

Digital FDLP Tools - Chat Log

from Susanne Caro to everyone: 12:22 PM

The digital tool have really grown and improved! Anyone remember FDLPhys?

from Andrea Stelljes, DLC to everyone: 12:23 PM

+1 Susanne

from Daniel Cornwall to everyone: 12:23 PM

Example - DiscoverGov is a MUCH friendlier way to search Catalog of Government Publications (CGP)

from Cynthia Etkin to everyone: 12:23 PM

SME = subject matter experts

from Andie Craley to everyone: 12:23 PM

+1 Susanne

from Patricia A. Duplantis to everyone: 12:25 PM

DiscoverGov: <https://discover.gpo.gov/>

from Susanne Caro to everyone: 12:26 PM

Thank you for the citation button!

from Elisabeth Garner to everyone: 12:27 PM

@Susanne, agreed! Great for college students

from Patricia A. Duplantis to everyone: 12:27 PM

Thank you for the feedback, Susanne and Elisabeth.

from Charlie she-her Amiot, DLC to everyone: 12:28 PM

@Elisabeth, but will they pay attention to the warning to check the cite? :D

from Andie Craley to everyone: 12:28 PM

Oooo, did not know the QR code maker was directly in there! I've been using other QR makers. Nice!!!!

from Elisabeth Garner to everyone: 12:28 PM

@Charlie, right!?

from Kris Abery to everyone: 12:28 PM

Love the idea of the QR code maker

from Susanne Caro to everyone: 12:28 PM

The QRL generator is helpful for displays

from Patricia A. Duplantis to everyone: 12:29 PM

Thank you for the feedback, Andie.

from Sarah Caldwell to everyone: 12:29 PM

Is there a way to see a full list of the federal resources/databases that are searchable on Discover.gov? I'm poking around on the About page and haven't found it yet.

from Nick Rihn to everyone: 12:29 PM

Is there an api or plans to allow api access? Sorry if this exists somewhere else and I'm just not familiar with it.

from Patricia A. Duplantis to everyone: 12:31 PM

DiscoverGov Resources:

[https://discover.gpo.gov/primo-](https://discover.gpo.gov/primo-explore/search?query=any,contains,GPO_RES*&tab=cgp_tab&search_scope=CGP&vid=GPO)

[explore/search?query=any,contains,GPO_RES*&tab=cgp_tab&search_scope=CGP&vid=GPO](https://discover.gpo.gov/primo-explore/search?query=any,contains,GPO_RES*&tab=cgp_tab&search_scope=CGP&vid=GPO)

from Patricia A. Duplantis to everyone: 12:32 PM

Sarah: That information would be in the DiscoverGov Help page

<https://catalog.gpo.gov/discovergov/en/help.html>

from Andie Craley to everyone: 12:32 PM

Still like more SuDoc to LC tools, somehow if that is possible - we have integrated our print items into all regular collections on the shelf since 2013. Found at a community college, much easier that way.

from Patricia A. Duplantis to everyone: 12:33 PM

Nick: Thank you for the feedback. We will note as a suggestion for future consideration.

from Kelly Seifert to everyone: 12:33 PM

Order DiscoverGov sticky notes for your patrons! <https://www.fdlp.gov/news/order-discovergov-sticky-notes-your-patrons>

from Patricia A. Duplantis to everyone: 12:33 PM

Andie: Thank you for the feedback and suggestion.

from Andie Craley to everyone: 12:34 PM

I'm on it for those sticky notes! A popular item!

from James Jacobs to everyone: 12:34 PM

Question: how are discovergov and govinfo going to coexist going forward?

from Charlie she-her Amiot, DLC to everyone: 12:36 PM

For those wanting the slides, you can download them via the meeting platform, under Handouts.

from Sarah Caldwell to everyone: 12:37 PM

Thanks Patricia Duplantis. I'm not seeing a list of resources on

from Patricia A. Duplantis to everyone: 12:37 PM

James: They each have different functions. You can search GovInfo in DiscoverGov with other resources. For more information please see the our Help and About pages.

from Patricia A. Duplantis to everyone: 12:37 PM

DiscoverGov Help: <https://catalog.gpo.gov/discovergov/en/help.html>

DiscoverGov About:

<https://catalog.gpo.gov/discovergov/en/about-policies.html>

from Sarah Caldwell to everyone: 12:37 PM

On the DiscoverGov help page I see this: "DiscoverGov searches the Catalog of U.S. Government Publications (CGP), GovInfo, and many databases and catalogs from across the Federal Government."

from Kelly Seifert to everyone: 12:38 PM

Thanks, Charlie. All slides are also available for download via FDL.gov: <https://www.fdlp.gov/file-repository/1105/handouts-slides>

from Patricia A. Duplantis to everyone: 12:38 PM

Also, James: DiscoverGov is a search engine for the National Collection - including the cataloging and indexing program and other government resources. GovInfo is the trustworthy digital repository for digital government information - full text documents accessible directly and via API in other systems like Congress.gov

from Niamh Wallace to everyone: 12:38 PM

Do you see the intended users for govinfo and discovergov as being different?

from Andie Craley to everyone: 12:38 PM

James - from a catalogers brain, think of Discover.gov as a discovery layer that sits over top other resources and searches many resource sites at once (Govinfo, CGP, etc)

from Sarah Caldwell to everyone: 12:38 PM

There's a header on the Help page for "Items and Holdings" but that only references CGP.

from Charlie she-her Amiot, DLC to everyone: 12:40 PM

RIP fiche.

from Nick Rihn to everyone: 12:41 PM

New to gov docs: where can I find my FDL Number?

from Charlie she-her Amiot, DLC to everyone: 12:42 PM

@Nick, the FDL Directory! <https://fdlp.gov/fdl-directory>

from Nick Rihn to everyone: 12:42 PM

Thank you!

from Jonathan Underwood to everyone: 12:42 PM

Can you sort the list so it's viewable by item number, sort by Sudoc, title, etc.?

from Amy Fitch to everyone: 12:45 PM
@Andie - That info really helps my catalogers brain!

from Elisabeth Garner to everyone: 12:45 PM
Kudos to Ashley for all her recent help with using FDM to download our online gov doc records each month!

from Daniel Cornwall to everyone: 12:46 PM
Alaska State Library has been using FDM for MARC records since January. Currently new records for previous month available middle-ish of month.

from Charlie she-her Amiot, DLC to everyone: 12:46 PM
Someone needs to give Ashley an honorary PhD in spreadsheets.

from Andrea Stelljes, DLC to everyone: 12:46 PM
Is DSIMS still the tool to use for deselecting item numbers from our profile? Is it used in conjunction with FDLDP Datamanager?

from Joshua Olsen to everyone: 12:46 PM
+1 Charlie

from Mark Hamilton to everyone: 12:46 PM
+1 Charlie

from Kelly Smith, DLC to everyone: 12:46 PM
+1 Charlie :)

from Andie Craley to everyone: 12:46 PM
+1 Charlie. Very much agreed!

from Amy Laub, DLC to everyone: 12:46 PM
+1 Charlie

from Mary Russell to everyone: 12:46 PM
Do you have to be an OCLC cataloging member library to download these records?

from Perveen Rustomfram to everyone: 12:46 PM
+1 Charlie

from Charlie she-her Amiot, DLC to everyone: 12:47 PM
@Mary, not at all!

from Kris Aberly to everyone: 12:47 PM
+1 CharlieAshley is amazing

from Kelly Seifert to everyone: 12:47 PM
Yes, Ashley is the undisputed queen of spreadsheets

from Andie Craley to everyone: 12:47 PM

Mary - I don't believe so here at the FDLP Data Manager. But if you want to use OCLC Collection Manager, then yes, you need an OCLC cataloging subscription.

from Daniel Cornwall to everyone: 12:47 PM

Is there a way to filter to just newly created MARC records? It seems like modified records are also included.

from Elizabeth McDonald to everyone: 12:49 PM

Wonderful presentation Ashley

from Bernadette Johnson to everyone: 12:49 PM

Yes, that was a great presentation and very helpful!

from Perveen Rustomfram to everyone: 12:49 PM

+1 Elizabeth

from Andie Craley to everyone: 12:49 PM

I know I'm going to need to watch the recording later again to get that - Ashley is amazing!

from Kris Aberly to everyone: 12:50 PM

+1 Andie

from Charlie she-her Amiot, DLC to everyone: 12:50 PM

I never 100% know what Ashley is talking about when it comes to Data Manager and the like, because it's not my area, but I always come away having learned something new!

from Andrea Stelljes, DLC to everyone: 12:51 PM

+1 Charlie

from Elizabeth McDonald to everyone: 12:51 PM

dont see poll

from Elisabeth Garner to everyone: 12:51 PM

I don't use Github at our library, I don't see a poll either

from Daniel Cornwall to everyone: 12:51 PM

Downloaded set of Alaska-based records.

from Charlie she-her Amiot, DLC to everyone: 12:51 PM

You may need to click the Slido button at the bottom below chat if you're in WebEx.

from Elizabeth McDonald to everyone: 12:51 PM

thank you

from Elisabeth Garner to everyone: 12:51 PM

I saw the other polls though, that's odd

from Patricia A. Duplantis to everyone: 12:52 PM

Niamh: DiscoverGov is for searching gov info broadly - good for an overview, while GovInfo has search and browse for its content only - maybe for users who have a known-item need.

from Elisabeth Garner to everyone: 12:53 PM

@Charlie, that was it, needed to hit the Slido button, thanks!

from Sinai Wood to everyone: 12:55 PM

If we don't respond to the poll will we see the results?

from Charlie she-her Amiot, DLC to everyone: 12:55 PM

I selected Other. Frankly, I only did it to see what it looked like. Not my general area. When I do use Github, I use it for firmware for 3D printers.

from Cassandra Wenzel to everyone: 12:55 PM

I use it for web development sometimes.

from Sinai Wood to everyone: 12:55 PM

I see the results!

from Tom Rohrig to everyone: 12:58 PM

/

from Elizabeth McDonald to everyone: 12:59 PM

We also change fields.

from Channa Cajero to everyone: 1:00 PM

Thank you!

from Patricia A. Duplantis to everyone: 1:00 PM

Thank you for all the great feedback on DiscoverGov at last week's Pre-meeting and today. We appreciate it.

from Charlie she-her Amiot, DLC to everyone: 1:00 PM

Thank you!

from Cassandra Wenzel to everyone: 1:00 PM

Thank you all!

from Daniel Cornwall to everyone: 1:00 PM

Thank you!

from Joshua Finnell, DLC to everyone: 1:00 PM

Thank you!

from Keven McGinn to everyone: 1:01 PM

Thanks!
