# Federal Depository Library Program

## Welcome to the Federal Depository Library Directory (FDLD)

There are over 1,100 designated Federal depository libraries (FDLs) located in 50 states, the District of Columbia, the Federated States of Micronesia and U.S. territories.

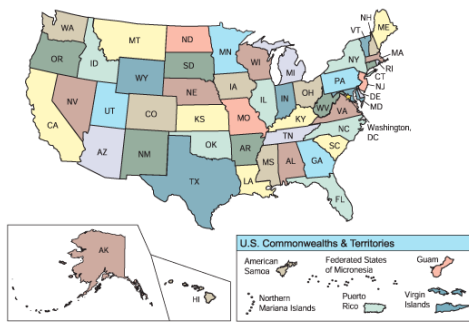

The U.S. Government Publishing Office (GPO) through the Federal Depository Library Program (FDLP) distributes Government information free of cost to these libraries, and the libraries provide free access for all users to this information. In addition, information specialists are available at these libraries to assist researchers with locating Federal information.

### FDLD Basic Search
