DeAnn Isenhower 13:08

Was there/ can there be a search for a new vendor for the CRDP?

Daniel Cornwall 13:10

Three cheers for FDM - a worthy descendent of DDM3!

Daniel Cornwall 13:11

And continued gratitude to Nan Myers and her team for starting us down this road.

Kate Pitcher 13:11

Bernice Suphal 13:17

will the slides be shared?

Kate Pitcher 13:18

Hello DeAnn - GPO made the decision to end the CRDP separately from Marcive's announcement, so we did not seek an alternative vendor. The cataloging records page includes several options including alternative vendors.

Kathleen Agno 13:18

Can we do an informal survey of what libraries have decided to do to replace CRDP? My library has not decided yet. Thanks!

Daniel Cornwall 13:19

Huzzah for the Geographic-Based Record Sets! Thank you!

Elisabeth Garner 13:19

With the end of MARCIVE, and knowing there are other viable options for libraries to use for obtaining catalog records as you've listed, would GPO be open to the idea of potentially bringing Gov Docs librarians who are responsible for the cataloging of records, to GPO for on-site training?

Susanne Caro 13:21

on Tuesday there will be a Snack Virtual Snack with Council: The End of the CRDP & MARCIVE at 12- a great time to discuss cataloging options

Elisabeth Garner 13:21

Some of us, myself included, do have travel budgets from our universities

Chad Deets 13:22

Could you speak a bit to why that decision was made re CRDP ending?

Elisabeth Garner 13:22

We're going with FDM

David Isaak 13:22

Kate Pitcher's emails: kpitcher@gpo.gov

Elizabeth Williams 13:23

FDM

Vera Lux 13:23

We have not decided

Betty Monterroso 13:23

Right now it looks like we will go with FDM.

Leigh Clark 13:23

We are going to try out FDM.

Una Scott 13:23

Probably OCLC

Kathy Hale 13:23

Not decided yet

Mark Hamilton 13:24

We haven't decided yet. We are an Alma library in a consortium. Hoping the consortium can pick up the curation of GPO records.

Christine Fletcher 13:24

We're considering the OCLC GPO collection of online records

Bruce Pencek 13:24

I have zero claim on the time of our shrinking cataloging operation. How are records getting into the knowledgebases underlying the various discovery systems? This ties in with the recent GocDoc-L question about Ex Libris communities.

Kathleen Agno 13:24

thank you!

Andrea Stelljes 13:24

Hennepin County Library (Minneapolis) will probably use OCLC

Mohammad Alhamad 13:24

Have you thought of working with major library system providers to have a collection added and updated.?

Daniel Cornwall 13:24

Likely OCLC. At least at first.

Mary Ries 13:24

Use OCLC, never used any other resource.

Karen Davis 13:24

OCLC

Brylynn Ellis 13:24

We mostly do websites as a means of retrieving resources so we may do that or OCLC.

Andie Craley 13:24

Still researching, OCLC and Z39.50 options, as well as others. We also did our authorities with Marcive, so double whammy for us.

Becki White 13:25

Z39.50 has worked well for us, as we add very few records to our catalog.

Gwen Sinclair 13:25

We are testing downloading of records from FDM. In the long term, hoping that CGP records can be available through discovery layers.

Mohammad Alhamad 13:26

Thank you!

Chad Deets 13:26

ALA GODORT Cataloging Committee is working on trying to help crowdsource learning experiences re alternative options for CRDP that we can share out. Feel free to submit feedback on this form:

We have not decided yet, but will probably go with OCLC, since we already receive non-depository records(Worldshare Collection Community)

Management: Strategies and Tools to Keep You Out of the Weeds session on Wed Oct 23 at 1 PM. And check out the posters at the Poster Gallery - there is a Marcive to OCLC WorldShare Collection Manager poster.

Andie Craley 13:38

I've mentioned this before, but I REALLY LOVE this Preservation Steward pic with the marbling!!!!

Brianna King - SCSL 13:39

My library is currently exploring OCLC, and I've partnered with two other coordinators to present at the FDLP conference. I'll be discussing how we use FDM to download records and upload them into our ILS (Sirsi). Our session is titled "Adapting to Changes in Government Information Management: Strategies and Tools to Keep You Out of the Weeds," and it will take place on Wednesday at 1 PM.

Will the Internet Archive hack have an affect on how these files are stored?

Elisabeth Garner 14:01

Great question, Susanne. So many online records I'm bringing in from the thousands of print items we deselected and offered on ASERL.
