What Data We Collect

The Census Bureau conducts more than 130 surveys each year...

Decennial Census of Population and Housing

The U.S. census counts every resident in the United States. It is mandated by Article I, Section 2 of the Constitution and takes place every 10 years.

American Community Survey (ACS)

The American Community Survey is the premier source for information about America's changing population, housing and workforce.

Economic Census

The Economic Census provides detailed information on employer businesses, including detailed data by industry, geography, and more. Official 5-year measure of American businesses.

Our Surveys & Programs

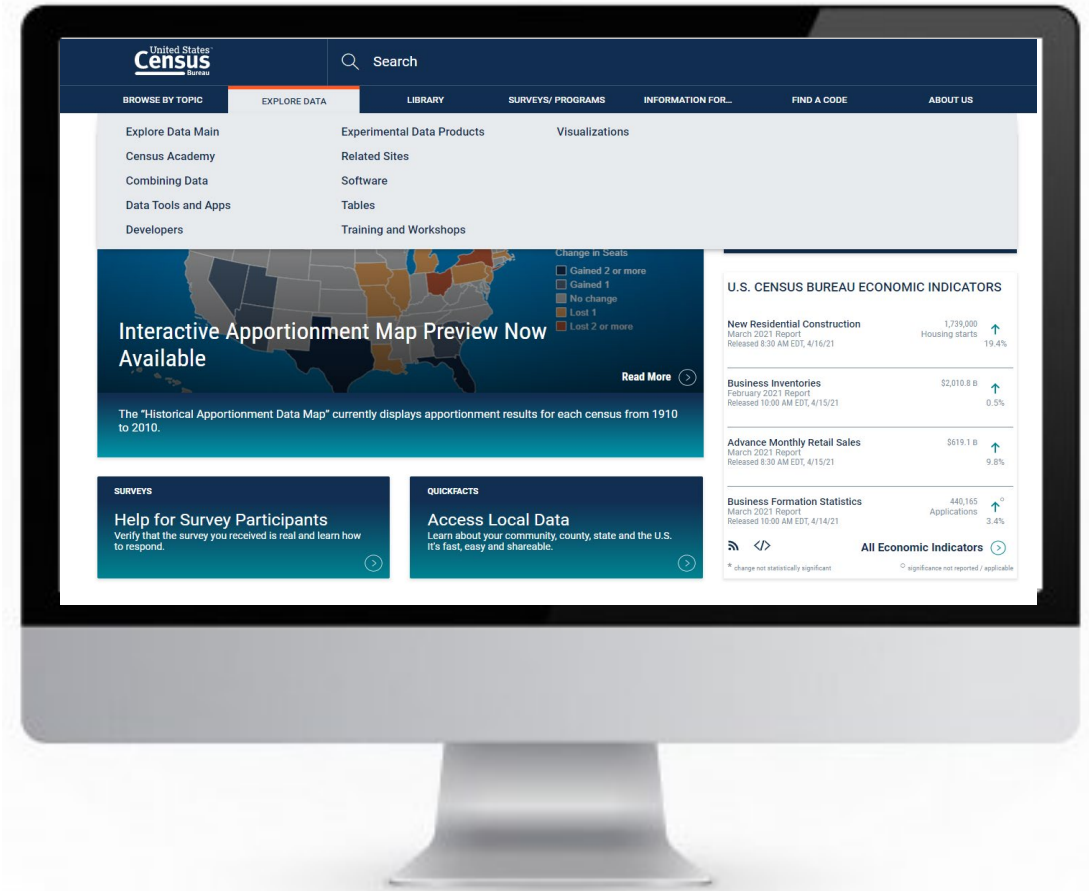

Our surveys provide periodic and comprehensive statistics about the nation. This data is critical for government programs, policies, and decision-making.
