Q&A

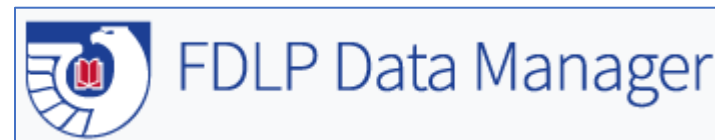

Spring Meeting Session Preview – Digital FDLP Tools

A digital FDLP **connects** the public with the Government information they need, putting **digital permanent public access** first while recognizing the importance of the existing tangible collection. The digital change allows GPO and Federal depository libraries to **leverage technology to improve access** to collections and services – all to support permanent public access and *America Informed*. GPO staff will provide updates and directions on three digital FDLP tools.

Historic Monthly Catalog

- In January 2024, ProQuest (PQ) announced the retirement of their Monthly Catalog of United States Government Publications (MoCat) Database.
- In April 2024, Superintendent of Documents (SuDoc), Scott Matheson, established an agreement with PQ to share their xml data and make it publicly searchable in a database format.
- Since then, GPO has acquired the ProQuest data and assessed options to achieve the SuDoc's goal.
- GPO is currently conducting a Proof of Concept (PoC) to validate an approach to extract MoCat entries from the PQ xml data in MARC format for searching within the Catalog of Government Publications (CGP) platform as a separate and distinct database from the CGP.
 - Data extraction resulted in over 1.2M individual MoCat entries.
- With a successful PoC, GPO anticipates making the Historic MoCat database available later this fiscal year.

Collecting and Maintaining Content for Permanent Public Access

Cataloging and Indexing (C&I) Program

The statutory obligation of the C&I Program is to prepare and publish a comprehensive index of every Federal document issued or published by a department, bureau, or office, not confidential in nature, and regardless of format. This is derived from the requirements for cataloging and indexing codified at 44 U.S.C. §§1710-1711 and 44 U.S.C. §4101(a).

FDLP Web Archive: Collection Development

Priorities for website level collection:

- Must be within scope of FDLP and C&I Program
- Little to no distribution through print
- Disseminated through web and not in our catalog
- Avoid too much duplication of effort with other agencies
- Work with the Collection Development Librarian to help determine the need
- Notification/nomination from the community

Description: Harvested by: Library Services and Content Management, U.S. Government Publishing Office. The Federal Depository Library Program, FDLP, was established by Congress in 1895 to provide free, permanent public access to Federal government information. The US Government Publishing Office administers the FDLP on behalf of the participating libraries and the American people. More information about the FDLP can be found at www.fdlp.gov. To provide permanent public access to Federal Agency Web content, the Federal Depository Library Program harvests selected U.S. Government Web sites in their entirety. Access to these sites is made available through links in our online public access catalog, the Catalog of U. S. Government Publications <http://catalog.gpo.gov>. PURLs-- Links to the Digital Content

- PURL stands for Persistent Uniform Resource Locator
- A PURL is a URL that points to a specific resource (like an article, book, or web page) on the web.
- When a resource's URL changes, a PURL can be updated to point to the new location, ensuring that the link remains valid.

Congressionally Mandated Reports

About the Congressionally Mandated Reports

Congressionally mandated reports are defined as those reports that are required by statute to be submitted by Federal agencies to the Senate, the House of Representatives, or to congressional committees or subcommittees. Agencies must now also submit these reports electronically to the U.S. Government Publishing Office (GPO) after first submitting to Congress, committees, or subcommittees as they do currently.

Not all congressionally mandated reports are required to be submitted to GPO for publication. The congressionally mandated reports in GovInfo are those that are in scope of Public Law 117-263, the James M. Inhofe National Defense Authorization Act for Fiscal Year 2023, sections 7241-7248, cited as the "Access to Congressionally Mandated Reports Act."

Additional resources related to congressionally mandated reports for Federal agencies can be found at <https://www.gpo.gov/congressionally-mandated-reports>.

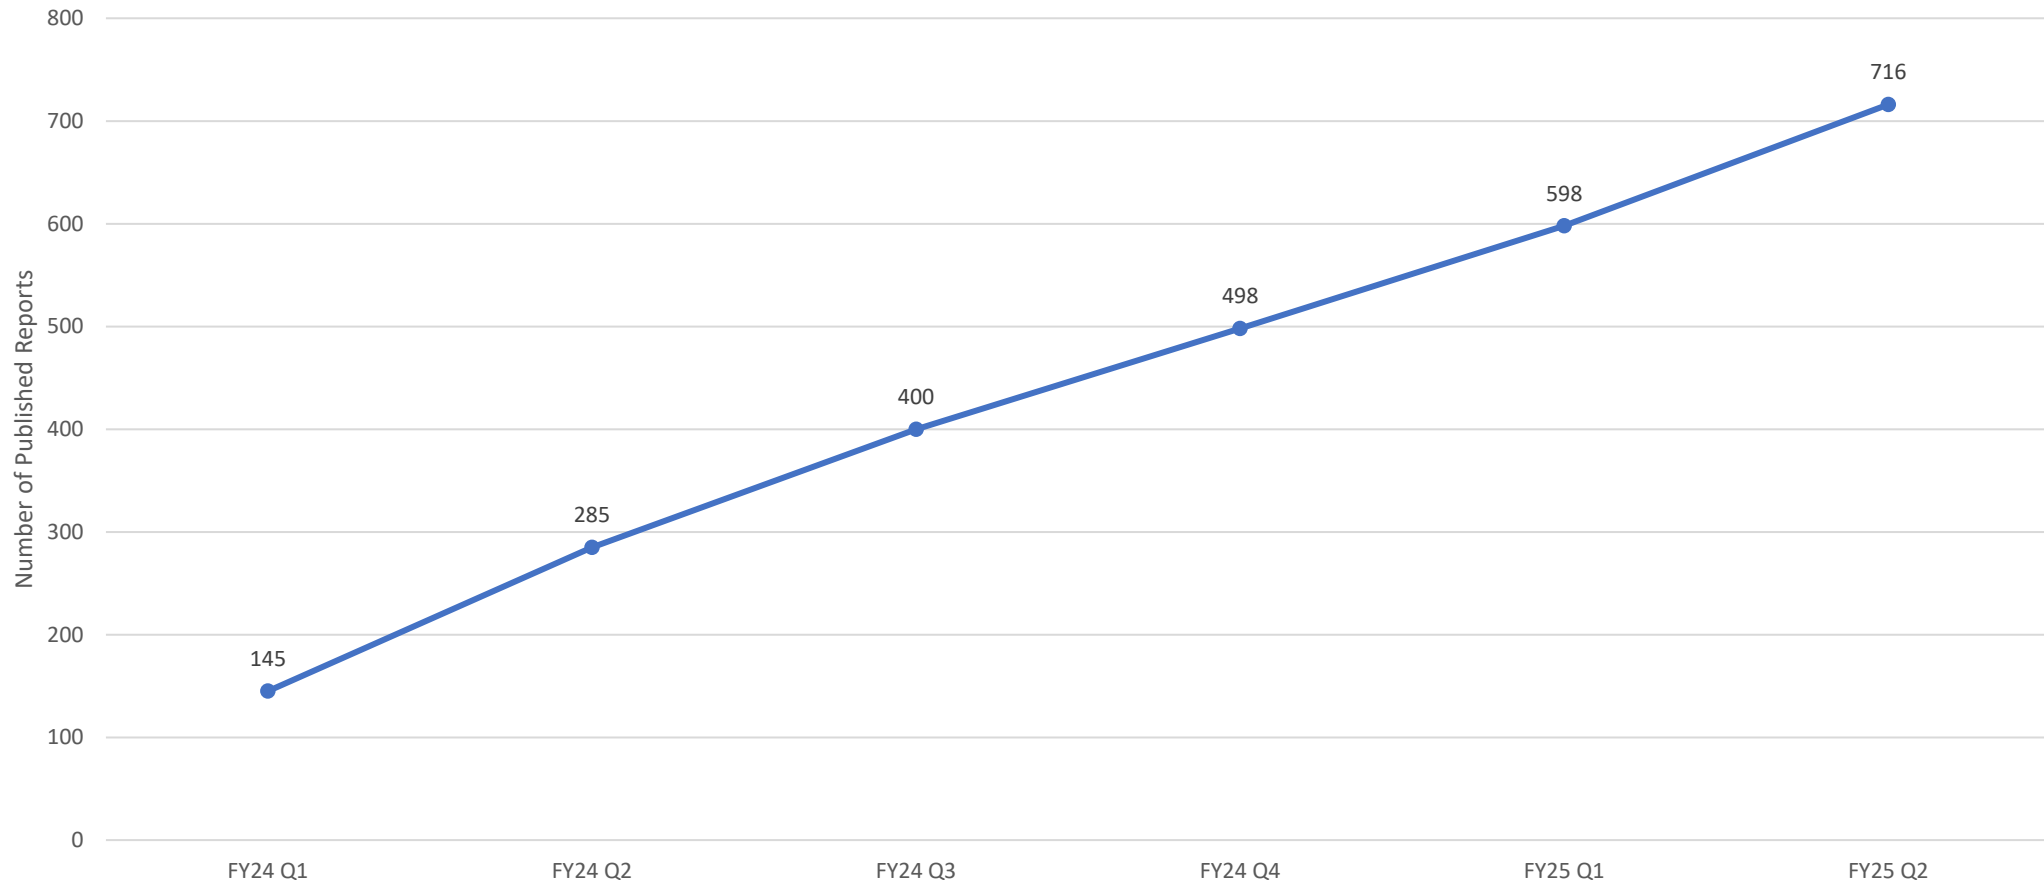

The Office of Management and Budget, in consultation with GPO, has issued guidance to agencies on submission of congressionally mandated reports: [OMB Guidance](#). [Read More](#).

About the United States Reports

The cases of the [Supreme Court of the United States](#) are published officially in the United States Reports. The volumes are compiled and published for the Court by the Reporter of Decisions. A volume of the United States Reports also usually contains a list of Justices and officers of the Court during the Term; an allotment of Justices by circuit; announcements of Justices' investitures and retirements; memorial proceedings for deceased Justices; a cumulative table of cases reported; orders in cases decided in summary fashion; reprints of amendments to the Supreme Court's Rules and the various sets of Federal Rules of Procedure; a topical index; and a statistical table summarizing case activity for the past three Court Terms.

This collection includes volumes 2 through 501. Volumes 502 through present are available from the [U.S. Supreme Court](#). The early volumes were privately published by the reporter, so the name of the reporter who compiled the volume appears in the United States Reports citation. In addition to U.S. Supreme Court cases, volumes 2-4 contain cases from Pennsylvania, the U.S. Court of Appeals, and the U.S. Circuit Court. In this collection, the Pennsylvania cases are only available in the full volume. Volume 1 contains only Pennsylvania cases, so is not included in this collection. [Read More](#)
