

Virtual Snacks with Council - Weeding through the Options: An Overview of Various Discard – Chat log

Jen Kirk -> All Participants: Can you hear me?

Renee Bosman -> All Participants: no, but i had audio issues in a meeting earlier

Jen Kirk -> All Participants: Hi everyone, welcome to Day 2 of the FDLP conference.

Jen Kirk -> All Participants: Thanks, Jennifer! :)

Helen Keremedjiev -> All Participants: In order to hear the presentation, you will need to connect your audio by either dialing in on the phone or by connecting through your computer speakers. To connect, click "Audio" at the top and then "Audio conference." The pop-up box will give you the two options to connect. Follow the instructions in the box.

Brylynn Ellis -> All Participants: Good Morning/Afternoon Everyone!

Donald Sensabaugh -> All Participants: Good morning Brylynn

Brylynn Ellis -> All Participants: Ice Breaker: Does anyone have a favorite Government Department? Mine is the Department of the Interior

Donald Sensabaugh -> All Participants: GPO, ha

Jen Kirk -> All Participants: Department of Interior is a good one! I'm partial to the Department of Agriculture, currently. There's so much different stuff!

Brylynn Ellis -> All Participants: Agriculture is my second! I'm quite an environmentalist so I may be biased lol

Jennifer Morgan -> All Participants: IRS . . . just kidding. :-)

Jen Kirk -> All Participants: :)

Jen Kirk -> All Participants: Jennifer, ha!

Vicki Tate -> All Participants: I am partial to history so I like the materials from Dept. of Defense.

Jennifer Morgan -> All Participants: They do have a ton of different publications, but they are constantly changing their website.

Brylynn Ellis -> All Participants: My undergrad was in history so I get the appreciation for DOD materials

Kimberly Allen -> All Participants: The EPA. I supported their web site for @ 10 years

Jennifer Morgan -> All Participants: Very cool Kimberly.

Brylynn Ellis -> All Participants: Yay EPA!

Kelly Smith -> All Participants: I have to give the Census Bureau a shout-out because so many of my users rely heavily on their data

Helen Keremedjiev -> All Participants: If have any questions, please add them to the chat and send them either to "All Participants" or to "All Panelists."

Brylynn Ellis -> All Participants: Kelly, it is a great resource

Helen Keremedjiev -> All Participants: In order to hear the presentation, you will need to connect your audio by either dialing in on the phone or by connecting through your computer speakers. To connect, click "Audio" at the top and then "Audio conference." The pop-up box will give you the two options to connect. Follow the instructions in the box.

Brylynn Ellis -> All Participants: Woot Woot IU Alum!

Charlie (she-her) Amiot -> All Participants: Because I'm suffering from what my predecessor left behind.

John Olson -> All Participants: weeding project is in our future.

Brianne Hagen -> All Participants: My library is currently going through a weeding project

Francis Norton -> All Participants: future plans

Carla Pritchett -> All Participants: Because I need to weed for space purposes and I want to do it right.

Chris Schmidt -> All Participants: Same as charlie

Amanda Hall -> All Participants: New to Gov Doc and trying to make sure I understand the weeding and discarding process

Kate Irwin-Smiler -> All Participants: We don't have an active weeding program here.

Elizabeth Sanders -> All Participants: The library I just joined is hiring contractors to do a weeding project due to space

Ronnie Joiner -> All Participants: I want to know how other libraries do it.

Brylynn Ellis -> All Participants: I have been handed a gov docs department that was not kept up with

Leslie Cunningham -> All Participants: Making plans to weed

Deb Ahlers -> All Participants: Working on weeding our collection to free up needed space.

Deisy Vaske -> All Participants: I always like a refresher on what selective depository can and cannot do

Jessica Torgerson Lundin -> All Participants: I'm new to this position and there is a lot of cleanup to be done.

Scott Briggs -> All Participants: As I am now the only Govt Pub person that is full time, I need to have a clue on how it works.

Guy Dobson -> All Participants: we will begin discarding to make more room, soon, at Drew

Misty Hopper -> All Participants: Currently performing large weeding projects.

Bernadette Johnson -> All Participants: To learn how to better conduct future weeding project.

Emily Sweeton -> All Participants: We are currently working on weeding unused sections of documents

Libby McDaniel -> All Participants: We're finishing a weeding project that we started in 2018.

Jenny McBurney -> All Participants: I'm new to my role and want to understand the processes better

Amanda Ros -> All Participants: more info on current weeding/discard practices (new coordinator here)

Barbara Darrow -> All Participants: Weeding is one of our projects next year

Mary Ellen Lomax-Bellare -> All Participants: my first conference and I want to learn/obsorb as much as i can

Jesse Griffin -> All Participants: just want to stay on top of current practices

Barbara Allred -> All Participants: If GPO goes fully digital I'm wondering what the process will be for weeding out the print?

Elizabeth Sanders -> All Participants: And I've seen so much talk about weeding for that same purpose but... I worry about things just getting tossed out

Amy Singer -> All Participants: Weeding project soon

Anona Earls -> All Participants: Weeding project is planned for us, lots of old/disorganized collection and I just became coordinator

Teri Taylor -> All Participants: I want to be prepared if I'm asked to a major weeding project in the future

Holly Chambers -> All Participants: Hoping to gain some tips for speeding up the discard process. We are weeding now.

Amanda Duke -> All Participants: in a temporary location and may have less space in the library going back

Charlie (she-her) Amiot -> All Participants: And like many, I'm also new to FDLP weeding, makes for an interesting intersect.

Kimberly Allen -> All Participants: New to the process, but I am lucky to have Renee as my supervisor!

Kaitlyn Moody -> All Participants: To see how other libraries handle the weeding process

Erin Lybrand-Wenz -> All Participants: We're losing space

Doris Hutson -> All Participants: We are superseding from the "Superseded List"

Matthew Henninger -> All Participants: To get new perspectives on how selectives weed their collections

Laurie Gaillard -> All Participants: Same as Charlie. Want to know best practices.

Joy Urbina -> All Participants: Need to weed for space purposes and to become more all digital but we

have a whole floor of a historical collection basically

Chhann Ya -> All Participants: working on weeding and space purposes

Kris Abery -> All Participants: We're a regional so we don't discard but its always good to hear what others are doing.

Yiming Guo -> All Participants: We are planning to weed a lot of materials.

Joy Urbina -> All Participants: We hardly weeded if ever since 1966

Samantha Thorne -> All Participants: New to FDLP and want to understand other libraries' workflows

Elizabeth Sanders -> All Participants: Me too!

Trina Magi -> All Participants: I'm a new interim coordinator of gov info and want to be sure I understand the rules and best practices

Brylynn Ellis -> All Participants: Running out of space as well

Karina Ricker -> All Participants: Weeding whole collection and hoping library admin doesn't move it to storage before uncataloged are cataloged!

Abby Freimuth -> All Participants: I'm just curious how weeding works and what happens to weeded materials!

Brylynn Ellis -> All Participants: Also much is not cataloged

Kris Abery -> All Participants: Would there be a weeding process for digital in the future?

Brylynn Ellis -> All Participants: I don't know what is and isn't being used because there is not a way for many of the materials to be to be in the stats

Laura Gricius-West -> All Participants: New coordinator

John Olson -> All Participants: Deciding what to weed verrses what to contribute to Preservation Steward program.

Tekla Slider -> All Participants: +1 Kris

Brylynn Ellis -> All Participants: We weed mostly committee hearings because that's what we get the most of however I've been taking more aspects in to consideration, such as historic value

Vicki Tate -> All Participants: I have weeded materials every year since I came to my library and I have been here for 28 years.

Brian Garrison -> All Participants: Weeding and Gov Docs, the stewardship aspect, seem to possibly contradict themselves. As a new FDLP librarian, I'd like to hear this perspective.

Laura Gricius-West -> All Participants: I don't particularly like records received from the Marcive loads and sometimes weed the digital items afterwards, so came to this session to get ideas for weeding those digital items

Mary Russell -> All Participants: Want to be sure we are doing what we should be

Amanda Ros -> All Participants: interested to hear others saying moving to storage because our offsite won't take docs since they get superseded etc

Charlie (she-her) Amiot -> All Participants: I want to deintegrate from LC and go back to SuDoc, so I'm also here to hear anything about that.

Charlie (she-her) Amiot -> All Participants: Yep!

Charlie (she-her) Amiot -> All Participants: I hate it. Nobody can find them.

Vicki Tate -> All Participants: Digital documents are easy to weed. You remove the bib record.

Lorri Pickett -> All Participants: Trying to transition to mostly digital and are in the process of getting rid of tangible materials.

Kate Irwin-Smiler -> All Participants: Charlie that's interesting - we've been wanting to integrate from SuDoc to LC. I'd love to talk about why you want to go back.

Mary Russell -> All Participants: no, but we should

Charlie (she-her) Amiot -> All Participants: Kate, I got a whole rant. I'll email you!

Brylynn Ellis -> All Participants: If i'm weeding out materials I try to export an electronic record from OCLC so that there is still a form f the material in our records

Kate Irwin-Smiler -> All Participants: Please Do!

Mary Russell -> All Participants: yes

Vicki Tate -> All Participants: I am in the process of completely going through the item selection profile and de-selecting MANY item numbers.

Elizabeth Sanders -> All Participants: A lot of the policies I inherited are outdated

Jen Kirk -> All Participants: Brylynn, that's great. We call that process substitution.

Laura Gricius-West -> All Participants: Vicki - I am doing the same

Karina Ricker -> All Participants: we have a de-accession policy. handle serials differently than non-serials.

Joy Urbina -> All Participants: We are transitioning to more digital. We don't have anything on weeding digital, but we do have a process for removing bib records for shipping list records of materials never received

Brylynn Ellis -> All Participants: Thank you Jen, I meant to say substitution! I have had all my coffee yet lol

Thomas Fischlschweiger -> All Participants: We don't have anything formal for weeding the digital records, but we follow the five year rule just to be safe. We weeded about 36K records a few years ago.

Elizabeth Sanders -> All Participants: I answered 'B' but I don't have extensive experience -- just a bit.

Charlie (she-her) Amiot -> All Participants: F. I was lucky enough to have hands-on weeding instruction and practice in iSchool.

Jen Kirk -> All Participants: We are a regional, so we only weed duplicates

Tekla Slider -> All Participants: Since I'm a selective without a regional things get complicated quickly

Elizabeth Sanders -> All Participants: At my former institution, I faced same thing as here. Library space was needed, so forced to weed. So I did with our media (CD, DVD) collection.

Elizabeth Sanders -> All Participants: I had started on inventorying maps before I left, but never got to the next step on that process.

Mary Yamanaka -> All Participants: I selected other because I know how discarding works, but never actually had to pick what to weed.

Amy Laub-Carroll -> All Participants: We are a regional, too and only weed duplicates and triplicates (yes, we have them)

Brent Abercrombie -> All Participants: Regional depository, so I do not weed but provide guidance to those who do.

Margaret Sylvia -> All Participants: I am very familiar with weeding our regular collection but since I had gov docs added to my responsibilities, I have not yet weeded govdocs.

Vicki Tate -> All Participants: The purpose of weeding is not only removing materials from the collection but also identify those items that are not catalog and getting added to the catalog if they meet our research needs.

Mary Ellen Lomax-Bellare -> All Participants: I assisted the former coordinator with a weeding project. I was responsible for removing records from our ILS.

Barbara Darrow -> All Participants: I have weeded in Business Science Technology Department but not in Government Documents before.

Jesse Griffin -> All Participants: I did not do the weeding, but my law library did weed a number of non-depository government documents several years back.

Charlie (she-her) Amiot -> All Participants: Our digital records are consortium controlled; my understanding is we have everything. I have no preference.

Becki White -> All Participants: Currently weeding, and have done a big project in the past.

Jen Kirk -> All Participants: Amy, we have up to 8 copies of some locally relevant items. :)

Jen Kirk -> All Participants: Wyoming

Doris Hutson -> All Participants: We are a Regional and assist Selectives in weeding

Deisy Vaske -> All Participants: Wyoming does not have a regional

Vicki Tate -> All Participants: No regionals--MI, SC, WY

Kris Abery -> All Participants: We're a regional and handle the discard process for selectives in CT and RI

Deb Ahlers -> All Participants: Recently started using FDLP eXchange to post offers we'd like to weed from our collection.

Brylynn Ellis -> All Participants: Woot Brent! Indiana State University here!

Vicki Tate -> All Participants: SC should have been SD, sorry

John Olson -> All Participants: First big weeding project was coordinated with other subject librarians at our institution. Second big weeding project was mostly older NASA docs from Sci Library.

Elizabeth Sanders -> All Participants: I agree @ cataloged -- but I think the lived experience (for me at least) is that we're told to get X space cleared in X time

Kate Irwin-Smiler -> All Participants: +1 Elizabeth

Kelly Smith -> All Participants: Have done lots of weeding but am new to using FDLP eXchange

Deisy Vaske -> All Participants: Hi Tekla!!

Thomas Fischlschweiger -> All Participants: What Elizabeth said...

Abigail McDermott -> All Participants: To clarify, MI and SD are served by Univ of MN (0295) along with MN.

Deb Ahlers -> All Participants: I run usage reports for our print holdings and they are just not heavily used.

Joy Urbina -> All Participants: I've weeded regular collections as a subject librarian, but GPO is a whole another thing to be weeding. I have several things over 5 years old

Kate Irwin-Smiler -> All Participants: Deb: do you mean checked out? Reshelved? What is that based on?

Chhann Ya -> All Participants: following the 5 years rule

Deb Ahlers -> All Participants: Circulation reports...how many circs...when last circulated

Kate Irwin-Smiler -> All Participants: Thanks Deb! (a lot of our nonFDLP material are used in house without being checked out, so I always wonder.)

John Olson -> All Participants: Also basing some weeding on mothly PURL reports.

Deb Ahlers -> All Participants: I mean checked out, we aren't doing soft check out for reshelved.

Charlie (she-her) Amiot -> All Participants: Yes, BUT, I find it confusing half the time.

Jesse Griffin -> All Participants: Yes.

Jennifer Morgan -> All Participants: LRPR: <https://www.govinfo.gov/app/details/FR-2009-05-01/E9-10094>

Jennifer Morgan -> All Participants: Guidance: <https://fdlp.gov/guidance>

Jennifer Morgan -> All Participants: Weeding a Depository Collection: <https://fdlp.gov/guidance/weeding-depository-collection>

Charlie (she-her) Amiot -> All Participants: Is the LRPR link correct?

Kathryn Bayer -> All Participants: fyi LRPR is also on FDLP.gov at Requirements and Guidance ~38gt; Regulations

Jesse Griffin -> All Participants: I hope so!

Jennifer Morgan -> All Participants: LRPR is linked from <https://fdlp.gov/requirements-and-guidance/regulations>

Jennifer Morgan -> All Participants: Sorry about that Fed Reg link, I was working on an assignment earlier. :-)

Charlie (she-her) Amiot -> All Participants: ~38lt;3

Kate Irwin-Smiler -> All Participants: (LOL Jennifer I hate when that happens!)

Jennifer Morgan -> All Participants: <https://ask.gpo.gov/s/FDLD>

Jennifer Morgan -> All Participants: Happens to me all the time Kate smh

Charlie (she-her) Amiot -> All Participants: F. Other: Because some REALLY bad selection decisions were made in the past that have nothing to do w/my population of users.

Mary Russell -> All Participants: we did a large weeding project in the past to bring our FDLP collection in line with our general CD policy in terms of topic areas (we are a selective and a state library)

Karina Ricker -> All Participants: Retain curriculum based materials

Holly Chambers -> All Participants: F. No longer relevant for the population we serve (selective)

Trina Magi -> All Participants: Other: to get rid of superseded publications

Vicki Tate -> All Participants: Purpose of weeding is to make the collection more relevant to the needs of our patrons.

Elizabeth Sanders -> All Participants: Curious for people who said lack of space -- is any of that because the library is out of space, rather than your shelves?

Barbara Whalen -> All Participants: Removing out of scope material for public library users--too specialized, too obscure

Elizabeth Sanders -> All Participants: In other words, the library wants to put in more study space, etc.?

Holly Chambers -> All Participants: Another F - content now easily (kind of) available in other locations, e.g. Hathi, archive.org

Joy Urbina -> All Participants: We have low use of our physical collection and our computer labs on campus don't have CD-ROM readers anymore. We're down to 6 computers with readers

Charlie (she-her) Amiot -> All Participants: I've learned that we're not a Hathi library, and I'm working on that, but it frustrates things.

Kate Irwin-Smiler -> All Participants: Elizabeth, we've been shifting more library space to study rather than shelves for years (we lost an entire floor about 8 years ago...)

Charlie (she-her) Amiot -> All Participants: First thing I did: Triage. I stopped so many things!

Holly Chambers -> All Participants: The amount of access our patrons get in Hathi can be enough for our patrons. We're not a Hathi library

Brylynn Ellis -> All Participants: I'd like to make our collection move toward materials that reflect my university's studies and that is relevant to my community as well

Thomas Fischlschweiger -> All Participants: Don't forget electronic substitution. It saves a huge amount of space

Charlie (she-her) Amiot -> All Participants: @Holly, we didn't even have it in our databases~38#x2026;

Tekla Slider -> All Participants: Weeding damaged items only

Holly Chambers -> All Participants: That is unfortunate

Kris Abery -> All Participants: Does anyone have statistics on the percentage of gov docs available n HalthiTrust or Internet Archive?

John Olson -> All Participants: I did a major change in our profile by switching from print to avaialble digital

Elizabeth Sanders -> All Participants: Also curious about this one -- I put other because I would LOVE to do regular maintenance but my FDLP duties (both times I've been FDLP Coordinator) is one small part of my job rather than main job and I have no support staff.

Elizabeth Sanders -> All Participants: Anyone else in that boat?

Kate Irwin-Smiler -> All Participants: Elizabeth: ABSOLUTELY. I do have a part of a support person but there's just no time.

Lorri Pickett -> All Participants: Currently doing two jobs so gov docs are low priority.

Brylynn Ellis -> All Participants: Everything we have is SuDoc thankfully

Scott Briggs -> All Participants: Mostly Superceded materials that get discarded.. Haven't had much supervision on anything else.

Jesse Griffin -> All Participants: \m/

Kate Irwin-Smiler -> All Participants: I've been trying to get to that SuDoc --~38gt; LC project for literally years.

Elizabeth Williams -> All Participants: Don't have time

Deb Ahlers -> All Participants: Yes, I've been at my library for years and just recently became the gov't docs coordinator so relatively new to me.

Charlie (she-her) Amiot -> All Participants: Benefit of being new is that in some ways I'm still flying under the radar, and nobody really knows what I do, so it's what I say I do.

Kate Irwin-Smiler -> All Participants: LOL Charlie.

Charlie (she-her) Amiot -> All Participants: I've learned to work that angle VERY well.

Joy Urbina -> All Participants: As my 1 staff member goes to place new items they let me know when there's no space to put out new items. When this happens, I review that section and remove all but the last 5 years if possible to make room.

Holly Chambers -> All Participants: The tech services staff does removal out of our catalog (for those that are). I do usually have a student assistant for some hours per week.

Deb Ahlers -> All Participants: The gov't docs coordinator is just one of my areas of responsibility.

Holly Chambers -> All Participants: We used to have a gov doc clerk but no more.

Jesse Griffin -> All Participants: Tetris is the truth of the matter!

Karina Ricker -> All Participants: Identifying serials that are digitized and cataloged by GPO. These print serials are removed from our collection.

Barbara Darrow -> All Participants: We have been weeding in Business Science Technology items that have not circulated in 5 years. The Government Documents have not been regularly weeding for a number of years.

Mary Russell -> All Participants: We have a similar issue with space that we have to keep ALL state documents indefinitely, sometimes older Fed Docs have to go to make space.

Brylynn Ellis -> All Participants: Do you send anything to the Lilly Library?

Charlie (she-her) Amiot -> All Participants: YES! PARTNER!

Elizabeth Sanders -> All Participants: Thanks to all answering my questions! I appreciate.

Jennifer Morgan -> All Participants: Brylynn, I'm not sure Lilly wants anything we have.

Mary Russell -> All Participants: How do you identify the serials that GPO has digitized?

Jennifer Morgan -> All Participants: FDLP eXchange: <https://fdlp.gov/collection-tools/fdlp-eXchange>

Jennifer Morgan -> All Participants: ASERL Documents Disposition Database:
<https://guides.uflib.ufl.edu/aserl-dispositiondb>

Charlie (she-her) Amiot -> All Participants: Is MetaLib better for everyone over CGP? Because I've been finding that lately and it annoys me.

Charlie (she-her) Amiot -> All Participants: I hear the term "offers list" a lot, and I'm wondering how people are compiling those. I can't get them from our ILS, so I manually enter one by one through eXchange.

Andrea Stelljes -> All Participants: At Hennepin County--Minneapolis Central, we simply don't have staff to do large weeding projects. It's just me as the Coordinator and .5 associate librarian and we both have many other duties. It's unfortunate because we aren't able to spend as much time on gov docs as needed for our large collection.

Holly Chambers -> All Participants: In NY, I'm pretty sure all selectives are required to use eXchange, which in one way ensures other depositories can get a chance to scan for their needs. BUT - it is another layer of work.

Holly Chambers -> All Participants: I've gotten used to eXchange and rather like it, except for the workload.

Jennifer Morgan -> All Participants: Indiana Disposal List Guidelines: <https://feddocs.lib.in.us/for-librarians/indiana-disposal-list-guidelines/> Indiana Needs and Offers Database ~38#x2013; List

Instructions: <https://feddocs.lib.in.us/needs-offers-list-instructions/>

Elizabeth Sanders -> All Participants: ASERL and FDLP eXchange use different templates for bulk uploads. I think ASERL does let you download in the eXchange format, though, but I can't fully remember

Jen Kirk -> All Participants: I point people to other lists if they don't have their own. For example, there's a list of Y4 Hearings that is available (originally from Florida, augmented by Utah) which is helpful to not have to type everything if your stuff is in SuDoc

Abigail McDermott -> All Participants: Mary, you can find most serials that GPO has digitized by browsing GovInfo: <https://www.govinfo.gov/>

Leslie Cunningham -> All Participants: Yes, NY requires that we use eXchange. It takes quite a while for the titles to make their way through the process.

Jennifer Morgan -> All Participants: GPO Digitization: GPO Needs Lists, <https://libguides.fdlp.gov/gpodigitization>

Karina Ricker -> All Participants: Mary Russell, SuDoc search in CGP will bring up multiple records: print, microfiche, online

Libby McDaniel -> All Participants: We

Abigail McDermott -> All Participants: But there are also PURLs on CGP records that take you to digitizations for material in other locations, like Federal Agency websites.

Holly Chambers -> All Participants: Especially if one does the 'right thing' and posts to National.

Charlie (she-her) Amiot -> All Participants: Should I be more concerned with filling in collection holes? I have so much that I need to get out the door that I can barely consider bringin in more.

Deb Ahlers -> All Participants: If a library requests an offer, who pays for the shipping/transport?

Andrea Stelljes -> All Participants: I'm going to start using eXchange for a US Serial Set project with our Regional, that is a Preservation Steward. Hoping to help them fill in the gaps using volumes from our collection in Hennepin County.

Libby McDaniel -> All Participants: We ask our student assistants to do the data entry part of offering. Many of hte documents that we offer have never been cataloged.

Elizabeth Sanders -> All Participants: Charlie, as someone who was brand new FDLP at my last position, I've been there. My recommendation would be to identify the key areas for your institution and wha you already have THEN identify what you may need

Brian King -> All Participants: We use eXchange in CT

Abigail McDermott -> All Participants: Here is the guidance on how to enable "national offers" in FDLP eXchange. You enable national offers for any time period you wish (5 days minimum is suggested) and then every offer you enter will be offered nationally: <https://www.fdlp.gov/using-fdlp-exchange-to-offer-materials-nationally>

Vicki Tate -> All Participants: Deb Ahlers-- That is up to the library. Usually it is gratis but if there are alot of materials requested you can ask for postage reimbursement

Mary Ellen Lomax-Bellare -> All Participants: sorry, i dont know

Jennifer Laski -> All Participants: As a federal library we are required to go through Library of Congress

Charlie (she-her) Amiot -> All Participants: @Elizabeth, thanks! That's going to take a while. I'm less inclined to fill print when we're going digital basically.

Holly Chambers -> All Participants: We pay postage because it is too complicated (state regs) to get postage back.

Barbara Darrow -> All Participants: Cchicago Public Library's Government

Abigail McDermott -> All Participants: Brienne, your regional coordinator should advise you on discard review requirements in your FDLP region. They are not the same across the FDLP.

Deb Ahlers -> All Participants: We're a library that has many older materials/sets. If a library wanted these large sets, the cost of transport could be an issue.

Joy Urbina -> All Participants: I'm a selective, I thought we had to use the FDLP exchange for all offers unless otherwise told by our regional what we can just automatically dispose of

Barbara Darrow -> All Participants: We haven't been weeding the Government Document collection for a number of years.

Helen Keremedjiev -> All Participants: Also, don't forget the Conference Bingo <https://www.fdlp.gov/file-repository-item/fall-conference-bingo-card-2022> with activities like completing the depository highlights field in the FDL Directory. Check out this video on how to update the field: <https://vimeo.com/723334959>

Jen Kirk -> All Participants: If you are actively filling in collection gaps, consider sharing that in your depository highlights in the FDL Directory. We've done that with the Soil Surveys

Jennifer Morgan -> All Participants: The National Collection of U.S. Government Public Information: <https://fdlp.gov/about-the-fdlp/the-national-collection> "Please offer your FDLP discards nationally via FDLP eXchange! Your designated regional depository must review and approve materials weeded from your FDLP collection, but not all regionals require the use of GPO's FDLP eXchange. Offering weeded material nationally will help Federal depositories outside your region develop their collections."

Charlie (she-her) Amiot -> All Participants: Is 15 days sufficient for Offers? Because I'm up to my ears in boxes.

Ronnie Joiner -> All Participants: I don't have a postage budget. That makes it difficult to offer nationally.

Gina Temple-Rhodes -> All Participants: Was there ever a requirement that materials be destroyed instead of given to local interested people after the official offers? There are some older ideas at my location about that.

Karina Ricker -> All Participants: Abigail, re: federal agency purloins in records: yes, we prefer purloins that go to govinfo.gov, but depending on content, we may weed print anyway

Jen Kirk -> All Participants: @Charlie, it depends on what part of the process you're in. For your regional, that might not be enough time. I might be sufficient for an automatic matching system like eXchange though

Jennifer Morgan -> All Participants: GPO Needs LibGuide: <https://libguides.fdlp.gov/gpodigitization>

Charlie (she-her) Amiot -> All Participants: @Jen, we only use eXchange here.

Abigail McDermott -> All Participants: Charlie, it depends on what phase of offers you mean when you say "15 days" - 15 days is, in my opinion, sufficient for national offers in FDLP eXchange. Your regional sets the time period for offers for regional review and selective review in the region. The ASERL Docs Disposition Database has a phased review that is 45 days total.

Charlie (she-her) Amiot -> All Participants: A lot of my items are tied up in Regional review now.

Deb Ahlers -> All Participants: We were trying to recycle our weeded fiche. Greendisk does this but the shipping costs even at media rate make it a budget issue.

Charlie (she-her) Amiot -> All Participants: We recently learned the City will take our recycling if we can get it to a collection center. So we're really only looking at the rental cost of a U-Haul, so I'm excited.

Holly Chambers -> All Participants: @Deb, is that only a certain kind of fiche?

Abigail McDermott -> All Participants: Here is the guidance on how to make it clear in FDLP eXchange if you can cover postage or your offers/discards - or not: <https://www.fdlp.gov/postage>

Charlie (she-her) Amiot -> All Participants: They don't take fiche though. Writing down @Deb's company.

John Olson -> All Participants: Will there ever be an update to the 2002 superseded list from GPO?

Brent Abercrombie -> All Participants: Yes that's correct. The time frame from the Regional's end (looking through the lists) is the same. Selectives have less time to claim.

Lisa Russell -> All Participants: If a regional has reviewed an item and determined that they do not need the item, it may be passed before the given number of days.

Tekla Slider -> All Participants: +1 John

Charlie (she-her) Amiot -> All Participants: +2 John

Brent Abercrombie -> All Participants: Indiana caps a needs list at 250 per list. Otherwise we can't get through them in a timely manner.

Lisa Russell -> All Participants: In FDLP eXchange the regionals can pass on it, just to clarify.

Deb Ahlers -> All Participants: Here is a list of what GreenDisk recycles at <https://www.greendisk.com/gdsite/accept.aspx>

Jennifer Morgan -> All Participants: Thanks Brent!

Abigail McDermott -> All Participants: No problem Jen! ;-)

Susan Ashby -> All Participants: As a newer coordinator I'm really interest in looking at collection development policies for academic libraries. Electronic or mostly electronic specifically but I'm interested in all.

Charlie (she-her) Amiot -> All Participants: A repository for FDLP collection policies would be amazing.

Charlie (she-her) Amiot -> All Participants: Both for historic and current perspectives.

Jen Kirk -> All Participants: Charlie, great suggestion! We can look into that.

Susan Ashby -> All Participants: Also any advice for reviewing and weeding microform would be appreciated.

Holly Chambers -> All Participants: +1 Susan

Deb Ahlers -> All Participants: We recently sent a 20 pound box of VHS tapes to GreenDisk, the ship was about \$17 media rate.

Brylynn Ellis -> All Participants: Brent, I need to be on the List-serve I think. I'm the GovDoc Specialist but not the coordinator

Charlie (she-her) Amiot -> All Participants: I would die if someone sent me a completed Succession Plan.

Charlie (she-her) Amiot -> All Participants: I'm so tired of writing mine.

Susan Ashby -> All Participants: Great. Thanks I'll look for info on MF recycling in the chat.

Charlie (she-her) Amiot -> All Participants: +1 to the Coordinator Program.

Deb Ahlers -> All Participants: I'm friendly with the mailroom crew and they were very helpful with sending things library rate and letting me know the cost of shipping.

Joe Paskoski -> All Participants: I would like to communicate with anyone who has experience weeding many digital records from their online system. Please contact me at jpaskoski@gpo.gov. Many thanks.
Joe

Charlie (she-her) Amiot -> All Participants: Pretty sure it sealed the deal on my job to have that credit.

John Olson -> All Participants: I created a LibGuide for possible sucession guide for future Docs coordinators at my institution.

Brent Abercrombie -> All Participants: Brylynn, the list serv to join for Indiana gov docs is INDIGO's. I rarely use the ISL one.

Amanda Ros -> All Participants: can you share, John?

Deb Ahlers -> All Participants: Sorry I found out heavier items go out media rate not library rate.

Mark Ames -> All Participants: That was a great session, thanks!

Renee Bosman -> All Participants: I think they can be donated, but not sold!

Andrea Stelljes -> All Participants: Thank you for this great discussion!

Brylynn Ellis -> All Participants: Thank you Brent

Bernadette Johnson -> All Participants: Thank you! This was a great session!

Kris Abery -> All Participants: Great session. Thanks

Amanda Ros -> All Participants: thanks for facillitig this

Tekla Slider -> All Participants: Great discussion. Thank you!

Jen Kirk -> All Participants: Thank you all!

Kate Irwin-Smiler -> All Participants: thanks all!

Kelly Smith -> All Participants: thanks all!

Charlie (she-her) Amiot -> All Participants: THANK YOU!

Jennifer Morgan -> All Participants: Thanks everyone!!

Deb Ahlers -> All Participants: Thanks:)

Lorri Pickett -> All Participants: Thank you!

Katherine Montoya -> All Participants: Thank you!

Joy Urbina -> All Participants: Thank you!

Holly Chambers -> All Participants: I hope this chat will be preserved!

Susan Ashby -> All Participants: thanks all!

Barbara Darrow -> All Participants: Thanks for a great discussion!

Holly Chambers -> All Participants: Thanks to everyone.

Helen Keremedjiev -> All Participants: In order to hear the presentation, you will need to connect your audio by either dialing in on the phone or by connecting through your computer speakers. To connect, click "Audio" at the top and then "Audio conference." The pop-up box will give you the two options to connect. Follow the instructions in the box.

Jenny Groome -> All Participants: FYI - The OER (Open Ed Resources) session at noon discussed images and many of us are looking forward to this session. We had many links in the chat - and we discussed that a document might be public domain but images might be copyrighted because an artist was contracted
