectives in their state or region

When to contact your regional

A selective depository should contact the regional when:

- Moving the collection or experiencing disruptions in service
- A disaster damages or impedes access to the collection
- Change in coordinator
- Considering dropping status
- They have weeding and collection development questions

Celebrating Fifty Years of Advancing Solutions to End Poverty

February 19, 2015

Congratulations to the AmeriCorps VISTA program, which is celebrating fifty years providing Volunteers in Service to America. Events will be held throughout 2015 to commemorate the anniversary.

History

In his 1963 [State of the Union Address](#), President John F. Kennedy called for a national service corps to serve community needs. On August 20, 1964, President Lyndon B. Johnson signed the [Economic Opportunity Act of 1964 \(Public Law 88-452\)](#), which established the Job Corp Program and fulfilled Kennedy's vision to provide services in urban and rural poverty

LSCM Acquisitions

- Acquires information products from all three branches of the U.S. Government
- Determines what is in scope of the FDLP and C&I programs
- Determines distribution approach, tangible or electronic, or multiple formats

Deciding what to order:

List of Classes and Essential Titles List

- Current edition used (www.fdlp.gov/file-repository/collection-management/list-of-classes)
- Use item numbers to determine formats and amounts
- Use Essential Titles List to determine formats

Publications Not Distributed by FDLP

- Classified materials
- Official use-only materials
- Administrative or internal use-only materials
- Those with no public interest or educational value
 - Posters with minimal information content
 - Bookmarks
- Parts of publications, drafts (except Draft Environmental Impact Statements)

Distribution

- FDLP materials are shipped to depository libraries
- Electronic only materials are PURLed, and harvested using a variety of harvesting methods and tools
- FDLP and C&I materials are included in the CGP

Classification systems

How to Locate a U.S. Government Publication

U.S. Government publications in this collection are arranged by the Superintendent of Documents classification number. Publications are grouped together by issuing agency. To ensure that you find all of the materials available on a particular subject, be sure to check the databases or indexes recommended by your librarian.

The example below shows how the Superintendent of Documents classification number PREX 3.15:2014-15 is constructed for the publication *The World Factbook*:

PREX	3.	15:	2014-15
Executive Office of the President (issuing agency)	Central Intelligence Agency (subordinate bureau within the issuing agency)	Number designating the title	Year of publication or coverage

Here are the prefixes from the Superintendent of Documents classification numbers for some other agencies that you may find of interest:

A	Agriculture Department
C 3	Census Bureau (Commerce Department)
D	Defense Department
E	Energy Department
ED	Education Department
EP	Environmental Protection Agency
GA	Government Accountability Office
GP	Government Publishing Office
HE 20.7000:	Centers for Disease Control and Prevention
HS	Homeland Security Department
I	Interior Department
I 19	U.S. Geological Survey (Interior Department)
J	Justice Department
JU	Judiciary
L	Labor Department
LC	Library of Congress
NAS	National Aeronautics and Space Administration
S	State Department
SSA	Social Security Administration
SI	Smithsonian Institution
T 22	Internal Revenue Service (Treasury Department)
X, Y	Congress
Y 4	Congressional Committees

Your librarian will be happy to provide you with the prefixes for any U.S. Government agency and any other information that can help you find the materials you need.

Many U.S. Government publications are available online, and some are issued also in other formats. They may be listed in your library's catalog and in the Catalog of U.S. Government Publications at: <http://catalog.gpo.gov/>.

- Superintendent of Documents (SuDocs) used for everything
- Library of Congress (LC) class is used for congressional material

Available for order!

free

SuDocs

- Developed by GPO Librarian Adelaide Hasse in 1895
- Organizes publications by agency, then document type and series
- Used because it is difficult to organize gov docs by subject

Adelaide Hasse
b. September 13, 1868

How it works...

A = Agriculture, C = Commerce, S = State Department, T = Treasury, X & Y = Congress

A 1 = the main Dept. of Agriculture

A 2 = the Division of Accounts & Disbursements

A 3 = Division of Agrostotology

A 4 = the Bureau of Animal Industry

.1 = Annual Report

.2 = general publication

.3 = Bulletins

.4 = Circulars

.5 = Laws

See a colon?
It's a SuDocs number!

C 3.134:2012

C 3.134/7:2012

Down in the weeds...

After the SuDocs stem:

- Years
 - May be abbreviated: 999 & 99 = 1999; 01 = 2001
- Letters: use Cutters
 - Letter and number abbreviations of keyword in title
 - C 56 used to abb. 'classification'
 - N 42 O used to abb. 'New Orleans'
 - M 35 = Mars 
- Numbers
 - Volume/issue
 - Technical report number

Colons are used to separate out the stem from the more detailed series or book information

A 1.10:975

A 1.77:38

NAS 1.20:M 35/2

How to shelve by SuDocs

GPO creates the call numbers, but be aware that your library determines how to order them on your shelves

Letter, number, year or
Year, letter number?
Oh the angst.

How would you organize
the following? 

NAS 1.2:**50**/2
NAS 1.2:**02**-4
NAS 1.2:**999**/2
NAS 1.2:**M** 35/7

Source:
<http://www2.fbi.gov/hq/cid/arttheft/topten/munch.htm>

SuDocs

Material in SuDocs archive themselves because when the Federal government evolves, so does the SuDoc classification scheme

For example:

W = 1789 - 1947 for the War Department

M = 1947 – 1949 for the Military Establishment

D = 1949 – *present* for Department of Defense

Tip – Refer to a **Guide to U.S. Government Publications** (formerly called 'Andriot' after the editor, now published by Gale Group).

It has organized content by SuDoc numbers and provides an overview of when SuDocs were in use throughout history. Very handy.

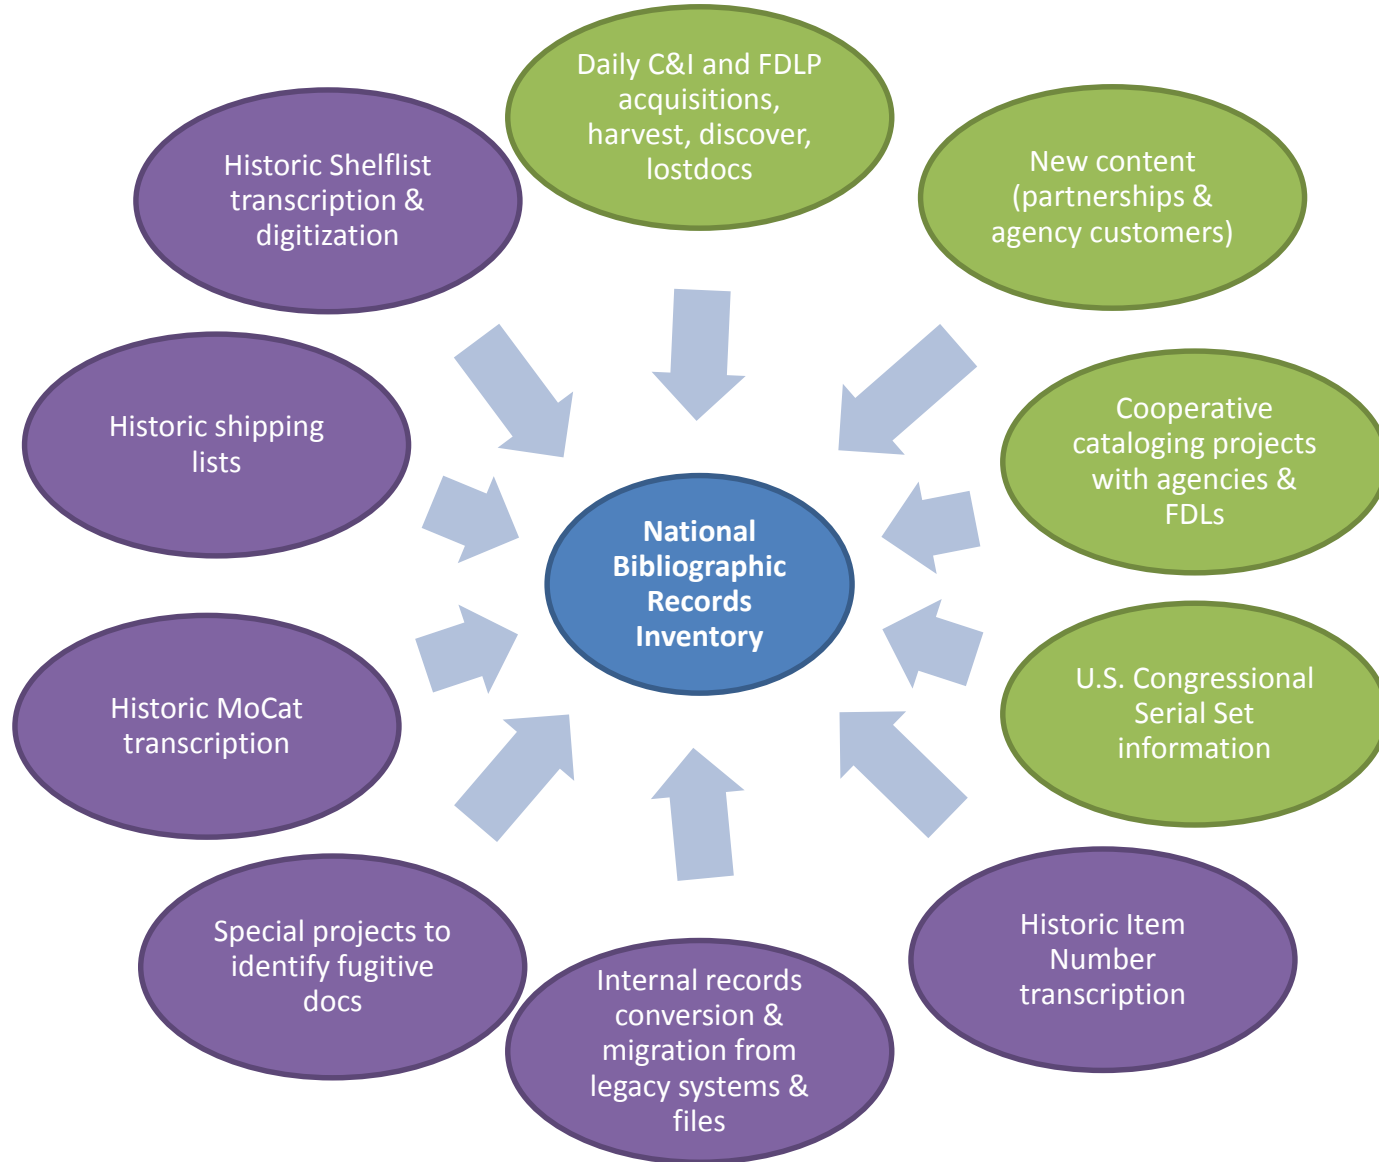

Which To Use?

- Do what works best for your patrons, library layout, and your catalogers
- Integrate material with general collections, or keep them separate, or both

Note - if you opt to use LC or Dewey, note that you will have to class your own material or wait for another institution to do it and copy it from them

National Bibliographic Records Inventory Initiative

Historic Shelflist Transcription

- Over 1 million cards
- Bibliographic information on documents distributed through the FDLP (and then some)
- Transcribing, digitizing, and cleaning up records

but kept here, with book no. of 3 figures, because
of its age.

Resource Description and Access (RDA) Cataloging

- GPO catalogs U.S. Government publications in all formats in high quality original cataloging done to national standards
- GPO began cataloging in RDA on April 1, 2013.
- Impact:
 - Most abbreviations have been eliminated
 - The general material designation (GMD) was replaced by three new MARC fields: content type (336), media type (337), and carrier type (338).
 - Authorities changed (names, corporate bodies, etc.)
- Learn about how GPO catalogs on fdlp.gov > Cataloging & Classification, or in webinar archive

Collection Development

Kathy Bayer, Senior Outreach Librarian

Depository Collection Development

Meeting library patron U.S. Government information needs involves identifying the Federal Government information needs of current and potential primary and non-primary patrons in your Congressional District or service area and selecting or providing access to materials that meet their needs.

Regular collection development helps ensure users needs are continually being met.

Collection development policies are strongly recommended.

Identifying Your User Needs

The following are examples of some ways to identify and document the Federal government information needs of your congressional district or local area:

- Analyze demographic and socio-economic data about the community served
- Gain knowledge from subject matter expertise of library colleagues
- Track depository resources used in answering reference questions
- Review daily news sources
- Review other library web pages or guides
- Employ library user surveys that include questions about Federal government information needs

Depository Library Collections

FDLP scope: U.S. Government publications “of public interest or educational value”

FDLP content consists of:

- Tangible resources (print, fiche, CD-ROMs, etc.)
- Online only publications
- GPO’s MetaLib resources via the CGP
- Official Content Partnership resources
- Agency Subscription Databases

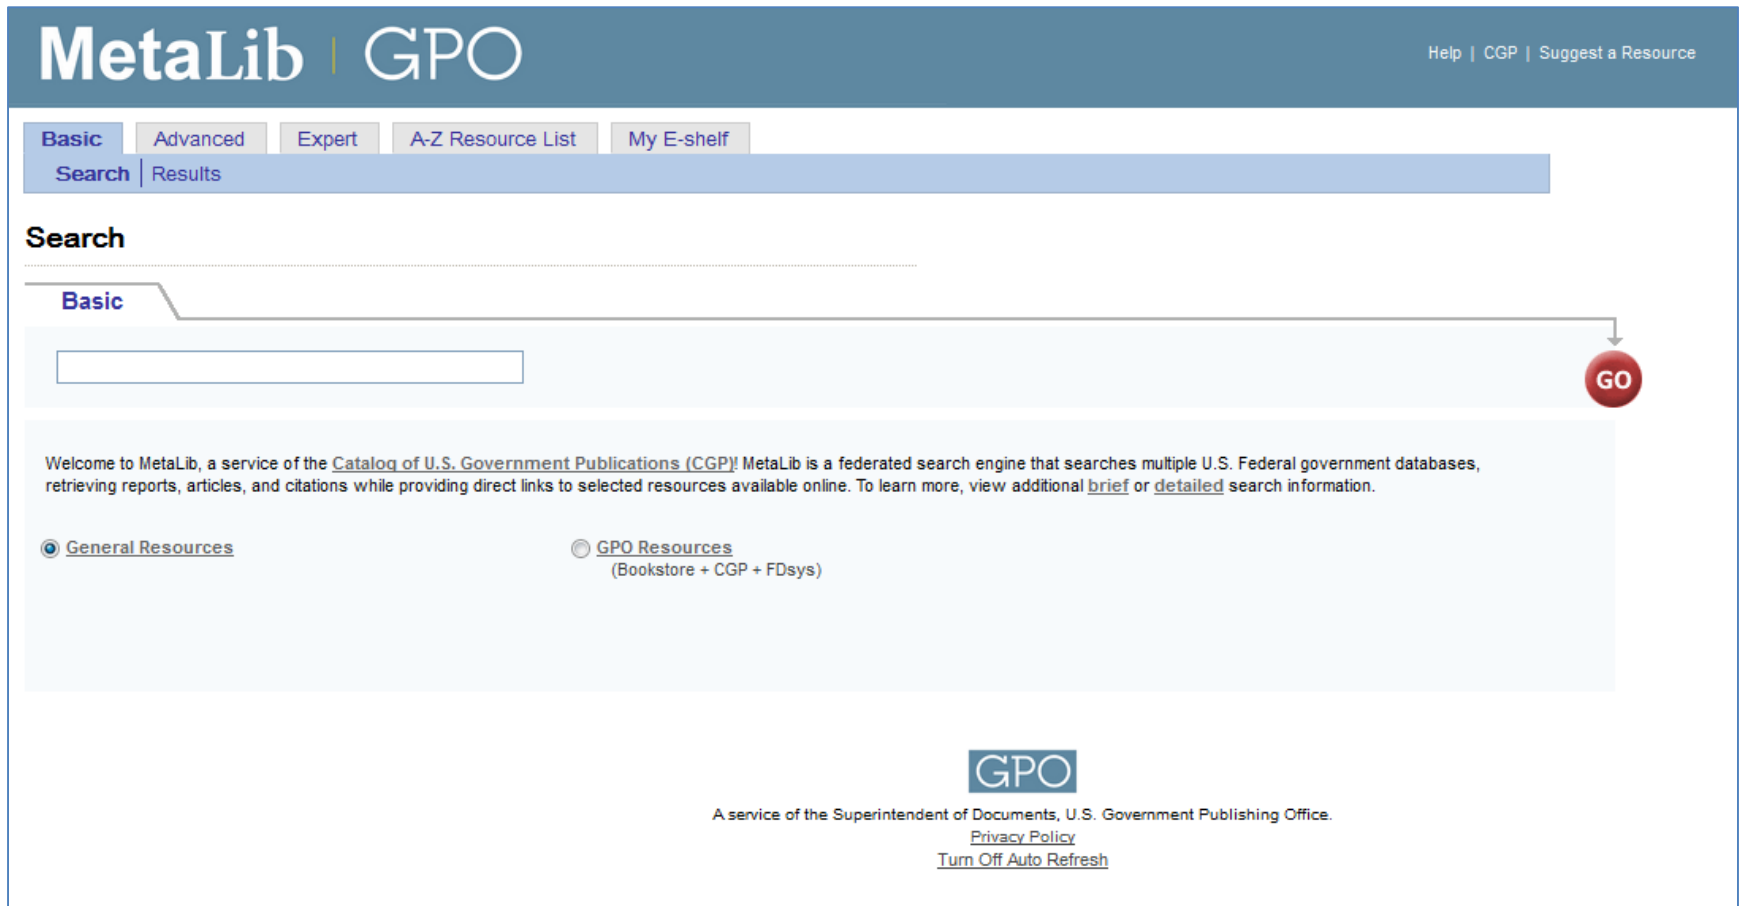

<http://libguides.fdlp.gov/FDLPCContent>

FDLP Content - Background

- “Depository libraries must provide access to FDLP content.”
Legal Requirements and Program Regulations of the Federal Depository Library Program #8
- Emphasize access to all FDLP content and catalog or point to the content that is most useful to your library's patrons.
- Each depository library “develops” an “**online collection**,” a group of online Federal information products that the library determines best meets the Federal Government information needs of the community served.
 - The only resources that a Federal depository library must select by item number and catalog are the tangible publications.
 - Cataloging online resources is recommended or provide subject guides or finding aids to help patrons be aware of relevant resources.

GPO's MetaLib via catalog.gpo.gov

The screenshot shows the GPO MetaLib search interface. At the top, the header reads "MetaLib | GPO" on the left and "Help | CGP | Suggest a Resource" on the right. Below the header is a navigation bar with tabs for "Basic", "Advanced", "Expert", "A-Z Resource List", and "My E-shelf". The "Basic" tab is selected. Underneath is a search bar with a "Search" button and a "Results" link. The main content area is titled "Search" and has a sub-tab "Basic". A search input field is present, followed by a red "GO" button. Below the search bar, a welcome message states: "Welcome to MetaLib, a service of the [Catalog of U.S. Government Publications \(CGP\)](#)! MetaLib is a federated search engine that searches multiple U.S. Federal government databases, retrieving reports, articles, and citations while providing direct links to selected resources available online. To learn more, view additional [brief](#) or [detailed](#) search information." Two radio buttons are visible: "General Resources" (selected) and "GPO Resources (Bookstore + CGP + FDsys)". At the bottom, the GPO logo is displayed, along with the text "A service of the Superintendent of Documents, U.S. Government Publishing Office." and links for "Privacy Policy" and "Turn Off Auto Refresh".

Agency Subscription Databases

Details

Last Updated: October 03 2016
Published: October 15 2012

Through participation in the Federal Depository Library Program, Federal depository libraries have no-fee access to a variety of agency subscription services.

Federal depository libraries can currently request access to the following service:

- Homeland Security Digital Library (HSDL)

Access methods and terms of service vary from service to service.

In order to ensure timely processing of your access request to these services, we ask that you first verify that your Federal Depository Library Directory contact information for both the library director and depository coordinator are up-to-date.

If your library provides access to any of these services, remember to advertise the availability of these services, such as on your institution's Web site or in your library catalog.

Basic Collection Selection and Cataloging Info

To facilitate Federal depository selection and cataloging, this table includes Superintendent of Documents classification numbers, item numbers, and OCLC catalog record numbers.

Resource	Description	Classification	Item Number	OCLC Record Number
American FactFinder (See the Notes tab.)	A source for population, economic, housing, and other information and data about the United States and the Island areas.			
Assistance Listings	Provides detailed, public descriptions of Federal assistance listings available to State and local governments (including the District of Columbia); Federally recognized Indian tribal governments, Territories (and possessions) of the United States; domestic public, quasi- public, and private profit and nonprofit organizations and institutions; specialized groups, and individuals.	GS 1.52/2:	0559-J-21 (EL)	1044749597
Ben's Guide to the U.S. Government	Presents educational content for the public on the workings of the U.S. Government and U.S. history, with a focus on civics.	GP 3.39:	0556-C-15 (EL)	44041955
Budget of the United States Government	Contains the budget message of the President, information on the President's budget proposals for the fiscal year, and the President's budget proposals for the fiscal year.	PREX 2.8:	0853 (P)	932137

Titles which support the public's right to know about the workings and essential activities of the Federal Government

Every Federal depository library is required to have the titles in the "basic collection" accessible for immediate use.

What Now? What's the Process?

Some considerations for selective depositories:

- What is the current practice and can/should it be changed?
- How should we identify publications for collection development and cataloging?
- What format(s) are preferable?
- Do we use FDLP item numbers for identifying and managing online resources?

For all libraries – what are/where are the other depository and government information resources available to me?

Regional depository libraries must select at least one format of all tangible formats

Depository Publication Selection via Item Number System

- The system is how GPO groups materials together that are published by a Government agency or sub-agency (by title, by category such as “General Publications”, etc.)
- In most cases, there are different item numbers for each format so you can select by format.
 - (P), (MF), (CD), (DVD), (EL), (E), multiple formats or unknown
- Your depository’s item number selection profile is the list of item numbers your library has selected.

Depository Selection or Access: Online Publications

An online publication (**EL**) is a depository publication in online format.

It may be:

- An entry point to a portal
- An archived website
- A database
- A PDF, text, or other format document

Some library staff use FDLP item numbers to help identify these. Others use other means.

Online Only (EL) Item Numbers

Considerations (not requirements) for selecting online only (EL) item numbers:

- GPO may create new tools using item numbers
 - Tip: Even if not “using” (EL) item numbers, keep on your library profile so they’re available if useful
- Receive catalog records for EL items when purchased or acquired for free in the CRDP from a vendor or contractor
- Facilitates use of various collection tools
- Sometimes agencies decide to switch formats

New Electronic Titles (NET) Monthly Archive Reports

New Electronic Titles (NET) Monthly Archive Reports are generated from data collected from the *Catalog of U.S. Government Publications (CGP)*. Monthly NET Reports are made available by the middle of the following month (e.g. January's monthly NET report will be available by mid-February).

Beginning in April 2005, data from the *CGP* was used to generate monthly NET reports that included new records and records that had been recently updated. In the September 2006 NET report, the methodology to generate these reports changed to include only new records. Development to refine the NET report format is ongoing.

The current NET reports will be made available in HTML format with links in the titles to the bibliographic records and in Comma-Separated-Value (CSV) format, which is compatible with most spreadsheet software.

Selectives can serve as all or mostly digital depositories

A collection development decision is made that online formats best serve the Federal Government information needs of your community.

To transition a current depository:

- Continue to provide free, public access and services to depository resources at your library
- Amend item selections for chosen format - digital
- Weed (supersession, substitution, and the “5-year rule”)

Digital Depository Libraries

The digital depository can be an excellent model for the FDLP library with limited budgets, space, and staff to process, house, and maintain tangible depository materials.

Plus, many library users prefer online publications.

Visibility is key! GPO always recommends cataloging online resources and/or providing subject guides of other finding aids to help your patrons be aware of relevant online resources.

Switch from Tangible to EL Item

If you use item numbers to identify or manage online publications:

Tip: Use the Modified List of Classes, updated every 2 weeks, to scan available item numbers and their associated formats

Collection Tools > List of Classes > List of Classes Data Files > Modified List of Classes

Deselect the tangible and add the (EL) item number

Example: *Agriculture Statistics*, A 1.47:

- Drop Item 0001 (P)
- Add Item 0001-A-01 (EL)

Have Tangible Collections?

- Legal Requirements and Program Regulations (LRPR): Physical Facilities and Maintenance of the Collection
- Related guidance and instruction articles:
 - Physical Facilities and Collection Maintenance
 - Includes info on housing maps, poster, microfiche, CDs and DVDs as well as info on insurance and duplicate copies
 - Moving Your FDL Collection
 - Recall of Depository Material
 - Selective Housing Agreements (SHA)
 - Weeding a Depository Collection
 - Links to supersession and substitution examples

Tangible Collections: Selective Housing Agreement (SHA)

Libraries may house publications at another location to enhance access to them. Perform collection development for that location too.

A Selective Housing Agreement (SHA) is required.

See FDLP.gov > Requirements and Guidance > Guidance > Selective Housing Agreements (SHA)

FDLP Rules

Ashley Dahlen, Senior Outreach Librarian

FDLP Rules - Title 44 USC

The laws applicable to the U.S. Depository Library Program are found in Chapter 19 of Title 44 of the United States Code. Sections 1901-1916 set forth the parameters of the program.

Under Title 44 U.S.C. § 1909, the Superintendent of Documents is charged to uphold U.S. Depository Library Program laws. These duties include, but are not limited to, the requirements to investigate depository library conditions, ascertain whether a library is compliant, make recommendations and, if necessary, to remove noncompliant libraries from the Depository Library Program.

FDLP Rules and Regulations - Historic

Instructions for Depository Libraries (ca. mid-20th C) – rules and regulations of the FDLP

FDL Manual (1985) – guide for carrying out FDLP operations

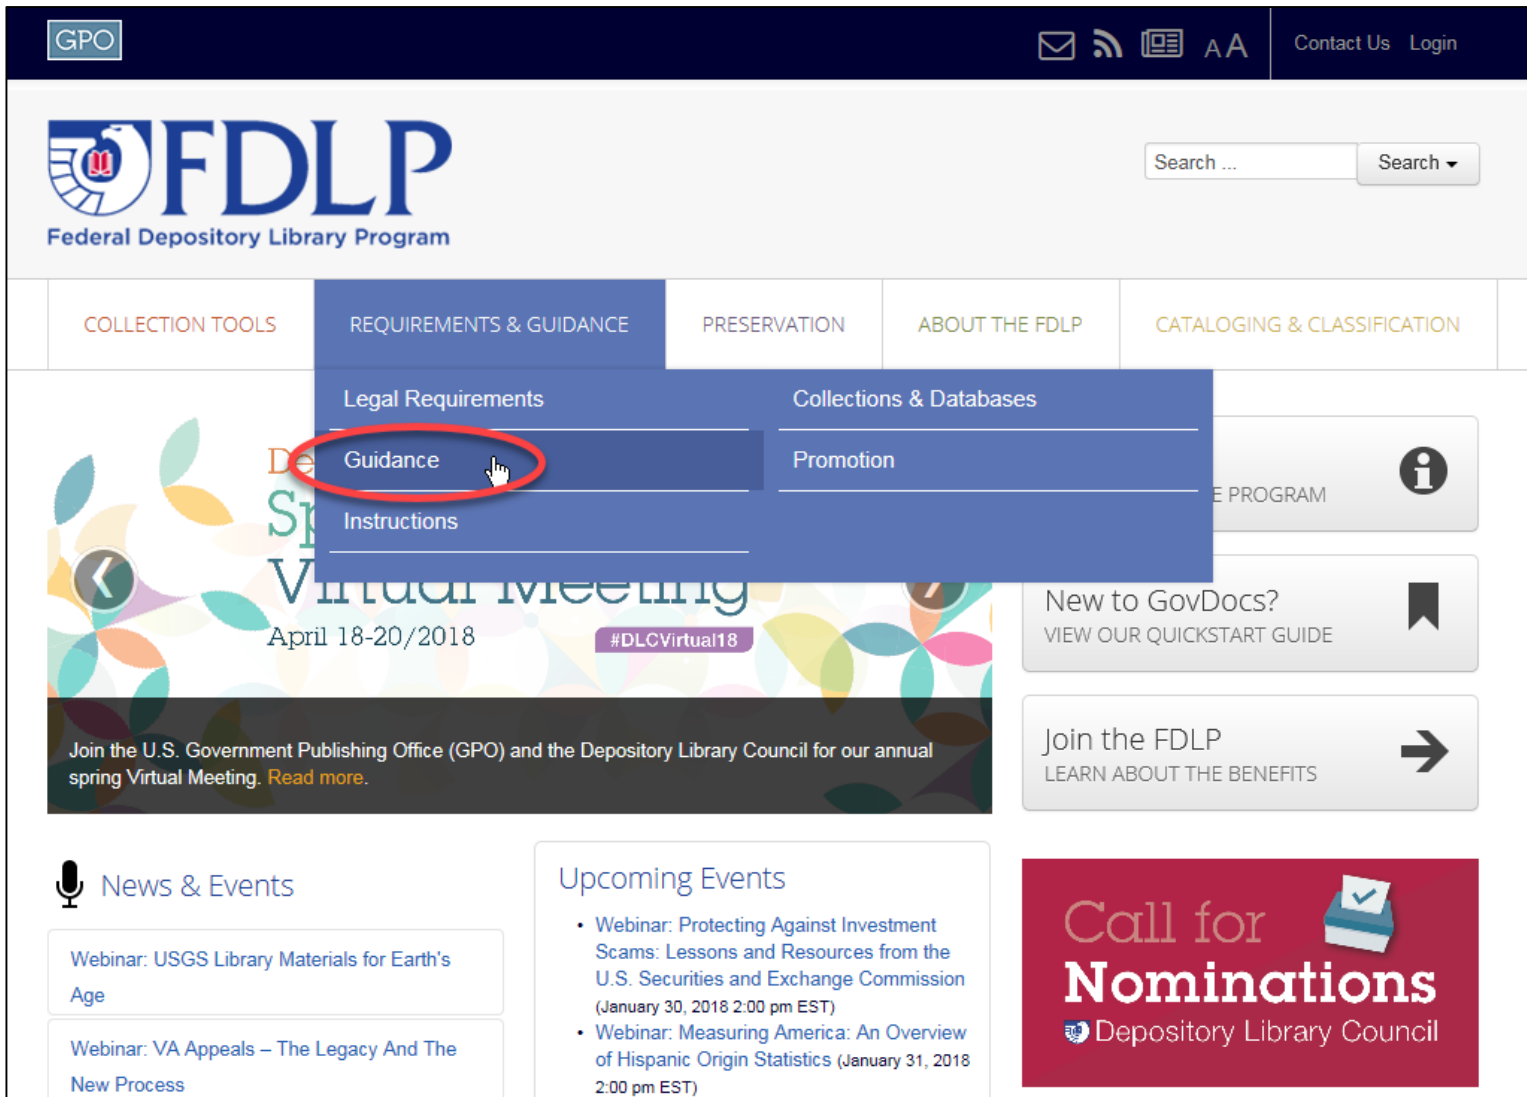

FDL Handbook (2007) - combination of rules and guidance (online only)

Legal Requirements & Program Regulations (LRPR)

- Regulations are based on Title 44 U.S.C. §§1901 -1916 (2010) and further refine and clarify Federal depository library obligations.
- They are not intended to provide in-depth guidance to help library staff gauge how to implement the regulations.

Online Guidance

The screenshot shows the Federal Depository Library Program (FDLP) website. At the top, there is a GPO logo and navigation links for 'Contact Us' and 'Login'. The main header features the FDLP logo and a search bar. Below the header is a navigation menu with categories: 'COLLECTION TOOLS', 'REQUIREMENTS & GUIDANCE', 'PRESERVATION', 'ABOUT THE FDLP', and 'CATALOGING & CLASSIFICATION'. The 'REQUIREMENTS & GUIDANCE' menu is expanded, showing sub-items: 'Legal Requirements', 'Collections & Databases', 'Guidance' (circled in red), 'Promotion', and 'Instructions'. A banner for a 'Virtual Meeting' is visible, along with buttons for 'New to GovDocs?' and 'Join the FDLP'. The footer contains 'News & Events', 'Upcoming Events', and a 'Call for Nominations' banner.

Responsibilities of the Library

- Retention of documents
- Public access
- Promotion of depository collections
- Depository management
- Communication with GPO and Regional
- Provide services and staff expertise

FDLP News & Events

- At least one person at each depository needs to be signed up for FDLP News & Events
More than one person can sign up!
- Official channel for FDLP communication

The screenshot shows the top portion of the FDLP website. At the top left is the GPO logo. To the right are icons for email, RSS, and a document, with the email icon circled in red. Further right are 'Contact Us' and 'Login' links. Below this is the FDLP logo and a search bar with a 'Search' button. At the bottom is a navigation menu with five items: 'COLLECTION TOOLS', 'REQUIREMENTS & GUIDANCE', 'PRESERVATION', 'ABOUT THE FDLP', and 'CATALOGING & CLASSIFICATION'.

FDL Directory

- Lists all FDLP libraries and their library type, size, designation status, and contact information.
- Depository staff can log in to update their depository email addresses and edit their library's FDL Directory entry.
- Depository staff are required to keep their library entry up-to-date.

Shipping Lists...

- After you have checked off your receipts to ensure you received everything you should have, you are free to dispose of the shipping list.
- Some libraries hang onto them for 6 months in case there are questions later on.
- GPO recommends that you maintain a log of what shipping lists you have received because they are not shipped in numeric order.

Brief overview of map processing

Don't be scared of your maps!

General map processing tips

- Flat or rolled maps: Flat, in folders, in map cases
- Folded or small maps: In pamphlet boxes, in vertical storage such as file cabinet
 - Folding maps causes creases and weakens them
- Stamp and put call numbers:
 - Consistently in the same place
 - In a place you can see without taking map out of drawer
 - So you are not obstructing information

Specific map processing tips

- Stamp nautical charts **Not for navigational use**
- Stamp maps **Withdrawn** when you withdraw them
- To flatten rolled maps: roll them the other way around a map tube, leave for a couple of days, then undo
- Questions? Issues? **Join maps-l**

Piece level accounting

What is piece level accounting?

Identifying every tangible depository publication in your collection down to the 'item' or 'piece' level.

Can be achieved the following ways:

- 1) Full cataloging (down to the item/piece level)
- 2) Shelflist

What is a shelflist?

Itemized list of depository publications.

Preferably in electronic format (e.g. a spreadsheet).

Preferably publicly accessible.

Piece level accounting

Good holdings statement	Bad holdings statement
A 1.1:1909 – 2015	A 1.1:1909 – present
A 1.1:1909-1935, 1940-2011	A 1.1:1909-2011, some years missing
A 1.2:AC 1; AC 1/2002; C 32	A 1.2:AC 1 - C 32

Piece level inventories for maps

Don't panic – you don't have to individually catalog thousands of map sheets!

Common method:

Catalog an entire series, then maintain an index sheet indicating which sheets you have in your collection

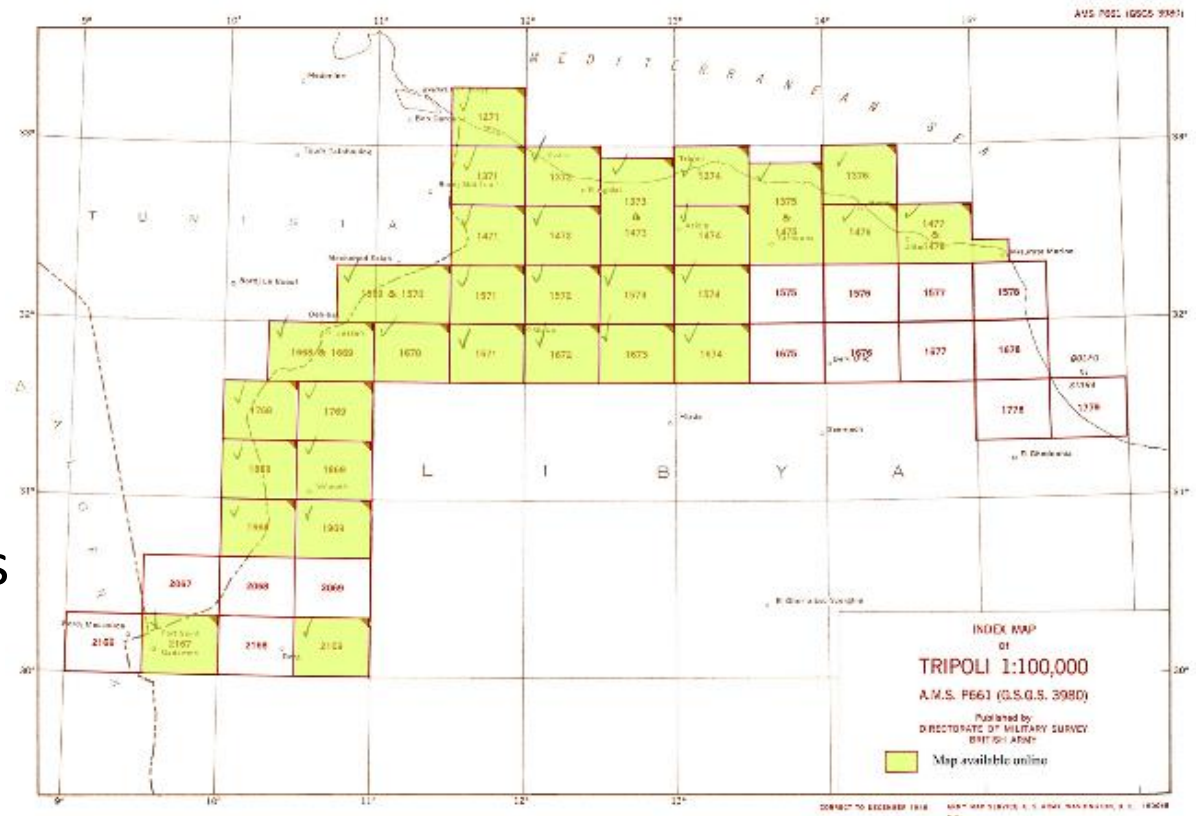

Image source: <http://www.lib.utexas.edu/maps/ams/tripoli>

Cataloging

Cataloging (full or partial level) is required for material received after January, 2012.

Level of cataloging is a local decision

- Full cataloging to the item or piece level
- Partial or brief cataloging (with additional piece level shelflist)

Where you catalog is up to you

- Preferably online or electronic
- Preferably accessible to the public

Bibliographic Control

- GPO requires 100% piece level accounting of the Federal depository collection you house (tangible).
- GPO requires cataloging (to varying degrees) for material received after January of 2012.

The goal of cataloging is to make the collection more visible and to increase its usage.

GPO is flexible when it comes to how you make that happen given your library's circumstances.

How and where to get catalog records

Different ways to catalog based on how your library's workflow is set up:

- Copy catalog
- Purchase vendor records for bulk upload
- Original cataloging
- Mix

Sources of records:

- Catalog of U.S. Government Publications (CGP) *free*
 - Email up to 20 per email
 - Z39.50 for up to 10,000 records
- CGP on GitHub *free*
- Documents Data Miner 2 (DDM2) – non GPO tool *free*
- CRDP *free*
- 3rd Party Bibliographic Record Vendor (e.g. OCLC, MARCIVE, Inc.)

Cataloging Record Distribution Program

- Project to distribute cataloging records to depository libraries free of charge on a monthly basis
- Limited number of places, waiting list, annual confirmation of participation

Record Customization:

- Changed or updated full GPO cataloging records
- Historic Shelf List cataloging records (brief records)
- Libraries may choose how the record sets are organized
- Creation of item record holding fields
- Creation of holding codes based on format
- Placement of OCLC and SuDocs numbers and designated MARC fields according to local practice
- Record sets in MARC 8 or UTF-8

3rd Party Vendors

Some libraries pay a vendor to provide them with catalog records based on their item selection profile, or other arrangement

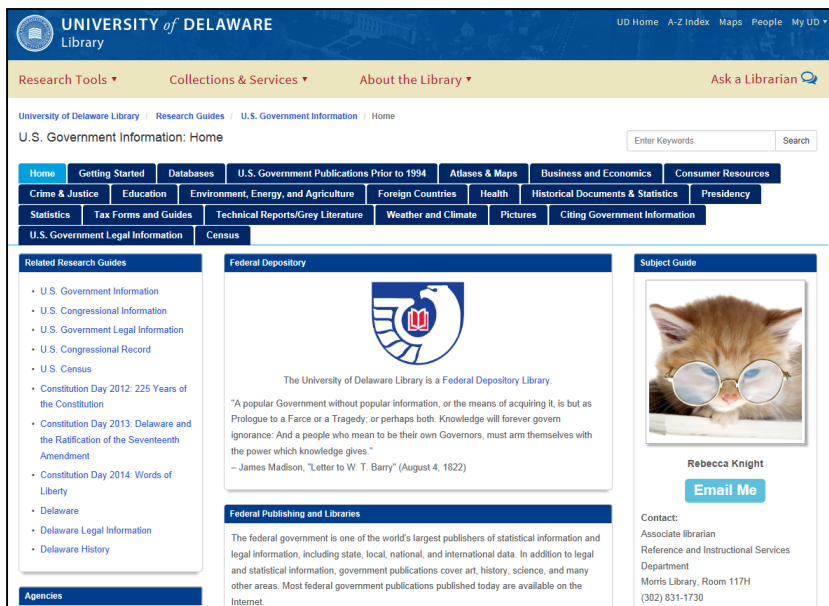

- MARCIVE, Inc
- OCLC
- Auto-graphics
- SkyRiver

Shared Catalog System?

Pros	Cons
Other libraries may do your cataloging	Other libraries may do your cataloging - or you may end up doing theirs
It may be cheaper to pay for commercial services (like MARCIVE, Inc.) in a consortium	You are bound by consortial agreements
Can be efficient	Other libraries may have differing cataloging practices that you have to take into account (like the level of catalog records accepted, call numbers used, etc.)
	Record clean up issues? Timeliness of cataloging? And more...

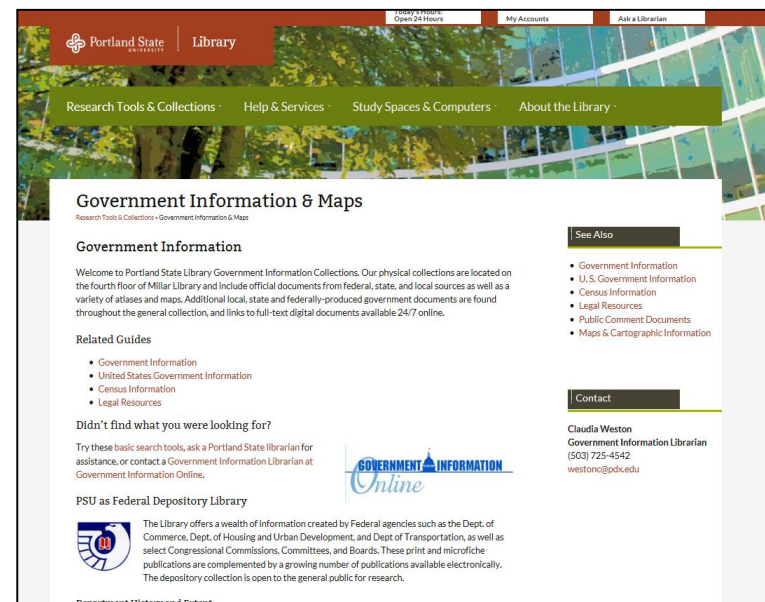

Online Resources

- Cataloging is not required, but recommended
- Alternate access points include including online resources in subject guides, LibGuides, etc...

The screenshot shows the University of Delaware Library website. The header includes the library logo and navigation links like 'UD Home', 'A-Z Index', 'Maps', 'People', and 'My UD'. Below the header is a search bar and a navigation menu with categories such as 'Research Tools', 'Collections & Services', and 'About the Library'. The main content area is titled 'U.S. Government Information: Home' and features a grid of navigation tabs for various topics like 'U.S. Government Publications Prior to 1994', 'Atlases & Maps', 'Business and Economics', and 'Consumer Resources'. A 'Related Research Guides' sidebar lists links to U.S. Government Information, Congressional Information, and Legal Information. The main content area includes a 'Federal Depository' section with a logo and text about the library's role, a 'Subject Guide' featuring a photo of a kitten wearing glasses, and a 'Federal Publishing and Libraries' section.

Below the header is a search bar and a navigation menu with categories such as 'Research Tools & Collections', 'Help & Services', 'Study Spaces & Computers', and 'About the Library'. The main content area is titled 'Government Information & Maps' and features a 'Government Information' section with a welcome message and a list of 'Related Guides' including 'U.S. Government Information', 'Census Information', and 'Legal Resources'. A 'Contact' section lists Claudia Weston, Government Information Librarian, with her phone number and email address. The page also includes a 'See Also' section and a 'Department History and Extent' section.

Cataloging Question?

- Check WebTech Notes
- Check CGP to see if updates have already been made to GPO's catalog record
- Submit askGPO question
- GPO will investigate (may take time if we have to reach out to an agency)
- Check out webinars on GPO cataloging in the GPO webinar archive

Your Retrospective Cataloging Projects 😊

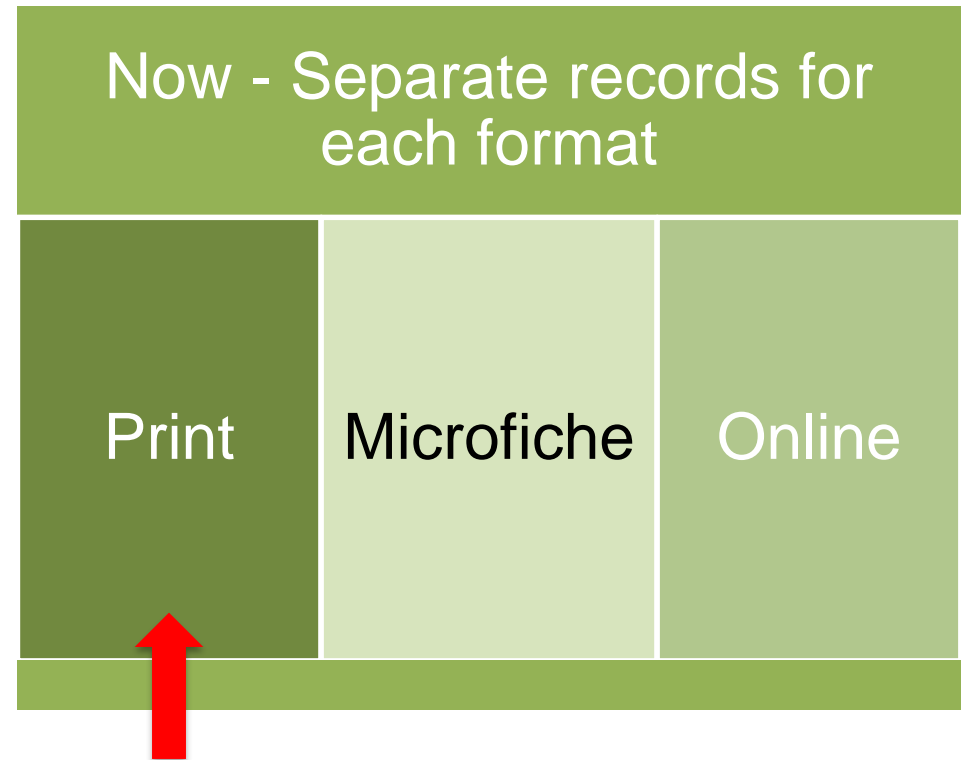

Variables:

- Housing
- Classification system
- Integrated or separate
- Condition
- Age
- Simultaneously weed
- Source of catalog records
- Shared catalog system
- Item selection history
- Time: staff, deadline, timeline

Contact your regional and any other libraries that may be impacted by the changes your library is undergoing

DO NOT throw away your shelflist or piece-level accounting prior to the completion of your cataloging project!

Multiple Formats

If catalogers are only cataloging what comes in your depository box, then your library is not developing an online depository collection

Don't Panic

Weeding your Collection

Ashley Dahlen, Senior Outreach Librarian

Weeding your Collection / Needs & Offers

3 weeding mechanisms:

- 1) Supersession
- 2) Substitution
- 3) 5-Year rule

Boring looking slide!

Supersession

- Superseded material may be withdrawn at any time
- Does not need to be offered to the regional library (unless they request it)
- Must meet the following criteria:
 - Dated material - discard when expired
 - Revised by a later edition/issue
 - A reprint and the depository received the original edition
 - Replaced by a cumulative edition
 - Replaced by a corrected copy
- [2002 Superseded List](#)

Superseded List Tutorial

Recording on what the Superseded List is and
how to use it:

<https://www.fdlp.gov/the-superseded-list>

(MP4, 12 minutes)

Substitution Mechanisms

- Material in one format may be substituted with the same content in another format.
- The regional must approve of the swap.
- The regional library should issue detailed instructions to its selectives on the prescribed substitution procedures.
- Three types of substitution:
 - Tangible
 - Online
 - Regional online substitution

Tip – if you are at a selective library and find that you do a lot of substitution, investigate whether or not you should deselect any item numbers to prevent the future receipt of those titles and formats.

Substitution

Tangible with a Tangible Substitution (Tangible depository holdings replaced by tangible products):

- Regional depositories should keep the interests of the state or region they serve in mind.
- Regionals must approve of any substitution.
- Substituted material must have proper reading equipment available, be properly referenced, and easily accessible to all users.
- Any material retained in lieu of the depository copy will then be treated as depository materials for the period of time that the library would have retained the original publications and they will be subject to the same requirements that govern the care, treatment, and public access requirements during that time period.

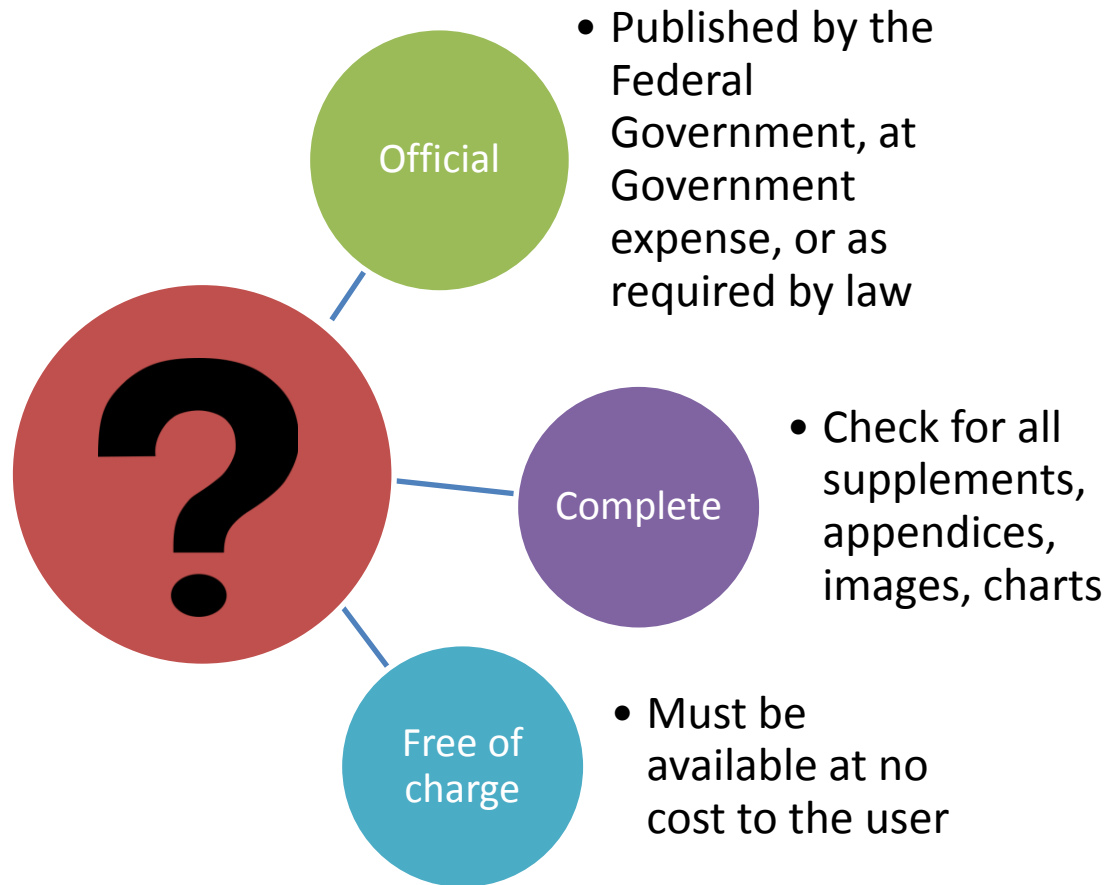

Substitution

Tangible with an Online Substitution (Tangible depository holdings replaced by an online equivalent):

- Regional depositories are generally not eligible for this option, although GPO is beginning to implement a regional discard policy for a limited number of titles.
- The publication must have been held for at least one year.
- The regional depository must approve of the swap.
- The online version must be:
 - Official
 - Complete
 - Free of charge to the user

Determining eligibility

Regional Discard Policy

- Permits regional depositories to substitute regional copies of material, provided they meet certain criteria
 - Material has been held for at least 7 years
 - Material is authenticated in **govinfo**
 - At least 4 copies are held in geographically dispersed areas under Memorandum of Agreement
- Regionals must have permission from GPO to weed.

5-Year Rule

- Selective libraries have the option of weeding material after having held the material for 5 years.
- The regional must approve of the withdrawal.

Weeding Cheat Sheet

(You're welcome).

Number of Years After Receipt →	1 Year	2 Years	3 Years	4 Years	5 Years and Beyond
Superseded List to identify publications that have been superseded by being updated, dated, cumulated, etc.; does not require regional permission	You can use the Superseded List at any time in the life cycle of the document.				
Substitution Guidelines to swap out a tangible publication with an online equivalent, with regional permission	N/A	Between 1 and 5 years, use the Substitution Guidelines			Can be used, but the 5 Year Rule also applies
5 Year Rule- Selectives may request permission to discard from their regional library.	N/A	N/A	N/A	N/A	Yes

Withdrawal Processes

Regionals have 4 mechanisms for authorizing withdrawals:

- 1) Require selective libraries to compile lists of publications they wish to withdraw from their collection (specific categories or formats may be exempted from the listing requirement)
- 2) Conduct an in-person review of the publications to be discarded
- 3) Require selective libraries to check discards against the regional's or a union "needs" list
- 4) Use a Do NOT need list

Note – regionals can reject a withdrawal request if they need the material to stay at a selective

Needs & Offers Lists

- List typically contains Title, SuDocs, Date, Range (if applicable), and possibly item number.
- Check with your regional to see if any formats have been exempted in your region.
- Regional has first dibs. Selectives in your state or region have second dibs.
- FDLP eXchange “Offer Nationally” list may be used after that (optional).
- Complicating factors:
 - Timeliness of reviewing lists
 - How the list is created (OPAC report versus Excel spreadsheet...)
 - Multiple regionals in your state?
 - ASERL tool in use?
 - Had a disaster in your region?
 - Lack of SuDocs numbers?

Other Approval Options

In-Person Review (AKA 'eyeballing')

- The regional library may conduct an in-person review of the publications to be discarded. Works well if the regional library is confident that the material being withdrawn is located elsewhere in the state or region.

Union 'Needs' List

- Selectives search a compiled 'needs list' of material that is known to be needed for the state or region.
- Saves libraries from having to list material that is already known to be needed.

Do NOT Need List

- Regional libraries can convert electronic disposal lists that they have already reviewed and compile them into a list of "do NOT need".
- Prevents the regional from searching their collection for the same publication twice.
- Works well in a region where the libraries have identified what their comprehensive collection requires (One copy? Multiple backup copies? Copies in various locations in the state?)

Exceptions

- **No regional:** selectives not served by a regional may not withdraw material, except that which is superseded
- **Federal agencies:** do not have to retain material for 5 years and must offer withdrawals to the Library of Congress
- **Highest State Appellate Court libraries:** not bound by these rules
- **Regional libraries:** can supersede and substitute (tangible for tangible and regional online substitution)

So you have permission to weed...Now what?

You can withdraw the material and:

- Update catalog/shelflist
- Stamp or mark as **Withdrawn**
- Put it on FDLP eXchange to “Offer Nationally”
- Give it away to other institutions who can make use of the material
- Recycle it 
- Toss it

****Your library cannot make money on the transfer.**

Selective Housing Agreements

Selective Housing Agreement (SHA)

Examples of when a SHA is needed:

- Depository library houses material at a non-depository library
- Depository library houses maps at another institution with a map collection
- Depository library sends legal material to a law library
- Depository library houses materials in offsite storage managed by someone other than library director
- Depository library sends health related materials to a hospital library

More examples

- Regional depository library housing “regional” copies in selective depository[ies]  That is the “regional collection”
- Depositories in a region agreeing to collectively house the state or region’s “comprehensive collection”  That is the “comprehensive collection”

Selective Housing Agreement (SHA)

A SHA outlines partner responsibilities.

Selective housing sites must:

- Make publications available for public use
- Must display the FDLP emblem

Or

- Must inform the public about how to access material in facilities not publicly accessible

GPO Visits

Public Access Assessments (PAAs)

- Investigations of the conditions in depository libraries required by Title 44 U.S.C. §1909
- Former ways of doing this:
 - Inspections (on site at the library)
 - Self-studies leading to inspections as needed
- Current way of doing this:
 - Public Access Assessments (phone call & remote review)

Public Access Assessments

- They don't have to be intimidating or scary – they are an opportunity for communication
- Benefit - a PAA can help you make your case internally for improvements or addressing issues
- PAA report reflects Legal Requirements and Program Regulations
 - Also includes notable achievements and recommendations
 - Final report sent to depository coordinator, library director, and regional coordinator

PAAs – What is GPO Looking For?

 - Guidance article on PAAs:

Noncompliance

- All noncompliance issues are reported to libraries during the PAA call
- Libraries are provided with a time period to address the issue and reach compliance
- Libraries may submit a report to GPO with an intended time frame if need more time
- Libraries that do not respond to issues or have persistent, serious issues are placed on probation.

 - Serials check-in
 - In-house database or spreadsheet
 - OPAC
 - Combination of any of the above

Cataloging current tangible receipts

- Has been required since January 2012
- Does not have to mean cataloging in an OPAC
- Makes the depository collection much more visible and increases usage

Common Noncompliance Issues

LRPR

Restrictions for minors

Priority use statements

- Federal depository resources must be available and usable for all library patrons regardless of library affiliation, disability, age, residency, or other patron status
- What if this conflicts with other library policies?
 - State the exception for depository users
 - Mediated access for depository users
 - Clear signage, webpages, and training

Biennial Survey of Depository Libraries

Required by law
(44 U.S.C. § 1909)

“The designated depository libraries shall report to the Superintendent of Documents at least every two years concerning their condition.”

Biennial Survey of Depository Libraries

- Distributed in odd number years
- Electronic submission
- GPO uses its communication channels to announce the survey:
 - FDLP.gov
 - FDLP News and Events Announcements
 - Will contact non-responders via email, phone, and letters to directors
- See FDLP.gov to view questions from prior Biennial Surveys:

Disasters, Moving, and Temporary Disruptions in Service

Jaime Hays, Outreach Librarian

Unusual Circumstances

- Disaster (Response) Plans
 - Are you prepared to react if something happens?
- Contingency Plans
 - Used when access to depository collections is going to be or has been affected

Disasters

Any disruption in access to the collection needs to be reported to GPO and your regional.

We recommend you have a disaster policy in place which accounts for depository materials.

O&S staff are available if you have any questions.

Moving & Temporary Disruptions in Service

When depository libraries undergo planned remodeling, undertake a significant move, or otherwise find their public service operations disrupted for an extended period of time, library staff are required to submit a contingency plan to the GPO's LSCM Office of Outreach & Support.

Contingency Plans

Contingency plans typically include:

- Institution name and depository number
- Expected beginning and ending dates of closure
- Contact name at your institution for depository questions
- Extent of the curtailment of service
- Before moving depository material off site, contact GPO outlining how the library staff will provide access to depository material stored off site. A contingency plan may be needed.

Contingency Plans (ctd.)

- Alternative strategies to be employed to fulfill Government information requests, including where the next closest depository is located. This may include:
 - Searching online to see if an electronic equivalent is available to use in lieu of a tangible copy housed in a temporary housing location
 - Gaining assistance from your regional depository library and other depositories to acquire copies of publications, if this process is more timely than retrieval from a temporary storage location
 - Arranging to set up public access computers and microfiche readers and printers in a new location
 - Notifying library users where they may find alternate access to Federal depository publications in all formats and related reference and other services

Contingency Plans (ctd.)

- Techniques for notifying primary clientele, other libraries (both depository and non-depository), and the general public of changes in service
- How your library will continue to check in new depository receipts or if shipments need to be temporarily halted

Government Documents Display Clearinghouse

This clearinghouse was established to assist federal depository library staff in creating intriguing and eye-catching displays for promoting government documents collections. A number of displays submitted to us from around the U.S. have been incorporated into this site. This enables others to view displays on numerous topics, as well as the sources used to create them.

You can find an alphabetical [Subject List](#) of displays which were featured at various libraries. Simply click on the desired topic to view the photos and source list from the respective library.

The clearinghouse is seeking displays from other libraries. We welcome digital images and lists of sources. These items may be submitted to Cornerstone [Government Documents Displays](#) via e-mail.
